A Junior College Owned & Operated By
The Paris Junior College District
An Equal Opportunity Institution

2023-2024 Catalog

Paris Junior College is accredited by the Southern Association of Colleges and Schools Commission on Colleges (SACSCOC) to award associate degrees. Questions about the accreditation of Paris Junior College may be directed in writing to the Southern Association of Colleges and Schools Commission on Colleges at 1866 Southern Lane, Decatur, GA 30033-4097, by calling (404) 679-4500, or by using information available on SACSCOC’s website (www.sacscoc.org).

This catalog contains policies, regulations and procedures in existence at the time this publication went to press. The College reserves the right to make changes at any time to reflect current Board policies, administrative regulations and procedures, and applicable state and federal regulations. Documents concerning the college’s accreditation, licensing and approval may be viewed in the Office of the President.

Paris Junior College prohibits discrimination, including harassment, against any student on the basis of sex or gender, race, color, national origin, disability, religion, age, or any other basis prohibited by law. A lack of English language skills will not be a barrier to admission and participation in the career and technical education programs of Paris Junior College.

General Information

About Paris Junior College

Paris Junior College’s main campus is located in Paris, Texas. Paris Junior College (PJC) operates centers in Greenville and Sulphur Springs, and conducts classes on the Texas A&M University - Commerce campus.

PJC History

PJC was established by the Paris Independent School District on June 16, 1924, in response to the community’s need for an institution of higher learning.

The Board of Education elected B.E. Masters, principal of Paris High School, as dean, and the college opened its downtown campus in the high school building in September 1924 with seven faculty members and 91 students. Later, 39 extension students were added to the roll, for a total of 130 students that first year.

The college moved into its own facility, the old post office building, during the summer before starting its second year. The building was donated to the Paris Independent School District by the federal government. In 1931, the college became an independent unit of the school system, and J.R. McLemore became the first president.

In 1934, Paris Junior College became a member of the Southern Association of Colleges and Secondary Schools, and in 1937 the board voted to establish the Paris Junior College District, independent yet coterminous with the Paris Independent School District.

The campus was moved to its present site of 54 acres in 1940, and in 1949 the first board of regents was elected and began meeting. J.R. McLemore served as president until 1961. Charles Clark took over the duties until Frank Grimes became president in 1963. Louis B. Williams succeeded Grimes in 1967 and served until 1983 when he was named president emeritus. Dennis Michaelis followed Williams and served as president until 1988. Bobby R. Walters became president in 1988 and served until 2003 when he was named president emeritus. Dr. Pamela Anglin succeeded Walters in 2003.

The college began adding new facilities at its campus in 1963 and a building program continued until 1978 during which time the J.R. McLemore Student Center, dormitories, Natural Sciences and Mathematics Center, applied science annexes, Aikin Center for Applied Sciences, Center for Musical Arts, Lifelong Learning Center, married student apartments, and the Mike Rheudasil Learning Center were built. Included in the Learning Center/Library is the A.M. and Welma Aikin Jr. Regional Archives, which contains the papers of the late Senator A.M. Aikin Jr., co-sponsor of the Gilmer-Aikin Bill and member of the Texas legislature for forty-six years.

In 1988, the Hunt Physical Education Center was completed to provide additional space for kinesiology instruction and is the home of the PJC Dragons basketball and Lady Dragons basketball teams. It includes classrooms and the Dragon Hall of Fame. The college acquired and
completely remodeled a building on the north side of Clarksville Street adjacent to the campus that has become the Bobby R. Walters Workforce Training Center. It houses the Health Occupations Programs, Continuing Education, Air Conditioning and Refrigeration Technology, Electrician, Mechatronics, Computer Aided Design, and Adult Basic Education.

In 2010, the new South Campus Residence Hall was completed and opened its doors with 60 beds for women residents in August of that year. In 2011, a second wing was opened with 64 new beds for men. The 42,000-square-foot Math and Science Building opened for classes in 2013. The Grimes Center was renovated in 2013 and houses Social Sciences.

