INDEPENDENT AUDITORS' REPORT

Board of Regents
Paris Junior College
Paris, Texas

Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of Paris Junior College (the College) and Paris Junior College Memorial Foundation (the Foundation), a discretely presented component unit, as of and for the years ended August 31, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the College's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of Paris Junior College and Paris Junior College Memorial Foundation, a discretely presented component unit, as of August 31, 2020 and 2019, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis, Schedule of the College's Proportionate Share of Net Pension Liability, Schedule of the College's Pension Contributions, Schedule of the College's Proportionate Share of the Net OPEB Liability, and Schedule of the College's OPEB Contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the College's basic financial statements. The accompanying supplementary schedules and statistical section is presented for purposes of additional analysis and are not a required part of the basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and is also not a required part of the basic financial statements. The schedule of expenditures of State of Texas awards, required by the State of Texas Single Audit Circular and the supplementary schedules, is also not a required part of the basic financial statements.

The schedule of expenditures of federal awards, the schedule of expenditures of State of Texas Awards, and the supplementary schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards, the schedule of expenditures of State of Texas awards, and the supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The statistical section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 20, 2021, on our consideration of the College's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Paris Junior College's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the College's internal control over financial reporting and compliance.

**Paris Junior College
Management's Discussion and Analysis
August 31, 2020 and 2019**

Management of Paris Junior College provides this Management's Discussion and Analysis of Paris Junior College for readers of the College's financial statements. This narrative overview and analysis of the financial activities of the College is for the fiscal year ended August 31, 2020. We encourage readers to consider this information in conjunction with the College's financial statements and the notes to the financial statements which follow.

Financial Highlights

Net position increased by \$2,721,913 in 19/20. Net position increased by \$2,987,487 in 18/19 before the prior period adjustment in the current year in the amount of \$454,828.

In 17/18, the College implemented GASB Statement 75, *Accounting and Financial Reporting for Postemployment Benefits Other than Pensions*. New categories were added to the College's Statement of Net Position related to GASB Statement 75; they include Deferred Outflows of Resources and Deferred Inflows of Resources related to the accounting for other postemployment benefit expenditures (OPEB). In addition, the implementation of GASB 75 resulted in a cumulative effect of change in accounting principle that is also reflected on the College's Statement of Net Position.

Net position at the end of 19/20 was \$29,957,177 and \$27,235,264 in 18/19, as restated.

Paris Junior College made changes to tuition and fees for the 2019-2020 academic year. In-district tuition increased to \$56 per semester credit hour; out-of-district tuition increased to \$106 per semester credit hour (\$56 tuition plus an out-of-district fee of \$50), and non-resident tuition increased to \$156 per semester credit hour. All students were charged a \$25 per semester credit hour general fee.

Net tuition and fee revenue decreased 2.19% or \$156,172 from \$7,131,226 in 18/19 to \$6,975,054 in 19/20. Tuition revenue was higher by approximately \$369,000 which was offset by lower fee revenue of \$474,644 and increased net scholarship allowances and discounts of \$50,251.

Federal Non-Operating grants and contracts revenue decreased .92% or \$76,088 from \$8,280,684 in 18/19 to \$8,204,616 in 19/20. Investment income decreased 34% due to declining interest rates during the year.

During 19/20, Paris Junior College had several departmental equipment improvements and additions such as additions to the fleet, parking lot asphalt and restriping, and other instructional equipment. The cost of the projects funded through current operations and totalled \$245,553.

State appropriations increased 2.38% or \$200,667 from \$8,421,635 in 18/19 to \$8,622,302 in 19/20. Funding is based on core operations, contact hours, and success points. Paris Junior College continues to see success in its implementation of student pathways which leads to better student success in the long term. The change in state appropriations is related to a decrease in funding for state group insurance of (\$47,688) and an increase in state retirement matching of \$438,420 as calculated per GASB 68 and GASB 75.

There are three primary revenue sources: tuition and fees, state appropriations, and local tax revenue. While there continue to be funding and enrollment challenges, Paris Junior College's goal is to make sure there are accessible and affordable educational opportunities available to the residents of our area by utilizing these resources effectively and efficiently. This goal includes academic preparation for those who seek to transfer to a university as well as providing certificates and associate degrees in workforce programs to better meet the needs of local business and industry.

Paris Junior College experienced disruption in traditional educational services due to state and national responses to the COVID-19 pandemic during the year. This disruption resulted in reduced operating revenue for the year.

Paris Junior College
Management's Discussion and Analysis (Continued)
August 31, 2020 and 2019

Overview of the Financial Statements

The Annual Financial Report consists of a series of financial statements. The core statements are known as the *Statement of Net Position*, the *Statement of Revenues, Expenses, and Changes in Net Position*, and the *Statement of Cash Flows*. These statements comply with all the Statements issued by the Governmental Accounting Standards Board (GASB) that are currently in effect.

Statement of Net Position

The Statement of Net Position presents all of the College's assets and liabilities with the difference between the two reported as "net position". Over time, increases or decreases in the College's net position may serve as a useful indicator of whether the financial position of the College is improving or deteriorating. This statement combines and consolidates current financial resources (short-term spendable resources) with capital assets.

The Statement of Revenues, Expenses, and Changes in Net Position

The Statement of Revenues, Expenses, and Changes in Net Position focuses on both the gross costs and the net costs of the college activities which are supported mainly by state appropriations, Federal revenue, ad valorem taxes and tuition and fee revenues. This approach is intended to summarize and simplify the user's analysis of costs of various college services to students and the public. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

The two statements above report the College's net position and changes in net position. The change in net position provides the reader a tool to assist in determining whether the College's financial health is improving or deteriorating. The reader will need to consider other non-financial factors such as property tax base, current property tax laws, student enrollment growth, and facility conditions in arriving at their conclusion regarding the overall health of the College.

Statement of Cash Flows

The Statement of Cash Flows is presented on the direct method to illustrate the sources and uses of cash for operating activities of the College. The primary purpose of cash flow analysis is to provide relevant information about the cash receipts and cash payments of an entity during a period. The Statement of Cash Flows also may help users assess the College's ability to generate future net cash flows, to meet its obligations as they come due, and to determine its need for external financing.

Notes to Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to financial statements can be found immediately following the basic financial statements.

Affiliated Organization

The Paris Junior College Memorial Foundation is a component unit of Paris Junior College. The financial statements of the Foundation are presented with those of the College. The prescribed presentation is for the Foundation's statement to be presented separately in a format known as a discrete presentation. For fiscal year 2019-2020 the net assets of the Foundation increased \$613,548 from \$21,259,261 in 18/19 to \$21,872,809 in 19/20. This increase was due to modest market performance for the year.

Discussion of GASB Statement 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions

The statement of net assets assesses the balance of the College's *assets* (the resources it can use to provide services and operate the entity) against its *liabilities* (its obligations to turn over resources to other organizations or individuals). The Total Assets plus Deferred Outflows of Resources minus Total Liabilities and Deferred Inflows of Resources equals Total Net Position. Paris Junior College adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, for fiscal year 2017-2018. As part of that adoption, the College included a cumulative effect of change in accounting principle of (\$24,349,927) and the restatement was made directly to the beginning net position in 17/18.

August 31, 2020 and 2019

Capital Asset and Long-Term Debt Activity

Capital Assets

The College's investment in capital assets as of August 31, 2020 amounts to \$58,811,457 net of accumulated depreciation of \$20,644,702 leaving a net book value of \$38,166,755. This investment in capital assets includes land, collections, buildings and improvements, furniture and equipment, vehicles, and library books. Please refer to the notes to the financial statements for more detail on capital assets.

Long-Term Debt Activity

At the end of the fiscal year, the College had \$10,560,000 outstanding in bonds payable versus \$11,391,000 outstanding at the end of August 2019.

There are three revenue bonds outstanding at year end. The 2006, 2007, and 2012 revenue bonds' principal and interest outstanding at year end was \$13,286,433

The College no longer carries an active bond rating; however, in the past the College's bond rating for debt was "A-" with a rating outlook for the intermediate to longer term of stable as rated by Standard & Poor's. The College's bond rating for debt was "A3" with a rating outlook for the intermediate to longer term of stable as rated by Moody's.

Paris Junior College
Notes to Financial Statements
August 31, 2020 and 2019

1. Reporting Entity

Paris Junior College (PJC) was established in 1924, in accordance with the laws of the State of Texas, to serve the educational needs of Paris and the surrounding communities. The College is considered to be a special purpose, primary government according to the definition in Government Accounting Standards Board (GASB) Statement No. 14. While the College receives funding from local, state and federal sources, and must comply with spending, reporting, and record-keeping requirements of these entities, it is not a component unit of any other governmental entity. One organization, the Paris Junior College Memorial Foundation, Inc. meets the criteria of GASB pronouncements and has been presented as a discrete component unit of the College (see Note 17).

