## Course Descriptions

### **3-D Character Creation**

Welcome to the World of 3D. Learn how to create 3D models. Join us and learn how easy it is to create in 3D. Basic computer skills is a must.

### **Bug Detectives!**

Dive into the fascinating world of bugs! Children will learn how to observe, compare, and classify bugs into different categories-like insects, arachnids, myriapods and more. They'll discover key Characteristics such as number of legs, body parts, wings, and antennae, and use simple tools like magnifying glasses and sorting charts. Each child will get to create their own bug journal, practice their science skills and leave class ready to identify creepy crawly creatures in their own backyard!

### **Coding**

The objective of this class is to help the kids gain a better understanding of how computers work, and the parts that are inside them. As well as hopefully unlock a curiosity for technology.

### **Cooks 'N Books**

Students enjoy reading favorite storybooks and creating fun snacks that relate to the stories. Students sample their creations. New books are used each session.

### **Cooking Made Easy!**

Have you ever wanted to make a snack or meal? Cooking can be easy when you know that right tricks and techniques. Come learn to make fun and delicious meals and snacks.

### **First Aid: What's the BIG Deal?**

Have you ever seen someone fall and hurt their leg? Or perhaps you know someone who's been very ill? Have you ever been near an accident? Imagine being able to help in each of these situations, that's what first aid is all about. You don't need to have special items or a first aid kit to give first aid. The most important thing is to know the simple steps to follow in different situations. You can become a SAFETY HERO!

### **Games!**

Students will gain the opportunity to learn new and old games. Come and experience a time of brainstorming and team building.

### **Give Me a "C" Give Me a "HEER"**

Do you like to cheer and learn dance routines? Join the Paris Junior College cheerleaders and learn the technique of cheerleading, jumping, and dance. Campers should wear shorts, t-shirt and tennis shoes.

### **Jewelry Creations**

Each day students will be introduced to a different technique used to create Jewelry: Stamped keychains or necklaces; Create a unique Amulet and learn about beading.

# Kids College

## Course Descriptions

### **Junk Drawer Robotics**

Students are challenged to build robots from everyday items without the use of a computer. Learn about pneumatics, arm designs and three-dimensional space. Students will showcase their creations at the Parent Preview.

### **Learning Spanish is Fun & so is Gardening & the Magic of Vegetables!**

We'll learn about "square foot gardening," you'll be amazed about the magic of vegetables, we'll have a party, and we'll have an auction -- all sprinkled with fun Spanish words. Why learn Spanish? Why, to be understood in French & Italian, that's why!

### **Math 'N Crafts**

Get your creativity on with the opportunity to make cool crafts. While you create unique projects don't be surprised if you learn some cool math along the way.

### **Music**

Let's get started by discovering what kind of music we like. Why do we like certain types of music better than other types? Let's share the diversity of music with movement, games, and fun.

### **Paper Art 'N Books**

Students enjoy reading storybook or Poem and creating fun Art to relate the story or feelings of the text. Paper Art will give the students the opportunity to explore new techniques and art expression.

### **Reporting: Live from the Scene**

You are a young reporter at The Bat: Kids Edition. The editor just gave you a new assignment: Get down to Kids College and find out what CRAZY things those kids are doing. The editor wants AMAZING articles with lots of pictures. Are you up to the assignment? Learn how Journalists use the 5 Ws to gather facts and write articles.

### **"Yes You CANvas!"**

Starting with a blank canvas, students will be guided step-by-step through creating a masterpiece. Get ready, set, PAINT! Please bring an oversized shirt to be used as a paint smock.

### **You CAN Sew**

Learning to sew can be fun and very rewarding. This class will teach you basic techniques on threading a needle, making a knot, sewing straight stitches, sewing on buttons and more. You will complete several take home projects while having fun.