The campus of 54 tree-shaded acres includes 20 major buildings and residence halls and provides students a unique and pleasant environment for learning.

Paris Junior College offers Associate in Arts, Associate in Science, Associate of Arts in Teaching, and Associate in Applied Science degrees, as well as Certificates of Proficiency in technical/workforce fields.

The college has expanded its academic curriculum through the years to encourage associate degree and university transfer candidates. Since establishing its first vocational program, jewelry and watchmaking in 1942, the college has been aggressive in adding technical/workforce programs that will benefit students entering the workforce.

Affiliations

In 1924, the Texas Department of Education recognized Paris Junior College as a standard two-year institution. In the same year, the Association of Texas Colleges ranked this college as one of first class.

In December 1934, Paris Junior College was admitted to the Southern Association of Colleges and Schools and has maintained full accreditation since that time.

The Licensed Vocational Nursing (LVN) program is approved by the Texas Board of Nursing (BON), 333 Guadalupe Street, Suite 3-460, Austin, Texas 78701, 512.305.7400, www.bon.texas.gov.

The Associate Degree Nursing (ADN) program is approved by the Texas Board of Nursing (BON), 333 Guadalupe Street, Suite 3-460, Austin, Texas 78701, 512.305.7400, www.bon.texas.gov. The ADN program is accredited by the Accreditation Commission for Education in Nursing, Inc., 3343 Peachtree Road NE, Suite 850, Atlanta, Georgia 30326, 404.975.5000, www.acenursing.org.

The Surgical Technology program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), 9355 - 113th St. N, #7709, Seminole, FL 33775, 727.210.2350, www.caahep.org, and by the Accreditation Review Committee in Surgical Technology & Surgical Assisting (ARC-STSA), located at 6 West Dry Creek Circle, Suite #110, Littleton, Colorado 80120, 303.694.9262, www.arcstsa.org.

The Emergency Medical Technician-Paramedic program is accredited by the Commission on Accreditation of Allied Health Education Programs (www.caahep.org), upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (www.coaemsp.org). The Commission may be reached at: Commission on Accreditation of Allied Health Education Programs, 9355 - 113th St. N, #7709, Seminole, FL 33775, 727.210.2350, www.caahep.org.

Paris Junior College’s Vision
To be the educational provider of choice for the region.

Paris Junior College’s Mission
Paris Junior College is a comprehensive community college serving the region’s educational and training needs while strengthening the economic, social and cultural life of our diverse community.

Texas Education Code 130.003
The purpose of each public community college shall be to provide:

1. Technical programs up to two years in length leading to associate degrees or certificates;
2. Vocational programs leading directly to employment in semi-skilled and skilled occupations;
3. Freshman and sophomore courses in arts and sciences;
4. Continuing adult education programs for occupational or cultural upgrading;
5. Compensatory education programs designed to fulfill the commitment of an admissions policy allowing the enrollment of disadvantaged students;
6. A continuing program of counseling and guidance designed to assist students in achieving their individual educational goals;
7. Workforce development programs designed to meet local and statewide needs;
8. Adult literacy and other basic skills programs for adults;
9. Such other purposes as may be prescribed by the Texas Higher Education Coordinating Board or local governing boards in the best interest of post-secondary education in Texas.

Paris Junior College’s Strategic Goals
» Diversify the revenue mix to reduce the reliance on state appropriations.
» Provide a high quality, relevant and current education for success after transfer and success in the workforce.
» Provide access to state-of-the-art technology for operational and student use.
» Provide business and industry driven workforce training throughout the service area.
» Increase retention rates and increase completion rates for certificates and associate degrees.
Increase the awareness of service area residents, through branding, marketing, and reputation, of the resource the college is and what it offers the communities served.

Provide facilities that insure adequate teaching space to meet the needs of the most current instructional methods and programs offered.

HELPFUL HINT: See your Student Success Coach and get your degree plan filled out prior to registering for classes.