2. Summary of Significant Accounting Policies

Reporting Guidelines

The significant accounting policies followed by the College in preparing these financial statements are in accordance with the *Texas Higher Education Coordinating Board's Annual Financial Reporting Requirements for Texas Public Community Colleges*. The College applies all applicable GASB pronouncements. The College is reported as a special-purpose government engaged in business-type activities.

The College presents its net position (or equity) into the following three components:

Net Investment in Capital Assets - This component consists of capital assets net of accumulated depreciation and reduced by the outstanding debt that is attributable to the acquisition, construction, or improvement of those assets.

Restricted - This component includes those assets upon which constraints have been placed on their utilization. Such constraints may be externally (by creditors, grantors, contributors, or laws or regulations of other governments) or imposed by law through constitutional provisions or enabling legislation.

Unrestricted - This component represents the net position that is available for use to fulfill the educational purposes of the college. It includes all net position that are not classified as "net investment in capital assets" or "restricted."

Tuition Discounting

Texas Public Education Grants (TPEG)

Certain tuition amounts are required to be set aside for use as scholarships by qualifying students. This set-aside, called the (TPEG), is shown with tuition and fee revenue amounts as a separate set-aside amount (TEC section 56.033). When the award is used by the student for tuition and fees, the amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Title IV, Higher Education Act (HEA) Program Funds

Certain Title IV HEA Program funds are received by the College to pass through to the student. These funds are initially received by the College and recorded as revenue. When the award is used by the student for tuition and fees, the amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Other Tuition Discounts

The College awards tuition and fee scholarships from institutional funds to students who qualify. When these amounts are used for tuition and fees, the amount is recorded as a tuition discount. If the amount is dispersed directly to the student, the amount is recorded as a scholarship expense.

Basis of Accounting

The financial statements of the College are reported using the economic resources measurement focus and the accrual basis whereby revenues are recorded when earned and all expenses are recorded when they have been reduced to a legal or contractual obligation to pay. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

2. **Summary of Significant Accounting Policies (Continued)**

Budgetary Data

Each community college district in Texas is required by law to prepare an annual operating budget of anticipated revenues and expenditures for the fiscal year beginning September 1. The College's Board of Regents adopts the budget, which is prepared on the accrual basis of accounting. A copy of the approved budget and subsequent amendments must be filed with the Texas Higher Education Coordinating Board, Legislative Budget Board, Legislative Reference Library, and Governor's Office of Budget and Planning by December 1.

Cash and Cash Equivalents

The College's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Deferred Outflows

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense) until then. Governments are permitted only to report deferred outflows in circumstances specifically authorized by the GASB.

Investments

In accordance with GASB Statement No. 31, *Accounting and Financial Reporting for Certain Investments and External Investment Pools*, investments are reported at fair value. Fair values are based on published market rates. Short-term investments have an original maturity greater than three months but less than one year at time of purchase. Long-term investments have an original maturity of greater than one year at the time of purchase.

Inventories

Inventories consist of jewelry, horology, gemology, welding, and electronics tools, books, and materials for sale to students. Inventories are valued at cost using the first-in, first-out method.

Capital Assets

Capital assets are recorded at cost at the date of acquisition or fair market value at the date of donation. For equipment, the College's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life in excess of one year. Renovations to buildings, infrastructure and land improvements that significantly increase the value or extend the useful life of the structure are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend the assets' lives are charged to operating expense in the year in which the expense is incurred.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 50 years for buildings, 20 years for land improvements, 15 years for library books, 10 years for furniture, machinery, vehicles, and other equipment, and 5 years for telecommunications and peripheral equipment.

Collections: In accordance with guidance issued by the Texas Comptroller of Public Accounts, collections are capitalized but not depreciated. Collections are valued at their historical cost or fair value at the date of donation. The College has statues and antique pianos and organs which it capitalizes as collections. These collections are not depreciated due to the inexhaustible nature of these assets.

Restricted Resources

When the College incurs an expense for which it may use either restricted or unrestricted assets, it uses the restricted assets first unless unrestricted assets will have to be returned because they were not used.

Other Post-Employment Benefits (OPEB)

The fiduciary net position of the Employees Retirement System of Texas (ERS) State Retiree Health Plan (SRHP) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes, for purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to other postemployment benefits; OPEB expense; and information about assets, liabilities and additions to/deductions from SRHP's fiduciary net position. Benefit payments are recognized when due and are payable in accordance with the benefit terms.

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

2. Summary of Significant Accounting Policies (Continued)

Pensions

The College participates in the Teacher Retirement System of Texas (TRS) pension plan, a multiple-employer cost-sharing-defined pension plan with a special funding situation. The fiduciary net position of TRS has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes, for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TRS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value.

Unearned Revenues

Tuition, fees and other revenues received and related to future periods have not been recognized in the current year and have been presented as a liability (unearned revenues) in these financial statements. Tuition and fees and housing charges of \$4,790 and \$5,525,806 and federal, state and local grants of \$1,141,191 and \$1,103,006 have been reported as unearned revenues at August 31, 2020 and 2019, respectively.

Deferred Inflows

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so is not recognized as an inflow of resources (revenue) until that time. Governments are permitted only to report deferred inflows in circumstances specifically authorized by the GASB.

Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Operating and Non-Operating Revenue and Expense Policy

The College distinguishes operating revenues and expenses from non-operating items. The College reports as a business-type entity and as a single, proprietary fund. Operating revenues and expenses generally result from providing services in connection with the College's principal on-going operations. The principal operating revenues are tuition and related fees. The major non-operating revenues are state appropriations and property tax collections. Operating expenses include the cost of sales and services, administrative expenses, and depreciation on capital assets. The operations of food services and the bookstore are not performed by the College but are contracted to independent vendors.

Prior Year Restatement

The previous years deferred outflow balance was inaccurate. Accordingly, a restatement to beginning net position was required for the recording of deferred outflows of resources related to OPEB for contributions made to the ERS OPEB plan subsequent to the measurement date of the beginning net OPEB liability.

	2019
Increase (Decrease) in Net Position	\$ 2,987,487

Net Position - End of Year	\$ 27,235,264

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

3. Authorized Investments

Paris Junior College is authorized to invest in obligations and instruments as defined in the Public Investment Act (Sec. 2256.001 Texas Government Code). Such investments include (1) obligations of the United States or its agencies, (2) direct obligations of the State of Texas or its agencies, (3) obligations of political subdivisions rated not less than A by a national investment rating firm, (4) certificates of deposit, and (5) other instruments and obligations authorized by statute. At August 31, 2020, Paris Junior College's short-term investments consisted of certificates of deposit. Paris Junior College had no long-term investments at August 31, 2020.

In accordance with generally accepted accounting principles, investment in financial and nonfinancial assets are reported in a three-tiered hierarchy as follows:

Level I - Fair Values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Level II - Fair Values are based on generally indirect information such as quoted prices for similar assets or liabilities in active markets, or quoted prices for identical or similar assets or liabilities in markets that are not active.

Level III - Fair values are based on inputs other than quoted prices included within Level I that are unobservable and include the College's own assumptions about pricing.

This fair value hierarchy gives the highest priority to Level I inputs and the lowest priority to Level III inputs. The College's certificate of deposit investments are classified in Level I of the hierarchy.

4. Deposits and Investments

At August 31, 2020 and 2019, the total amount of Paris Junior College's deposits was \$27,609,212 and \$29,313,561 respectively. Bank balances of \$500,000 were covered by federal depository insurance at August 31, 2020 and 2019 and \$28,563,488 and \$29,861,085 were covered by collateral pledged in PJC's name. No collateral was held by PJC or by its agent.

Custodial credit risk for deposits is the risk that in the event of a bank failure, the College's deposits may not be returned or the College will not be able to recover collateral securities in the possession of an outside party. The College's policy requires deposits to be 100% secured by collateral valued at the market less the amount of the Federal Deposit Insurance Corporation (FDIC) insurance. At August 31, 2020 the College's deposits are not exposed to custodial risk.

The following schedules summarizes the College's investments on a recurring basis, as of August 31, 2020

Type of Security	Fair Value	Investment Maturities (in Years)		
		Less than 1	1 to 2	More than 2
Certificate of Deposits	\$ 15,000,000	\$ 15,000,000	\$ -	\$ -
Total Investments	\$ 15,000,000	\$ 15,000,000	\$ -	\$ -

The following schedules summarizes the College's investments on a recurring basis, as of August 31, 2019

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

4. Deposits and Investments (Continued)

The College is a participant in the State of Texas TexPool investment pool. TexPool operates in a manner consistent with the SEC's rule 2a-7 of the Investment Company Act of 1940. As such, TexPool uses amortized cost to report net position and share prices, since those approximate fair values and are not required to be reported by levels. Accordingly, the fair value of the position in TexPool is the same as the value of the TexPool shares. Texpool's audited financial statements can be obtained at the Texas treasury Safekeeping Trust Company's website at www.tstsc.org. The College includes TexPool holdings as part of cash and cash equivalents.

The following schedules summarizes the College's investment pool holdings on a recurring basis, as of August 31, 2020 and 2019.

<u>Type of Security</u>	<u>Fair Value</u>	<u>Credit Rating</u>	<u>2020</u>	<u>2019</u>
TexPool	\$ 4,052,110	AAA	\$ 4,052,110	\$ -
Total Investment Pools	<u>\$ 4,052,110</u>		<u>\$ 4,052,110</u>	<u>\$ -</u>

Credit Risk is the risk that an insurer or other counterparty to an investment will not fulfill its obligations. In accordance with State law and the College's investment policy, investments in mutual funds and external pools must be rated at least AAA, commercial paper must be rated at least A-1 or P-1, and investments in obligations from other states, municipalities, counties, etc must be rated at least A.

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty, the College will not be able to recover the value of its investments or collateral securities that are in possession of an outside party.

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. Investments held for longer periods are subject to increased risk of adverse interest rate changes. The College's policy provides that investments to be purchased must have final maturities of five years or less.

Concentration of credit risk is the risk of loss attributed to the magnitude of the College's investments in a single issuer. The College's policy does not place a limit on the amount that may be invested in any one issuer. This risk does not apply to U.S Government securities or investments in an external investment pool. At August 31, 2020 and 2019, the College did not have a concentration of credit risk in its investment portfolio.

The Public Funds Investment Act also requires the College to have independent auditors perform test procedures related to investment practices as prescribed by that legislation. The College is in substantial compliance with the requirements of the Public Funds Investment Act.

Cash and Deposits included on Exhibit 1, Statement of Net Position, consist of the items reported below:

Bank Deposits	<u>2020</u>	<u>2019</u>

PJC has three series of revenue bonds outstanding that bear interest from 4.25% to 4.50%. They are due serially in varying amounts aggregating from \$735,000 to \$1,109,000 through March 15, 2032. Revenues of PJC are pledged for the payment of principal and interest on these bonds. Interest of \$488,219 was paid for the year ended August 31, 2020 on revenue bonds.

Debt service requirements at August 31, 2020 were as follows:

Year Ending August 31,	Revenue Bonds		Total
	Principal	Interest	
2021	\$ 854,000	\$ 467,180	\$ 1,321,180
2022	690,000	429,091	1,319,091

7. Employees' Retirement Plans

The State of Texas has joint contributory retirement plans for almost all its employees.

Teacher Retirement System of Texas-Defined Benefit Plan

Plan Description. Paris Junior College participates in a cost-sharing multiple-employer defined benefit pension that has a special funding situation. The plan is administered by the Teacher Retirement System of Texas (TRS). TRS's defined benefit pension plan is established and administered in accordance with the Texas Constitution, Article XVI, Section 67 and Texas Government Code, Title 8, Subtitle C. The pension trust fund is a qualified pension trust under Section 401(a) of the Internal Revenue Code. The Texas Legislature establishes benefits and contribution rates within the guidelines of the Texas Constitution. The pension's Board of Trustees does not have the authority to establish or amend benefit terms.

All employees of public, state-supported educational institutions in Texas who are employed for one-half or more of the standard work load and who are not exempted from membership under Texas Government Code, Title 8, Section 822.002 are covered by the system.

Pension Plan Fiduciary Net Position. Detailed information about the Teacher Retirement System's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. That report may be obtained on the Internet at <http://www.trs.texas.gov.pdf>; by writing to TRS at 1000 Red River Street, Austin, TX, 78701-2698; or by calling (512)542-6592.

Benefits Provided. TRS provides service and disability retirement, as well as death and survivor benefits, to eligible employees (and their beneficiaries) of public and higher education in Texas. The pension formula is calculated using 2.3 percent (multiplier) times the average of the five highest annual creditable salaries times years of credited service to arrive at the annual standard annuity except for members who are grandfathered, whose formulas use the three highest annual salaries are used. The normal service retirement is at age 65 with 5 years of credited service or when the sum of the member's age and years of credited service equals 80 or more years. Early retirement is at age 55 with 5 years of service credit or earlier than 55 with 30 years of service credit. There are additional provisions for early retirement if the sum of the member's age and years of service credit total at least 80, but the member is less than age 60 or 62 depending on date of employment, or if the member was grandfathered in under a previous rule. There are no automatic post-employment benefit changes; including automatic cost of living adjustments (COLA). Ad hoc post-employment benefit changes, including ad hoc COLAs can be granted by the Texas Legislature as noted in the Plan description above.

Contributions. Contribution requirements are established or amended pursuant to Article 16, section 67 of the Texas Constitution which requires the Texas Legislature to establish a member contribution rate of not less than 6 percent of the member's annual compensation and a state contribution rate of not less than 6 percent and not more than 10 percent of the aggregate annual compensation paid to members of the system during the fiscal year. Texas Government Code section 821.006 prohibits benefit improvements, if as a result of the particular action, the time required to amortize TRS's unfunded actuarial liabilities would be increased to a period that exceeds 31 years, or, if the amortization period already exceeds 31 years, the period would be increased by such action.

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

7. Employees' Retirement Plans (Continued)

Employee contribution rates are set in state statute, Texas Government Code 825.402. The 85th Texas Legislature, General Appropriations Act (GAA) established the employer contribution rates for fiscal years 2019 and 2020.

	Contribution Rates	
	2020	2019
Member	7.7%	7.7%
Non-Employer Contributing Entity (State)	6.8%	6.8%
Employers	6.8%	6.8%
Paris Junior College Contributions	\$ 372,839	\$ 328,112
State of Texas On-behalf Contributions	\$ 211,028	\$ 214,881

As the non-employer contributing entity for public education and junior colleges, the State of Texas contributes to the retirement system an amount equal to the current employer contribution rate times the aggregate annual compensation of all participating members of the pension trust fund during that fiscal year reduced by the amounts described below which are paid by the employers.

Public junior colleges or junior college districts are required to pay the employer contribution rate in the following instances:

- On the portion of the member's salary that exceeds the statutory minimum for members entitled to the statutory minimum under Section 21.402 of the Texas Education Code.
- During a new member's first 90 days of employment.
- When any part of all of an employee's salary is paid by federal funding sources, a privately sponsored source, from non-educational and general, or local funds.
- When the employing district is a public junior college or junior college district, the employer shall contribute to the retirement system an amount equal to 50% of the state contribution rate for certain instructional or administrative employees; and 100% of the state contribution rate for all other employees.
- In addition to the employer contributions listed above, when employing a retiree of the Teacher Retirement System the employer shall pay both the member contribution and the state contribution as an employment after retirement surcharge.

Actuarial Assumptions. The total pension liability in the August 31, 2019, actuarial valuation was determined using the following actuarial assumptions:

Valuation Date	August 31, 2019
Actuarial Cost Method	Individual Entry Age Normal
Asset Valuation Method	Market Value
Actuarial Assumptions:	
Single Discount Rate	7.25%
Long-term Expected Investment Rate of Return*	7.25%
Municipal Bond Rate*	3.69%
Last year ending August 31 in the 2016 to 2115 Projection period (100 years)	2116
Inflation	2.30%
Salary increases including inflation	3.50% to 9.50%
Payroll Growth Rate	2.50%
Benefit changes during the year	None
Ad hoc post-employment benefit changes	None

*Source for the rate is the Fixed Income Market Data/Yield Curve/Data Municipal Bonds with 20 years to maturity that include only federally tax exempt municipal bonds as reported in Fidelity Index's "20-Year Municipal Go AA Index."

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

7. Employees' Retirement Plans (Continued)

The actuarial methods and assumptions were selected by the board of trustees based upon analysis and recommendations by the system's actuary. The board of trustees has sole authority to determine the actuarial assumptions used for the plan. The actuarial methods and assumptions were primarily based on a study of actual experience for the three-year period ending August 31, 2017 and were adopted in July 2018. There were no changes to the actuarial assumptions or other inputs that affected the measurement of the total pension liability since the prior measurement period. Assumptions, methods, and plan changes were updated from the prior year's report. The net pension liability increased significantly since the prior measurement date due to a change in the following actuarial assumptions:

- The total pension liability as of August 31, 2019 was developed using a roll-forward method from the August 31, 2017 valuation.
- Demographic assumptions including postretirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2017.
- Economic assumptions including rates of salary increase for individual participants was updated based on the same experience study.
- The discount rate changed from 6.907 percent as of August 31, 2019 to 7.25 percent as of August 31, 2020.
- The long-term assumed rate of return changed from 8 percent to 7.25 percent.
- The change in the long-term assumed rate of return combined with the change in the single discount rate was the primary reason for the increase in the net pension liability.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Discount Rate. The discount rate used to measure the total pension liability was 7.25 percent. The single discount rate was based on the expected rate of return on pension plan investments of 7.25 percent and a municipal bond rate of 3.69 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments until the year 2069. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments after that date. The long-term rate of return on pension plan investments is 7.25 percent. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of geometric real rates of return for each major asset class included in TRS' target asset allocation as of August 31, 2019, are summarized on the following table:

Paris Junior College

Discount Rate Sensitivity Analysis. The following schedule shows the impact of the Net Pension Liability if the discount rate used was 1 percent less than and 1 percent greater than the discount rate that was used (7.25%) in measuring the 2019 Net Pension Liability.