Greenville and Sulphur Springs Centers

Paris Junior College has centers located in Greenville and Sulphur Springs where full-service educational opportunities are available to all students.

Greenville Center

The Greenville Center is located at 6500 Monty Stratton Parkway in Greenville. The Center offers general academic courses that lead to an associate degree and provides technical programs where students can earn a certificate of completion.

The college has a variety of certificate programs in office occupations, computer training, heating and air conditioning, and nursing. Learning skills programs are in place to help students’ progress in areas where they are deficient. Free tutoring for math, English, science and Spanish is available. Free GED classes are available. Call 903.454.9333 for more information.

The Greenville Center also offers a variety of continuing education classes. There is an active chapter of Phi Theta Kappa, a student honor society that is involved in many community service programs.

Sulphur Springs Center

The Sulphur Springs Center is located at 1137 Loop 301 East in Sulphur Springs. A wide variety of technical, workforce and academic courses are offered, both days and evenings, at this Center. The educational programs available at the Center are designed so students can complete an associate degree and/or prepare them for advancement in the workforce.

Many technical/workforce courses are available, including computer information systems, drafting-3D printing, and office technology. Learning skills programs are in place for those needing help in advancing.

Continuing education programs in health, business occupations and other topics are available through the Center to residents of the community.

The Paris Junior College Adult Education Consortium offers a variety of educational opportunities to adults seventeen years of age and older through the Sulphur Springs Center. Those interested or in need of improving reading, writing and math skills, learning English as a Second Language (ESL) and completing the GED program can call 903.885.1232 for further information.

There is an active chapter of Phi Theta Kappa, a student honor society that is involved in many community service programs.
Texas A&M University – Commerce
Paris Junior College, in partnership with Texas A&M University – Commerce, offers an elementary algebra course to assist students in meeting TSI requirements. This course is offered on the TAMU-Commerce campus.

Minor Children on Campus
For safety reasons, minor children are not allowed on campus while student parents are attending classes. Minor children who are visiting on campus with parents conducting college business must be under the direct supervision and control of their parents or guardians at all times.

Admission & Registration

Paris Junior College has an “open door” admissions policy that insures that all persons who can profit from post-secondary education have an opportunity to enroll. The college and the State of Texas require certain assessment procedures for use in course placement, but the assessment is not used to determine admission eligibility to PJC. Admission to PJC does not ensure admittance to a particular course or program of study. Students may, in some instances, be required to remove deficiencies before enrolling in certain courses or apply to programs of study. Some programs have additional requirements. Information about these programs is found under Special Program Requirements.

A student may be admitted to the college according to any one of the conditions listed below:

1. Graduation from an Accredited High School: An official high school transcript showing date of graduation with a signature of a certifying official or official seal must be provided.

2. Completion of the Texas High School Equivalency Certification (TxCHSE): A copy of test certificate or passing scores must be provided from either the General Educational Development (GED) or High School Equivalency Test (HiSET).

3. Graduation from a non-Accredited High School or non-traditional education program such as a Home School: Graduates must provide an official high school transcript showing date of graduation with a signature of a certifying official. Home school graduates must present a notarized record of high school equivalent work completed and the date of successful completion. This work should be consistent with the TEA minimums for high school completion.

4. Individual Approval: A student who did not graduate from high school (but whose high school class has graduated) or has not passed the TxCHSE may be admitted on Individual Approval. A student must show evidence of the ability to benefit from postsecondary education as demonstrated by the completion of a state-required or local assessment test. All students admitted by Individual Approval are strongly encouraged to complete the TxCHSE.

5. Dual Credit/Concurrent Enrollment of High School Students: Paris Junior College, through cooperative agreements with area high school officials, has established a concurrent enrollment program for high school students. Eligible students are enrolled at PJC for a reduced course load while completing high school graduation requirements. These students may enroll in academic or workforce areas and have the option to study in the college’s day or evening program. The Dual Credit program offers eligible high school students the opportunity to take college-level academic or workforce education courses for both high school and college credit. Concurrent enrollment offers eligible high school students the opportunity to take college-level academic or workforce courses while still enrolled in their high school and receive college credit but without receiving high school credit for these courses. Eligible students must:
» Complete all admissions documents.
» Submit an official high school transcript.
» Submit an official letter of permission from their high school principal or counselor.
» Meet TSI requirements.

Note: This program does not take the place of required or elective high school courses.

6. Transfer Students: Students pursuing a degree or certificate at Paris Junior College may be accepted on transfer from other regionally accredited colleges and universities. A student seeking to transfer to Paris Junior College must:

» Complete all admission documents.
» Submit transcripts that indicate all post-secondary credits previously earned. Required official transcripts and other admission documents must be on file within one semester of initial enrollment or subsequent admission will be denied.
» Continue on scholastic probation at Paris Junior College if student has been placed on probation at another institution. (See Probation and Suspension.)
» If on scholastic suspension from another institution, apply in person or online to seek admission on strict probation.
» Complete at least 25 percent of coursework at Paris Junior College before he/she can graduate from this institution.
» Be able to verify TSI status prior to enrollment.

College transfer work is used to determine an applicant’s academic and TSI status for entrance to Paris Junior College. To be eligible for admission, a transfer student must meet the academic requirements of Paris Junior College.

If the transfer student’s accumulated grade point average over all previous work attempted is 2.0 or better (on a 4.0 basis), academic status upon entering Paris Junior College will be one of good standing. If the accumulated grade point average is lower than 2.0, academic status upon entering Paris Junior College will be one of probation.

An applicant who is on academic suspension or academic dismissal from another institution must apply in person to the Registrar to seek admission on strict probation.

7. Transient Admissions: A transient student at Paris Junior College is defined as one who is primarily enrolled at another institution. A student seeking admission may be admitted as a transient student by furnishing the following:

» A copy of test scores from a TSI approved test or TSI-exempt status.
» An official college transcript, or a letter of good standing from the primary institution.

If these students desire to remain at Paris Junior College or apply for a degree, financial aid, or benefits of any type, they must furnish all transcripts from institutions where they were previously enrolled or attended.
HELPFUL HINT: Take advantage of early registration. Check the current schedule of classes for dates. Online registration is available to returning students who have passed all sections of the Texas Success Initiative (TSIA2) Assessment 2.0.

8. International Student Admissions: Paris Junior College is authorized under federal law to enroll non-immigrant students. International Students are tracked by SEVIS (Student and Exchange Visitor Information System) and are required to comply with their established guidelines and those of the U.S. Citizenship and Immigration Services.

International students seeking admission to PJC must complete all admission requirements in order to obtain an I-20.

International students seeking admission to the college must submit the following:

» A completed application for admission, along with a completed international application.
» A certified English translation of grades and credits for the final four years of secondary school and any foreign university transcripts. High school transcripts must show the completion date and be equivalent to a U.S. high school diploma.
» Certified proof of financial support showing source of income and amount available to the student while attending Paris Junior College.
» Submit a $500 admission deposit ONLY if you are applying from outside the United States. The deposit will be applied toward the first semester costs. Students transferring from another institution within the U.S. are not required to submit this deposit.
» Adequate proof of competency in the English language by meeting one of these requirements:
  › Submit a minimum score of 500 on the paper test, 173 on the computer test, or 61 on the Internet-based test of the Test of English as a Foreign Language (TOEFL).
  › Submit an official transcript from an accredited American high school showing two years of attendance and date of graduation.
  › Submit a passing score for the Texas Success Initiative Assessment 2.0 (TSIA2).
  › Submit an official transcript from an accredited college or university in the United States listing successful completion of college freshman English. In addition, submit a passing score for all three sections of the Texas Success Initiative Assessment 2.0.
  › Submit any other documentation, other than that previously listed, which may show proof of English proficiency. This document will be reviewed for consideration.