	<u>1% Decrease in Discount Rate (6.25%)</u>	<u>Discount Rate (7.25%)</u>	<u>1% Increase in Discount Rate (8.25%)</u>
Paris Junior College's Proportionate Share of the Net Pension Liability:	\$ 7,731,904	\$ 5,030,041	\$ 2,841,011

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At August 31, 2020 Paris Junior College reported a liability of \$5,030,041 for its proportionate share of the TRS's net pension liability. This liability reflects a reduction for State pension support provided to Paris Junior College. The amount recognized by Paris Junior College as its proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with Paris Junior College were as follows:

	<u>2020</u>	<u>2019</u>
Paris Junior College' Proportionate Share of the Collective Net Pension Liability	\$ 5,030,041	\$ 5,587,806
State's Proportionate Share that is Associated with Paris Junior College	3,134,279	3,467,855
Total	<u>\$ 8,164,320</u>	<u>\$ 8,201,171</u>

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

7. Employees' Retirement Plans (Continued)

The net pension liability was measured as of August 31, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2018 through August 31, 2019.

At the measurement date of August 31, 2019, the employer's proportion of the collective net pension liability was 0.00968%, which was a decrease of 0.0005% from its proportion measured as of August 31, 2018.

For the year ended August 31, 2020, Paris Junior College recognized pension expense of \$492,351 and revenue of \$492,351 for support provided by the State. Refer to the 2018 Schedule of On-Behalf Contributions for this information posted on the TRS website under GASB Statements 67 & 68.

At August 31, 2020, Paris Junior College reported its proportionate share of the TRS's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	2020 Deferred Outflows of Resources	2020 Deferred Inflows of Resources
Differences Between Expected and Actual Economic Experience	\$ 21,131	\$ 644,900
Changes in Actuarial Assumptions	1,560,566	174,651
Difference Between Projected and Actual Investment Earnings	302,408	251,900
Changes in Proportion and Difference Between the Employer's Contributions and the Proportionate Share of Contributions	81,174	446,484
Contributions Paid to TRS Subsequent to the Measurement Date	327,627	-
Total	<u>\$ 2,292,906</u>	<u>\$ 1,517,935</u>
	2019 Deferred Outflows of Resources	2019 Deferred Inflows of Resources
Differences Between Expected and Actual Economic Experience	\$ 34,830	\$ 62,959
Changes in Actuarial Assumptions	2,014,673	137,103
Difference Between Projected and Actual Investment Earnings	290,394	396,419
Changes in Proportion and Difference Between the Employer's Contributions and the Proportionate Share of Contributions		406,773
Contributions Paid to TRS Subsequent to the Measurement Date	388,274	-
Total	<u>\$ 2,728,171</u>	<u>\$ 1,003,254</u>

The net amounts of the employer's balances of deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended August 31:	Pension Expense Amount
2021	\$ 82,631
2022	56,755
2023	146,900
2024	141,054
2025	45,543
Thereafter	(25,541)

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

7. Employees' Retirement Plans (Continued)

Optional Retirement Plan-Defined Contribution Plan

Plan Description. Participation in the Optional Retirement Program is in lieu of participation in the Teacher Retirement System. The optional retirement program provides for the purchase of annuity contracts and operates under the provisions of the Texas Constitution, Article XVI, Sec. 67, and Texas Government Code, Title 8, Subtitle C.

Funding Policy. Contribution requirements are not actuarially determined but are established and amended by the Texas legislature. The percentages of participant salaries currently contributed by the state, the College and each participant are 3.3%, 3.3% and 6.65%, respectively. The College contributes 1.31 percent for employees who were participating in the optional retirement program prior to September 1, 1995. Benefits fully vest after one year plus one day of employment. Because these are individual annuity contracts, the state has no additional or unfunded liability for this program. S.B. 1812, effective September 1, 2013, limits the amount of the state's contribution to 50% of eligible employees in the reporting district. In certain instances, the College is required to make all or a portion of the State's contribution.

The retirement expense to the state for the College was \$593,306 and \$438,420 for the fiscal years ended August 31, 2020 and 2019, respectively. This amount represents the portion of expended appropriations made by the Legislature on behalf of the College.

The total payroll for all College employees was \$12,283,921 and \$11,991,712 for fiscal years 2020 and 2019, respectively. The total payroll of employees covered by the Teacher Retirement System was \$8,242,715 and \$8,035,171 and the total payroll of employees covered by the Optional Retirement Program was \$3,103,260 and \$2,891,725 for fiscal years 2020 and 2019, respectively.

Deferred Compensation Program

College employees may elect to defer a portion of their earnings for income tax and investment purposes pursuant to authority granted in Texas Government Code 609.001.

As of August 31, 2020 and 2019, the College had 12 and 14 employees, respectively, participating in a deferred compensation program. A total of \$73,260 and \$102,653 in payroll deductions were invested in approved plans during the years ended August 31, 2020 and 2019, respectively.

8. Compensated Absences

Sick leave, which can be accumulated up to 480 hours, is earned at the rate of 8 hours per month. It is paid to an employee who misses work because of illness. No accumulated sick leave is paid upon termination of employment. Vacation leave does not accumulate or carryover to subsequent years. Therefore, Paris Junior College does not accrue a liability related to compensated absences.

9. Health Care and Life Insurance Benefits

Certain health care and life insurance benefits for active employees are provided through an insurance company whose premiums are based on benefits paid during the previous year. The state recognizes the cost of providing these benefits by expending the annual insurance premiums. The state's contribution per full-time employee was \$625 per month for the year ended August 31, 2020, (\$625 per month for 2019) and totaled \$1,246,098 for 2020 (\$1,250,765 for the year ended 2019). The cost of providing those benefits for 144 retirees in the year ended 2020 as \$522,079 (retiree benefits for 134 retirees cost \$488,131 in 2019). For 207 active employees, the cost of providing benefits was \$724,020 for the year ended 2020 (active employee benefits for 201 employees cost \$762,634 for the year ended 2019). SB 1812, 83rd Texas Legislature, Regular Session, effective September 1, 2013, limits the amount of the state's contribution to 50% of eligible employees in the reporting district.

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

10. Other Post-Employment Benefits (OPEB)

Plan Description. Paris Junior College participates in a cost-sharing, multiple-employer, other post-employment benefit (OPEB) plan with a special funding situation. The Texas Employees Group Benefits Program (GBP) is administered by the Employees Retirement System of Texas (ERS). The GBP provides certain postemployment health care, life and dental insurance benefits to retired employees of participating universities, community colleges, and State agencies in accordance with Chapter 1551, Texas Insurance Code. Almost all employees may become eligible for those benefits if they reach normal retirement age while working for the State and retire with at least 10 years of service to eligible entities. Surviving spouses and dependents of these retirees are also covered. Benefit and contribution provisions of the GBP are authorized by State law and may be amended by the Texas Legislature.

OPEB Plan Fiduciary Net Position. Detailed information about the GBP's fiduciary net position is available in the separately issued ERS Comprehensive Annual Financial Report (CAFR) that includes financial statements, notes to the financial statements and required supplementary information. That report may be obtained on the Internet at <https://ers.texas.gov/About-ERS/Reports-and-Studies/Reports-on-Overall-ERS-Operations-and-Financial-Management>; or by writing to ERS at: 200 East 18th Street, Austin, TX 78701; or by calling (877)275-4377.

Benefits Provided. Retiree health benefits offered through the GBP are available to most State of Texas retirees and their eligible dependents. Participants need at least ten years of service credit with an agency or institution that participates in the GBP to be eligible for GBP retiree insurance. The GBP provides self-funded group health (medical and prescription drug) benefits for eligible retirees under HealthSelect. The GBP also provides a fully insured medical benefit option for Medicare-primary participants under the HealthSelect Medicare Advantage Plan and life insurance benefits to eligible retirees via a minimum premium funding arrangement. The authority under which the obligations of the plan members and employers are established and/or may be amended is Chapter 1551, Texas Insurance Code.

Contributions. Section 1551.055 of Chapter 1551, Texas Insurance Code, provides that contribution requirements of the plan members and the participating employers are established and may be amended by the ERS Board of Trustees. The employer and member contribution rates are determined annually by the ERS Board of Trustees based on the recommendations of ERS staff and its consulting actuary. The contribution rates are determined based on (i) the benefit and administrative costs expected to be incurred, (ii) the funds appropriated and (iii) the funding policy established by the Texas Legislature in connection with the benefits provided through the GBP. The Trustees revise benefits when necessary to match expected benefit and administrative costs with the revenue expected to be generated by the appropriated funds.

The following table summarizes the maximum monthly employer contribution toward eligible retirees' health and basic life premium. Retirees pay any premium over and above the employer contribution. The employer does not contribute toward dental or optional life insurance. Surviving spouses and their dependents do not receive any employer contribution. As the non-employer contributing entity (NECE), the State of Texas pays part of the premiums for the junior and community colleges.

Maximum Monthly Employer Contribution
Retiree Health and Basic Life Premium
Fiscal Year 2020

Retiree Only	\$	624.82
Retiree & Spouse	\$	982.82
Retiree & Children	\$	864.52
Retiree & Family	\$	1,222.52

Contributions of premiums to the GBP plan is shown below:

	2020
Paris Junior College (active and retired)	\$ 1,893,348
Nonemployer Contributing Entity (State of Texas)	\$ 1,245,805

**Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019**

10. Other Post-Employment Benefits (OPEB) (Continued)

Actuarial Assumptions. The total OPEB liability was determined by an actuarial valuation as of August 31, 2019 using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Valuation Date	August 31, 2019
Actuarial Cost Method	Entry Age
Amortization method	Level percent of pay, open
Remaining amortization period	30 years
Asset valuation method	N/A
Projected annual salary increase (includes inflation)	2.5% to 9.5%, including inflation
Annual healthcare trend rate	7.3%, FY21; 7.4%, FY22; 7.0%, FY23- decreasing 0.5%/yr to 4.5% in FY28+
Inflation assumption rate	2.50%
Ad hoc postemployment benefit changes	None
Mortality assumptions:	
Service retirees, survivors and other inactive members	Tables based on TRS experience with Ultimate MP Projection Scale from the year 2018.
Disability retirees	Tables based on TRS experience with Ultimate MP Projection Scale from the year 2018 using a 3-year set forward and minimum mortality rates of four per 100 male members and two per 100 female members.
Active members	Sex Distinct RP-2014 Employee Mortality multiplied by 90% with Ultimate MP Projection Scale from the year 2014.

*Many of the actuarial assumptions used in the valuation were based on the results of actuarial experience studies performed by the ERS and TRS retirement plan actuaries for the period September 1, 2010 to August 31, 2014 for higher education members.

Investment Policy. The State Retiree Health Plan is a pay-as-you go plan and does not accumulate funds in advance of retirement. The System's Board of Trustees adopted the amendment to the investment policy in August 2018 to require that all funds in the plan be invested in short-term fixed income securities and specify that the expected rate of return on these investments is 5.0%.

Discount Rate. Because the GBP does not accumulate funds in advance of retirement, the discount rate that was used to measure the total OPEB liability is the municipal bonds rate. The discount rate used to determine the total OPEB liability as of the *beginning* of the measurement year was 3.96%. The discount rate used to measure the total OPEB liability as of the *end* of the measurement year was 2.97%, which amounted to a decrease of 0.99%. The source of the municipal bond rate was the Bond Buyer Index of general obligation bonds with 20 years to maturity and mixed credit quality. The bonds average credit quality is roughly equivalent to Moody's Investors Service's Aa2 rating and Standard & Poor's Corp's AA rating. Projected cash flows into the plan are equal to projected benefit payments out of the plan. Because the plan operates on a pay-as-you-go (PAYGO) basis and is not intended to accumulate assets, there is no long-term expected rate of return on plan assets and therefore the years of projected benefit payments to which the long-term expected rate of return is applicable is zero years.

Discount Rate Sensitivity Analysis. The following schedule shows the impact on the College's share of the collective net OPEB Liability if the discount rate used was 1 percent less than and 1 percent greater than the discount rate that was used (2.97%) in measuring the net OPEB Liability.

	1% Decrease in Discount Rate (1.97%)	Discount Rate (2.97%)	1% Increase in Discount Rate (3.97%)
Paris Junior College's Proportionate Share of the Net OPEB Liability:	\$ 24,781,994	\$ 20,767,424	\$ 17,678,354

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

10. Other Post-Employment Benefits (OPEB) (Continued)

Healthcare Trend Rate Sensitivity Analysis. The initial healthcare trend rate is 7.3% and the ultimate rate is 4.5%. The following schedule shows the impact on the College's proportionate share of the collective net OPEB Liability if the healthcare cost trend rate used was 1 percent less than and 1 percent greater than the healthcare cost trend rate that was used in measuring the net OPEB liability.

	1% Decrease in Healthcare Cost Trend Rates	Current Healthcare Cost Trend Rates	1% Increase in Healthcare Cost Trend Rates
Paris Junior College's Proportionate Share of the Net OPEB Liability:	\$ 17,438,221	\$ 20,767,424	\$ 24,869,551

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB. At August 31, 2020, the College reported a liability of \$20,767,424 for its proportionate share of the ERS's net OPEB liability. This liability reflects a reduction for State support provided to the College for OPEB. The amount recognized by the College as its proportionate share of the net OPEB liability, the related State support, and the total portion of the net OPEB liability that was associated with the College were as follows:

	2020	2019
Paris Junior College's Proportionate share of the collective net OPEB liability	\$ 20,767,424	\$ 19,443,602
State's proportionate share that is associated with Paris Junior College	14,588,717	10,864,513
Total	\$ 35,356,141	\$ 30,308,115

The net OPEB liability was measured as of August 31, 2019, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The employer's proportion of the net OPEB liability was based on the employer's contributions to the OPEB plan relative to the contributions of all employers to the plan for the period September 1, 2019 through August 31, 2020.

For the year ended August 31, 2020, the College recognized OPEB expense of \$16,528 and revenue of \$16,528 for support provided by the State.

Changes Since the Prior Actuarial Valuation: Changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period were as follows:

- Additional demographic assumptions (aggregate payroll increases and rate of general inflation) to reflect an experience study;
- The percentage of current and future retirees and retirees' spouses not yet eligible to participate in the HealthSelect Medicare Advantage plan who will elect to participate at the earliest date at which coverage can commence has been updated to reflect recent plan experience and expected trends;
- Percentage of future retirees assumed to be married and electing coverage for their spouse.

Changes of Benefit Terms Since Prior Measurement Date: The following benefit revisions have been adopted since the prior valuation:

- Increase in out-of-pocket maximum for HealthSelect retirees and dependents for whom Medicare is not primary.

This minor benefit change is provided for in the FY2019 Assumed Per Capita Health Benefit Costs. There are no benefit changes for HealthSelect retirees and dependents for whom Medicare is Primary.

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

10. Other Post-Employment Benefits (OPEB) (Continued)

At August 31, 2020, the College reported its proportionate share of the ERS plan's collective deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	<u>2020</u>	<u>2020</u>
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Economic Experience	\$ -	\$ 540,387
Changes in Actuarial Assumptions	1,477,907	4,640,731
Difference Between Projected and Actual Investment Earnings	8,538	-
Changes in Proportion and Difference Between the Employer's Contributions and the Proportionate Share of Contributions	1,763,043	1,742,815
Contributions Paid to ERS Subsequent to the Measurement Date	390,751	-
Total	<u><u>\$ 3,640,239</u></u>	<u><u>\$ 6,923,933</u></u>
	<u>2019</u>	<u>2019</u>
	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Economic Experience	\$ -	\$ 684,409
Changes in Actuarial Assumptions		6,831,512
Difference Between Projected and Actual Investment Earnings	9,208	-
Changes in Proportion and Difference Between the Employer's Contributions and the Proportionate Share of Contributions		
Contributions Paid to ERS Subsequent to the Measurement Date	3,098,357	-
Total	<u><u>\$ 3,107,565</u></u>	<u><u>\$ 7,525,921</u></u>

The net amounts of the employer's balances of deferred outflows and inflows of resources related to OPEB will be recognized in OPEB expense as follows:

<u>Year ended August 31:</u>	<u>Pension Expense Amount</u>
2021	\$ (1,331,284)
2022	(1,331,284)
2023	(761,861)
2024	(215,720)
2025	(34,294)
Thereafter	-

11. Disaggregation of Receivables and Payables Balances

Receivables at August 31, 2020 and 2019, were as follows:

	<u>2020</u>	<u>2019</u>
Student Receivables	\$ 2,508,459	\$ 6,945,689
Taxes Receivables	392,206	416,545
Federal Receivables	257,711	184,369
Other Receivables	-	-
Subtotal	<u>3,158,376</u>	<u>7,546,603</u>
Allowance for Doubtful Accounts	<u>(2,442,696)</u>	<u>(2,572,009)</u>
Total	<u><u>\$ 715,680</u></u>	<u><u>\$ 4,974,594</u></u>

Payables at August 31, 2020 and 2019, were as follows:

	<u>2020</u>	<u>2019</u>
Vendors Payable	\$ 666,661	\$ 899,398
Accrued Liabilities	44,642	50,007
Other Payables	52,682	44,802
Total	<u><u>\$ 763,985</u></u>	<u><u>\$ 994,207</u></u>

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

12. Contract and Grant Awards

Contract and grant awards are accounted for in accordance with the requirements of the American Institute of Certified Public Accountants. Revenues are recognized on Exhibit 2 and Schedule A. For federal contract and grant awards, funds expended, but not collected, are reported as Accounts Receivable on Exhibit 1. Non-federal contract and grant awards for which funds are expended, but not collected, are reported as Accounts Receivable on Exhibit 1. Contract and grant awards that are not yet funded and for which the institution has not yet performed services are not included in the financial statements.