International student applications from some English-speaking (official language) countries may be exempt from these requirements.
All degree-seeking students, including international students, must take the Texas Success Initiative Assessment 2.0 (TSIA2) prior to enrollment if not otherwise exempted. Results of this test will determine the particular courses for which a student may register.

All international students are required to be full-time (15 hours) and to purchase health and accident insurance approved by the college during their entire stay at the college.

Services for international students, which include immigration advising, are provided by the Advising & Counseling Center. International students are required to maintain their status as mandated by the U.S. Citizenship and Immigration Services. Each semester students are required to report to the Advising & Counseling Center within 15 days of their semester start date.

For more information, international students may contact the International Student Office, Advising & Counseling Center, Alford Center, Paris Junior College, 2400 Clarksville St., Paris, Texas 75460, or call 903.782.0430.

9. Re-admission: Students who have attended Paris Junior College previously will need to update their status by:

» Providing current name, address, telephone number, email, etc. to the Office of Admissions & Records.
» Students who have not attended in the previous semester must complete all admissions documents.
» Students who have attended other colleges since leaving PJC must supply transcripts from those colleges.
» Students who have not been enrolled in the previous five years may be required to resubmit all official transcripts.
» Students on academic suspension, disciplinary suspension, or whose admission records/documents are incomplete must satisfactorily complete the re-admission process before they may re-enroll in classes.

Special Program Requirements

The following programs of study have additional requirements: Nursing, Radiology Technology, Diagnostic Medical Sonography, Surgical Technology, and Emergency Medical Services - Paramedic. Refer to the individual program of study for details.

Bacterial Meningitis Vaccination and Information

Beginning on January 1, 2012, all entering students are required to show evidence of an initial bacterial meningitis vaccine or a booster dose during the five-year period preceding and at least 10 days prior to the first day of the first semester in which the student initially enrolls at an institution. An entering student includes a first-time student of an institution of higher education or private or independent institution of higher education and includes a transfer student, or a student who previously attended an institution of higher education before January 1, 2012, and who is enrolling in the same or another institution of higher education following a break in enrollment of at least one fall or spring semester.
Exceptions to Bacterial Meningitis Vaccination Requirement

A student is not required to submit evidence of receiving the vaccination against bacterial meningitis if the student meets any of the following criteria:

» The student is 22 years of age or older by the first day of the start of the semester (effective 1/1/2014); or

» The student is enrolled only in online or other distance education courses; or

» The student is enrolled in a continuing education course or program that is less than 360 contact hours, or continuing education corporate training; or

» The student is enrolled in a dual credit course which is taught at a public or private K-12 facility not located on a higher education institution campus; or

» The student is incarcerated in a Texas prison.

A student is not required to submit evidence of receiving the vaccination against bacterial meningitis if the student submits to the institution:

» An affidavit or a certificate signed by a physician who is duly registered and licensed to practice medicine in the United States, in which it is stated that, in the physician's opinion, the vaccination required would be injurious to the health and well-being of the student, or

» An affidavit signed by the student stating that the student declines the vaccination for reasons of conscience, including a religious belief. A conscientious exemption form from the Texas Department of State Health Services (DSHS) must be used; or

» Confirmation that the student has completed the Internet-based Department of State Health Services form to claim an exemption for reasons of conscience (for entering students at public junior colleges ONLY).

» Students residing in campus housing can only use the conscientious exemption form from the Texas Department of State Health Services (DSHS) as an exemption.

Advising for Registration

All new students and students who have not met Texas Success Initiative (TSI) requirements are required to meet with a Student Success Coach prior to registration. In addition, all other students are encouraged to consult with their assigned Student Success Coach prior to registration. A Student Success Coach will provide a degree plan for each student.

Student Success Coaches assist students in selecting fields of study by helping them to identify their educational and life goals so they will be able to make informed decisions. Information is provided about the application process, financial aid, placement testing requirements, interpretation of testing results and special programs. Student Success Coaches are knowledgeable about all academic and workforce programs offered by the college and provide
students with appropriate academic plans. Students are assisted with the proper selection of courses for their targeted degree plan and with the interpretation of their Texas Success Initiative (TSI) status.