13. Risk Management

The College is exposed to various risks of loss related to torts, theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. Except for workers' compensation insurance, the College carries commercial insurance for all the risks of loss. The College accounts for risk management issues in accordance with GASB Statement No. 10, *Accounting and Financial Reporting for Risk Financing and Related Insurance Issues*.

The College participates in the Workers' Compensation Fund of the Texas Educational Insurance Association (Fund) administered by Claims Administrative Services, Inc. The College is responsible for the payment of all claims until a certain threshold is reached. Whenever the claims exceed the threshold, a commercial insurance policy pays the excess claims. The Fund's specific retention of loss is \$1,000,000, with an aggregate limit of \$5,000,000; the College's maximum fund loss is \$153,410. Premiums of \$33,432 and \$32,958 for this insurance were allocated to the College for the years ended August 31, 2020 and 2019; respectively.

The following schedule summarizes the changes in claims liabilities for the years ended August 31, 2020 and 2019:

	2020	2019
Claims Liabilities - Beginning of the year	\$ 107,890	\$ 111,994
Incurred Claims	15,574	33,652
Change in Prior Year Claims Estimates	(5,100)	(16,717)
Payment on Claims	(17,904)	(21,039)
Claims Liabilities - End of Year	\$ 100,460	\$ 107,890

The claims liability is reported in accrued liabilities in the financial statements and includes \$36,314 and \$39,359 of estimated claims incurred but not reported, as determined actuarially by the administrator at August 31, 2020 and 2019, respectively.

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

14. Property Tax

Paris Junior College's ad valorem property tax is levied each October 1 on the assessed value listed as of the prior January 1 for all real and business property located in the District.

	<u>2020</u>	<u>2019</u>	
Assessed Valuation of the District	\$ 4,689,277,761	\$ 4,390,429,191	
Less: Exemptions and Abatements	<u>1,007,169,823</u>	<u>972,482,484</u>	
Net Assessed Valuation of the District	<u>\$ 3,682,107,938</u>	<u>\$ 3,417,946,707</u>	
	<u>Current</u>	<u>Debt</u>	<u>Total</u>
	<u>Operations</u>	<u>Service</u>	
2020			
Tax Rate per \$100 Valuation for Authorized	<u>\$ 0.2700</u>	<u>\$ 0.5000</u>	<u>\$ 0.770</u>
Tax Rate per \$100 Valuation for Assessed	<u>\$ 0.0840</u>	<u>\$ -</u>	<u>\$ 0.0840</u>
2019			
Tax Rate per \$100 Valuation for Authorized	<u>\$ 0.2700</u>	<u>\$ 0.5000</u>	<u>\$ 0.770</u>
Tax Rate per \$100 Valuation for Assessed	<u>\$ 0.0850</u>	<u>\$ -</u>	<u>\$ 0.0850</u>

Taxes levied for the years ended August 31, 2020 and 2019, are \$2,996,001 and \$2,908,600, respectively including penalty and interest assessed. Taxes are due on receipt of the tax bill and are delinquent if not paid before February 1 of the year following the year in which imposed.

<u>Taxes Collected</u>	<u>Current</u>	<u>Debt</u>	<u>Total</u>
	<u>Operations</u>	<u>Service</u>	
2020			
Current Taxes Collected	\$ 2,880,035	\$ -	\$ 2,880,035
Delinquent Taxes Collected	71,134	-	71,134
Penalties and Interest Collected	<u>49,828</u>	<u>-</u>	<u>49,828</u>
Total Collected	<u>\$ 3,000,997</u>	<u>\$ -</u>	<u>\$ 3,000,997</u>
2019			
Current Taxes Collected	\$ 2,802,207	\$ -	\$ 2,802,207
Delinquent Taxes Collected	88,932	-	88,932
Penalties and Interest Collected	<u>50,329</u>	<u>-</u>	<u>50,329</u>
Total Collected	<u>\$ 2,941,468</u>	<u>\$ -</u>	<u>\$ 2,941,468</u>

Tax collections for the years ended August 31, 2020 and 2019, were 98.5% and 98.69%, respectively of the current tax levy. Allowances for uncollectible taxes are based upon historical experience in collecting property taxes. The use of tax proceeds is restricted to either maintenance and operations or interest and sinking expenditures.

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

15. Tax Abatements

Paris Junior College has entered into property tax abatement agreements with local businesses under the Property Redevelopment & Tax Abatement Act, Texas Tax Code Chapter 312. Under the Act, localities may grant property tax abatements from 0 to 100 percent of a business' property tax bill for attracting or retaining businesses within their taxing jurisdictions. The abatements were granted to businesses located within or promising to relocate to the taxing district of Paris Junior College for (i) jobs created, (ii) jobs retained in cases of existing employers within the taxing district, and (iii) broadening of the tax base, and expansion of economic base. Paris Junior College discontinued granting tax abatements in 2015.

For the fiscal year ended August 31, 2020, Paris Junior College had commitments outstanding for abated property taxes totaling \$222,504 under this program, including the following agreements that each exceeded 10 percent of the total amount abated:

- A 40 percent property tax abatement to Campbell Soup Company for expansion. The abatement amounted to \$41,486.
- A 100 percent property tax abatement to Kimberly-Clark Corporation for expansion and addition of new equipment. The abatement amounted to \$54,026.
- A 60 percent property tax abatement to Essent PRMC LP for expansion. The abatement amounted to \$19,080.

16. Income Taxes

The College is exempt from income taxes under Internal Revenue Code Section 115, Income of States, Municipalities, Etc., although unrelated business income may be subject to income taxes under Internal Revenue Code Section 511(a)(2)(B), Imposition of Tax on Unrelated Business Income of Charitable, Etc. Organizations. The College had no unrelated business income tax liability for the years ended August 31, 2020 and 2019.

17. Related Party of the College

A Board Member of the College is the owner of the insurance company that the College utilizes. Said member abstains from discussions and votes that related to the insurance company selected and utilized by the College.

18. Subsequent Events

Subsequent events have been evaluated through January 20th, 2021, which is the date the financial statements were available to be issued.

19. Component Unit

The Paris Junior College Memorial Foundation, Inc. - Discrete Component Unit

The Paris Junior College Memorial Foundation, Inc. (the Foundation) was established as a separate nonprofit corporation in 1944 to raise funds to provide student scholarships and assistance in the development and growth of the College. Under Governmental Standards Board Statement No. 39, *Determining Whether Certain Organization are Component Units*, an organization should report as a discretely presented component unit those organizations that raise and hold economic resources for the direct benefit of a government unit.

Accordingly, the Foundation's financial statements are included in the College's annual report as a discrete component unit (see table of contents). Selected disclosures are included in the College's financial statements.

General and Significant Accounting Policies

Basis of Presentation

The financial statements of the Foundation have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

19. Component Unit (Continued)

The Foundation maintains its accounts in accordance with the principles of fund accounting. Resources for various purposes are classified into funds that are in accordance with activities or objectives specified by donors. Separate accounts are maintained for each fund. For reporting purposes, however, the Foundation classifies net position and revenues, expenses, gains, and losses based on the existence or absence of donor-imposed restrictions. Accordingly, net position of the Foundation and changes therein are classified and reported as follows:

Net Assets without Donor Restrictions - Net assets available for use in general operations and not subject to donor (or certain grant) restrictions. The governing board may designate from net assets without donor restrictions, net assets for an operating reserve and board-designated endowment.

Net Assets with Donor Restrictions - Net assets subject to donor (or certain grantor) imposed restrictions. Some donor imposed restrictions are temporary in nature, such as those that will be met by the passage of time or other events specified by the donor. Other donor imposed restrictions are perpetual in nature, where the donor stipulates that resources be maintained in perpetuity. Donor imposed restrictions are released when a restriction expires, that is, when the stipulated time has elapsed, when the stipulated purpose for which the resource was restricted has been fulfilled, or both.

Cash and Cash Equivalents

For purposes of reporting cash flows, the Foundation considers all bank deposits and highly liquid financial instruments, which are neither held for nor restricted by donors for long-term purposes, to be cash and cash equivalents. Cash and highly liquid financial instruments restricted to endowments that are perpetual in nature or other long-term purposes are excluded from this definition.

Investments

Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of financial position. The carrying amounts of other investments are based on the historical cost of those investments. Realized and unrealized gains and losses are reported in the statement of activities.

In accordance with generally accepted accounting principles, investment in financial and nonfinancial assets are reported in a three-tiered hierarchy as follows:

Level I - Assets are based on quoted prices or unadjusted quoted prices in active markets for identical assets or liabilities that the Foundation has the ability to access at the Foundation's year end.

Level II - Assets are based on other than quoted prices or adjusted quoted prices of similar assets or liabilities in markets that are not active.

Level III - Assets are based on unobservable inputs and shall reflect the Foundation's own assumptions about the assets or liabilities.

This fair value hierarchy gives the highest priority to Level I assets and the lowest priority to Level III assets.

Capital Assets and Depreciation

Capital assets are recorded at cost or at estimated fair market value at the date of the gift if donated. The Foundation's capitalization policy includes all items with a unit cost of \$5,000 or more and an estimated useful life in excess of one year. Such donations are reported as unrestricted support unless the donor has restricted the asset to a specific purpose. Assets donated with specific restrictions regarding their use and contributions of cash that must be used to acquire property and equipment are reported as restricted support. Absent donor stipulations regarding how long those donated assets must be maintained, the Foundation reports expirations of donor restrictions when the donated or acquired assets are placed in service as instructed by the donor. The Foundation reclassifies net assets with donor restrictions to net assets without donor restrictions at that time.

Depreciation is calculated on the straight-line method over the estimated useful lives of the assets. The estimated useful lives range from 10 to 30 years.

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

19. Component Unit (Continued)

Contributions

Contributions are recognized as revenues in the period unconditional promises to give are received. Conditional promises to give are not recognized until they become unconditional, that is when the conditions on which they depend are substantially met. Contributions of assets other than cash are recorded at their estimated fair value.

Contributed Services

The services of the Foundation employees and certain operating costs have been donated by the College. The estimated value of these contributed services is \$57,780 and \$66,920 for the years ended August 31, 2020 and 2019, respectively, and has been included in revenues and expenses in the accompanying financial statements.

Concentration of Credit Risk

The Foundation maintains its cash and cash equivalents in bank and money market accounts which could possibly exceed federally insured limits. However, the Foundation does not believe that it is exposed to any significant credit risk in connection with these accounts.

Functional Allocation of Expenses

The costs of program and support services activities have been summarized on a functional basis in the statements of activities. The statements of functional expenses present the natural classification detail of expenses by function. Accordingly, certain costs have been allocated among the programs and supporting services benefited on the basis of estimates of time and effort.

Federal Income Taxes

The income of the Foundation, except for unrelated business income, is exempt from federal income taxes under section 501(c)(3) of the Internal Revenue Code. The Foundation had no unrelated business income during the years ended August 31, 2020 and 2019.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

19. Component Unit (Continued)

Risks and Uncertainties

The Foundation invests in various investment securities which are inherently exposed to various risks such as interest rate fluctuations, and market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statements of net assets available for benefits.

New Accounting Pronouncements

On August 18, 2016, the FASB issued ASU 2016-14, Not-for-Profit Entities (Topic 958)-Presentation of Financial Statements of Not-for-Profit Entities. The update addresses the complexity and understanding of net asset classification, deficiencies in information about liquidity and availability of resources, and lack of consistency in the type of information provided about expenses and investment return. The Foundation has adjusted the presentation of these statements accordingly.

In June 2018, the FASB issued Accounting Standards ASU 2018-08, Accounting Guidance for Contributions Received and Made. This ASU assists entities in 1) evaluating whether transactions should be accounted for as contributions (nonreciprocal transactions) within the scope of Topic 958, Not-for-Profit Entities, or as exchange (reciprocal) transactions subject to other guidance and 2) determining whether a contribution is conditional. The standard was adopted prospectively by the Foundation during the current year. The implementation of the standard did not significantly impact the Foundation's financial statements.

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customer. The guidance clarifies the principles for recognizing revenue from contracts with customers. The guidance requires the Foundation to recognize revenue to depict the transfer of goods or services to customers in an amount that reflects the consideration to which the Foundation expects to be entitled to exchange for those goods or services. The guidance also requires expanded disclosures relating to the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. Additionally, qualitative and quantitative disclosures are required regarding customer contracts, significant judgements and changes in judgements, and assets recognized from the costs to obtain or fulfill a contract. Management is in the process of evaluating the impact of the amended revenue recognition guidance, but it is not expected to have a significant impact on the Foundation's financial statements.

In June 2020, the FASB issued ASU 2020-05 Revenue from Contracts with Customers (Topic 606) and Leases (Topic 842). As allowed by the pronouncement, the Foundation has elected to defer the implementation dates of ASU 2014-09 for one year. As such, ASU 2014-09 will be effective for the fiscal year ended August 31, 2021.

19. Component Unit (Continued)

Investments

The following schedule summarizes the Foundation's Level I investments on a recurring basis as of August 31, 2020 and 2019:

<u>Type of Security</u>	Fair Value	
	2020	2019
Basic Materials	\$ -	\$ -
Basic Materials	301,204	-
Consumer Cyclical	438,523	1,350,020
Consumer Non-Cyclical	1,970,747	919,022
Energy	2,448,009	4,493,000
Financial	7,157,304	6,919,149
Healthcare	1,619,956	2,450,727
Industrial	1,856,411	1,327,477
Technology	4,195,232	2,471,150
Preferred Stock	11,540	40,845
Closed End Funds (Precious Metals)	112,860	20,422
Corporate Bonds	286,090	61,268
Government Bonds	397	2,042
Municipal Bonds	104,686	204,227
Exchange Traded Funds	-	-
Mutual Funds (Equity)	-	-
Unit Investment Trust	-	-
Unit Investment Trust	3,826	-
Exchange Traded Portfolios	279,575	-
Certificate of Deposit	163,121	163,381
Total Investments	\$ 20,949,481	\$ 20,422,730

The Foundation holds investment assets of common stock valued at \$480,000 that is a Level II investment. The remainder of the Foundation's investments are Level I investments.

Fees paid for by the Foundation investment management services amounted to \$60,223 and \$64,064 for the years ended August 31, 2020 and 2019

Liquidity and Availability of Resources

Financial assets available for general expenditures, that is, without donor restrictions limiting their use or without requiring specific action of the Board, within one year of the date of the statements of financial position as of August 31, 2020 and 2019, are comprised of the following:

	2020	2019
Cash And Cash Equivalents	\$ 387,026	\$ 299,359
Investments	21,429,481	20,902,730
	21,816,507	21,202,089
Donor-Restricted Funds	(21,789,603)	(21,186,598)
Financial Assets Available To Meet General Expenditure Needs Within One Year	\$ 28,904	\$ 15,491

Capital Assets

The following schedule summarizes the Foundation's capital assets as of August 31, 2020 and 2019:

	2020	2019
Land	\$ 500	\$ 500
Building	170,273	170,273
Improvements	14,603	14,603
	185,376	185,376
Accumulated Depreciation	(181,574)	(180,704)
Total Property And Equipment	\$ 3,802	\$ 4,672

Endowment Funds

The Foundation has donor restricted endowments that are to be used only for identified scholarships and other identified purposes and that are maintained in accordance with explicit donor stipulations. The Board of Trustees of the Foundation has interpreted the Texas Uniform Prudent Management of Institutional Funds Act (TUPMIFA) as requiring the preservation of the fair value of gifts to donor Restricted Endowments as of the date of the gift, absent explicit donor stipulations to the contrary. The Foundation interprets the definition of donor-restricted endowments to include the original value of gifts to an endowment and subsequent gifts donated to the fund, (including promises to give net of discount and allowance for doubtful accounts) donated to the Endowment and any accumulations to the endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added. Donor-restricted amounts not retained in perpetuity are subject to appropriation for expenditure in a manner consistent with the standard of prudence described in TUPMIFA. The Foundation considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:

1. The duration and preservation of the fund
2. The purposes of the organization and the donor-restricted endowment fund
3. General economic conditions
4. The possible effect of inflation and deflation
5. The expected total return from income and the appreciation of investments
6. Other resources of the organization
7. The investment policies of the organization.

Endowment funds are maintained in an investment account which is managed by an independent financial firm that follows guidelines provided in the investment policy approved by the Board of Trustees.

As of August 31, 2020 and 2019, Donor Restricted Endowment Funds were as follows:

Donor-Restricted Endowment Fund:

	2020	2019
Original Donor-Restricted Gift Amount And Amounts Required To Be Maintained In Perpetuity By Donor	\$ 9,733,173	\$ 9,533,167
Accumulated Investment Gains	11,216,308	10,889,563
	\$ 20,949,481	\$ 20,422,730

Paris Junior College
Notes to Financial Statements (Continued)
August 31, 2020 and 2019

19. Component Unit (Continued)

Funds with Deficiencies

In accordance with accounting standards, the Foundation considers an endowment to be deficient (underwater funds) if its fair value is less than the sum of (a) the original value of initial and subsequent gifts donated to the endowment and (b) any donor imposed accumulations to the endowment that must be maintained in perpetuity. The Foundation has interpreted TUPMIFA to permit spending from underwater endowments in accordance with prudent measures required under law. As of August 31, 2020 and 2019, there were no endowment funds with deficiencies.

Investment and Spending Policies

The primary goals of the endowments are as follow: (1) Provide the highest sustainable, consistent flow of funds to support the activities of the Foundation or those designated by the donor, (2) Protect the future purchasing power of the principal of the endowed funds by reserving an appropriate portion of investment return to offset the cumulative effects of inflation and provide future real growth of the Foundation assets, and (3) Manage the spending distribution over time to reduce, as far as possible, annual variations in the level of support provided by the Foundation.