Student Success Coaches also provide important information about academic standards, college policies and procedures, and transfer concerns. In addition, Workforce Development faculty members assist with advising students in their educational areas.

**Concurrent Enrollment: PJC and Another College**

A student wishing to be concurrently enrolled at Paris Junior College and another accredited college may be admitted with written agreement between the two colleges.

**Credit by Examination**

Students at Paris Junior College may earn college course credit by demonstrating superior achievement on tests offered by several examination programs. Credit earned through CLCBE (College Level Credit by Examination) procedures will apply toward graduation requirements at Paris Junior College.

Credit by examination for academic courses may be granted for the following tests:

- CLEP General Examinations
- CLEP Subject Examinations
- College Entrance Examination Board (CEEB)
- Advanced Placement Program (AP) - see below

Students interested in earning credit for life experience for workforce/technical courses should contact the appropriate division chair for information concerning the availability of specific departmental tests.

Credit earned by examination may not be earned in any course for which the student has previously received a grade either at Paris Junior College or elsewhere. Credit by examination/experience will not be transcribed until the student has completed one semester at Paris Junior College, and will be recorded on the student’s official transcript without grade equivalent or inclusion in the grade point average.

Credit awarded or accepted by Paris Junior College applies to its programs of study; such credit may transfer to other institutions according to the policies of the receiving institution. Students planning to use credit by examination to meet degree requirements at other institutions should check the requirements of the receiving institution.

The fee for credit by examination/experience is the equivalent of in-district tuition for an internal evaluation.

**Advanced Placement Program (AP)**

Advanced Placement (AP) standardized examinations are designed to measure how well a student has mastered the content and skills of AP courses. To get credit, the student will
need to request that the College Board send the official score report to Paris Junior College.

A student must achieve the score(s) as listed in the chart below on the AP exams to earn college credit:

**Early Admission**

For high school students, upon written approval from the high school administration. (See Concurrent Enrollment)
Establishing Residency

Texas Higher Education Coordinating Board Rule 21.731 requires each student to provide substantiating documentation to affirm residence for tuition purposes. It also requires that they sign an Oath of Residency.

Students are given a resident status form during the admissions or registration process. Supporting documentation used to establish residency may include the following: Texas high school transcript, Texas college or university transcript, employer statement of date of employment, Texas voter registration, lease agreement which includes student’s name and periods covered, property tax payment, cancelled checks, utility bills, or other third party documentation confirming residency status for the 12 month period preceding enrollment.

Students should bring proper documentation to prove residency to meet the requirements.

Orientation

Orientation is mandatory for new students and gives them the opportunity to learn about campus services and resources. This requirement is waived for transient students or students who transfer in 12 hours or more.

Student Success Course - Learning Framework

All first time entering students are required to enroll in a student success course, Learning Framework. The course includes study skills, test taking skills, time management, stress management, and other areas that will help students be successful in college.

Placement (Texas Success Initiative Assessment 2.0)

Students enrolling for classes at PJC must present TSI approved test scores, proof of exemption or have completed a TSI approved test before enrolling. Scores for high school students should be adequate for college level placement, as we are not required to remediate high school students. The following guide designates appropriate scores for placement.

### EXEMPTIONS

(Valid up to five years from date of testing)

- **ACT** (taken before February 15, 2023) 23 Composite with 19 on Math and / or English
- **ACT** (taken on or after February 15, 2023) Combined 40 English and Reading (E+R) and / or 22 on Mathematics
- **SAT** (taken after March 5, 2016) 480 EBRW (evidence-based reading & writing) and / or 530 Math
- **TAKS** 2200 math and / or 2200 ELA and Essay of 3
- **STAAR** EOC English III - Level 2 (4000+) and / or Algebra II - Level 2 (4000+)
- **GED** (as of May 12, 2021) 165 on the Mathematical Reasoning and / or 165 on the Reasoning Through Language Arts (RLA)
- **HiSET** (May 12 - August 31, 2021) 15 on the Mathematics and / or 15 on the Reading and Writing subtest, including an Essay of 4