The Investment Committee of the Foundation outlines the asset allocations, permissible investments and objectives of the portfolios in the Investment Policy.

Changes in Endowment net assets for the years ended August 31, 2020 and 2019 are as follows:

	<u>2020</u>	<u>2019</u>
Endowment Net Assets , Beginning of Year	\$ 21,259,261	\$ 24,420,894
Investment Income, Net	1,338,531	(2,358,332)

Notes to Required Supplementary Information
August 31, 2020 and 2019

Defined Benefit Pension Plan

Changes of Benefit Terms

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

Changes of Assumptions

The net pension liability increased significantly since the prior measurement date due to a change in the following actuarial assumptions:

- The total pension liability as of August 31, 2020 was developed using a roll-forward method from the August 31, 2019 valuation.
- Demographic assumptions including postretirement mortality, termination rates, and rates of retirement were updated based on the experience study performed for TRS for the period ending August 31, 2017.
- Economic assumptions including rates of salary increase for individual participants was updated based on the same experience study.
- The discount rate changed from 6.907 percent as of August 31, 2018 to 7.25 as of August 31, 2019.
- The long-term assumed rate of return changed from 8 percent to 7.25 percent.
- The change in the long-term assumed rate of return combined with the change in the single discount rate was the primary reason for the increase in the net pension liability.

Defined Benefit OPEB Plan

Changes of Benefit Terms

The following benefit revisions have been adopted since the prior valuation:

- Increase in out-of-pocket maximum for HealthSelect retirees and dependents for whom Medicare is not primary.

This minor benefit change is provided for in the FY2020 Assumed Per Capita Health Benefit Costs. There are no benefit changes for HealthSelect retirees and dependents for whom Medicare is Primary.

Changes of Assumptions

Changes to the actuarial assumptions or other inputs that affected measurement of the total OPEB liability since the prior measurement period were as follows:

Demographic Assumptions

The following assumptions have been updated since the previous valuation to reflect recent plan experience and expected trends:

- Percentage of future retirees and future retiree spouses assume to use tobacco.
- The percentage of current and future retirees and retirees' spouses not yet eligible to participate in the HealthSelect Medicare Advantage plan who will elect to participate at the earliest date at which coverage can commence has been updated to reflect recent plan experience and expected trends;
- Percentage of future retirees assumed to be married and electing coverage for their spouse.

Economic Assumptions

Assumed Per Capita Health Benefit Costs and Health Benefit Cost and Retiree Contribution trends have been updated since the previous valuation to reflect health plan experience and its effects on our short-term expectations.

The discount rate was changed from 3.95% to 2.97% as a result of requirements by GASB No. 74 to utilize the yield or index rate for 20-year, tax exempt general obligation bonds rated AA/Aa (or equivalent) or higher in effect on the measurement date.

Minor benefit changes described below have been reflected in the FY2020 Assumed Per Capita Health Benefits Costs.

Paris Junior College
Schedule E (Continued)
Schedule of Expenditures of Federal Awards
Year Ended August 31, 2020

Note 1: Federal Financial Assistance Reconciliation

Federal Grants and Contracts Revenue - Per Schedule A	\$ 1,948,844
Add: Non Operating Federal Revenue	8,204,616
Add: Federal Direct Student Loan	342,896
Total Federal Financial Assistance	<u>\$ 10,496,356</u>

Note 2: Significant Accounting Policies Used in Preparing the Schedule

The expenditures included in the schedule are reported for PJC's fiscal year. Expenditure reports to funding agencies are prepared on the award period basis. The expenditures reported above represented funds which have been expended by PJC for the purposes of the award. The expenditures reported above may not have been reimbursed by the funding agencies as of the end of the fiscal year. Some amounts reported in the schedule may differ from the amounts used in the preparation of the basic financial statements. Separate accounts are maintained for the different awards to aid in the observance of limitations and restrictions imposed by the funding agencies. PJC has followed guidelines issued by various entities in the preparation of the schedule.

Note 3: Indirect Cost Rate

Paris Junior College has elected not to use the 10-percent de minimis cost rate allowed under the Uniform Guidance.

**Independent Auditor's Report on Internal Control over Financial Reporting and on
Compliance and Other Matters Based on an Audit of Financial Statements Performed in
Accordance with *Government Auditing Standards***

Board of Regents
Paris Junior College
Paris, Texas

Members of the Board of Regents:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities and discretely presented component unit of Paris Junior College (the College) as of and for the years ended August 31, 2020 and 2019, and the related notes to the financial statements, which collectively comprise the College's basic financial statements, and have issued our report thereon dated January 20, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the College's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the College's internal control. Accordingly, we do not express an opinion on the effectiveness of the College's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the College's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Texas Public Funds Investment Act

We have performed tests designed to verify the College's compliance with the requirements of the Public Funds Investment Act (the "Act"). However, providing an opinion on compliance with the Act was not an objective of our audit, and accordingly, we do not express an opinion. During the year ended August 31, 2020, no instances of non-compliance with the Act was found.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**Independent Auditor's Report on Compliance for Each Major Program and on
Internal Control over Compliance Required by the Uniform Guidance**

Board of Regents
Paris Junior College
Paris, Texas

Members of the Board of Regents:

Report on Compliance for Each Major Federal Program

We have audited Paris Junior College's (the College) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the College's major federal programs for the year ended August 31, 2020. The College's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the College's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the College's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the College's compliance.

Opinion on Each Major Federal Program

In our opinion, the College complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended August 31, 2020.

Report on Internal Control over Compliance

Management of the College is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the College's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the College's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identify certain deficiencies in internal control over compliance, described in the accompanying schedule of findings and questioned costs as item 2020-1, that we consider to be a significant deficiency.

The College's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. The College's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Paris Junior College
Schedule of Findings and Questioned Costs
Year Ended August 31, 2020

A. Summary of Auditors' Results

1. Financial Statements

Type of Auditors' Report issued:	<u>Unmodified</u>	
Internal control over financial reporting:		
Material weakness(es) identified?	___ Yes	___ <u>X</u> No
Significant deficiencies identified that are not considered to be material weaknesses?	___ Yes	___ <u>X</u> None Reported
Non-compliance material to financial statements noted?	___ Yes	___ <u>X</u> No

2. Federal and State Awards

Internal control over major programs:		
Material weakness(es) identified?	___ Yes	___ <u>X</u> No
Significant deficiencies identified that are not considered to be material weaknesses?	___ <u>X</u> Yes	___ None Reported
Type of auditors' report issued on compliance for major programs:	<u>Unmodified</u>	
Any audit findings disclosed that are required to be reported in accordance with section 2 CFR 200.516(a)	___ Yes	___ <u>X</u> No

Major programs are as follows:

Federal

Student Financial Assistance Cluster	84.007, 84.033, 84.063, 84.268
Covid-19 Federal Education Stabilization Fund	84.425E, 84.425F

The threshold used to distinguish between Type A and Type B federal programs was \$750,000 and state programs was \$300,000.

Paris Junior College was classified as a low-risk auditee in the context of OMB 2 CFR 200.516(a)

B. Findings Relating to the Financial Statements which are required to be Reported in Accordance with Generally Accepted Government Auditing Standards

None

Significant Deficiency

Item 2020-1 Internal Controls Related to matching of Student Financial Aid

Condition: Paris Junior College's internal controls did not detect that the required 25% match to student SEOG awards was not met

Criteria: Internal control procedures affect the College's ability to process the required 25% match to student SEOG awards. Management must establish and maintain effective internal controls related to matching SEOG awards to provide reasonable assurance that the grant match is accurate and complete.

Cause: Reconciliations were not performed to ensure the 25% match to student SEOG awards was met.

Effect: As a result of this condition, Paris Junior College did not detect that the required 25% match to student SEOG awards was not met.

Recommendation: Paris Junior College's management should implement additional procedures to ensure compliance with this requirement as it relates to federal programs.

Views of responsible

Official and Planned

Corrective Actions: Paris Junior College management will ensure that when a match is required for a federal award that the matching amount is reconciled to ensure that the required match percentage is accurate and complete.

Paris Junior College

SINCE 1924

Paris Junior College Corrective Action Plan Year Ended August 31, 2020

Paris Junior College, respectfully submits the following corrective action plan for the year ended August 31, 2020.

Name and address of independent public accounting firm:

McClanahan and Holmes, LLP
1400 West Russell
Bonham, TX 75418

Audit Period: Year ended August 31, 2020

The findings from the August 31, 2020, schedule of findings and questioned costs are discussed below. The findings are numbered consistently with the numbers assigned in this schedule.

2020-1

Recommendations: Paris Junior College's management should implement procedures to ensure compliance with this requirement as it relates to the federal programs.

Action Plan: Paris Junior College's management will ensure that award reconciliations are performed every month to ensure related matching SEOG awards are accurate and complete.