### PASSING SCORES

- **TSIA** R-351, M-350, W-340 and Essay of 4
- **THEA** R-230, M-230, W-220
- **ASSET** R-41, ELALG-38, W-40/5 or Essay 6
- **COMPASS** R-81, ALG-39, W-59/5 or Essay 6

### Record Retention and Maintenance

Admission materials submitted to Paris Junior College should be original documents. The documents submitted, upon receipt by the Office of Admissions & Records, become property of the school, and originals, except for foreign transcripts, will not be returned to the student.
Admissions applications and supporting documentation received from individuals who apply to Paris Junior College but do not enroll will be retained and destroyed in accordance with the Retention Schedule on file with the Texas State Library and Archives Commission.

Non-Course Based Options

Students who do not score high enough on the TSIA2 (assessment establishing if they have the skills necessary to pass a college level course) but who test within a threshold score may take a Non-Course Based Option (NCBO) in addition to the college-level course. NCBOs offer internet-based instruction that students may take at their own pace as they complete a college-level course. Course content is limited and specific to meet students’ needs and help to accomplish their goals. The placement testing determines content and course length.

This intervention is designed for students with an essay score of 3 or 4 for English Language Arts & Reading and students with a diagnostic test equal to 5 in math placement. NCBO options include NCBI 0004 and NCBI 0016 for ELAR and NCBM 0004 and NCBM 0116 for math.

Developmental Education Corequisite Courses

Students who do not score high enough on the TSIA2 but whose test score is within a threshold and below Non-Course Based Options (NCBO) will be required to take a developmental education corequisite course in addition to the college-level course. Corequisite courses are designed to assist students with a demonstrated need for skills development in reading, writing, and/or mathematics to master basic skills needed for success in the paired college course.

If a student does not receive the minimum required scores on an approved TSIA2 test, the student will be required to enroll and attend a prescribed paired corequisite course and remain in the course until passing test scores are submitted, or the corequisite and college-level course is successfully completed. Therefore, all students are expected to do their utmost to complete the corequisite and paired credit courses within one semester. If a student withdraws from a corequisite course, they must also withdraw from the paired credit course.

ESL – English as a Second Language

In Texas, a student whose native language is not English must meet the same testing and placement requirements as all other students. By state mandate Paris Junior College offers skill development courses especially for English as a Second Language (ESL) students in the areas of writing, mathematics, speaking/pronunciation, and reading through the Adult Education and Family Literacy Department.

Free English language classes are offered each semester for ESL students who need to improve their reading, writing and/or oral language skills. These classes, taught in a contextualized manner, focus on real-life academic English language skills needed to be successful in college and in the workplace. The following writing skills are addressed: mastering parts of speech, building punctuation skills, using correct sentence structure, improving writing style and paragraphing, and improving spelling and capitalization. Reading for understanding focuses on reading strategies, vocabulary development, phonetics, and fluency. Oral language skill
development includes: pronunciation, formal and informal communication styles, listening, and conversation. Basic mathematics is integrated throughout the program in the form of financial literacy, consumerism, and measurement. After progressing in the ESL program, if the ESL student is still in need of skill development, he/she can enroll in an Adult Basic Education course to further develop their reading, writing and/or mathematics skills.

For more information on free ESL or Adult Basic Education classes, contact the Adult Education Department at 903.782.0467.

Transfer of Credit

Credit for courses in which a passing grade (D or better) has been earned may be transferred to Paris Junior College from colleges and universities accredited through one of the following associations:

» Middle States Association of Colleges and Schools/Commission on Higher Education
» New England Association of Schools and Colleges
» North Central Association of Colleges and Schools
» Northwest Association of Colleges and Schools
» Southern Association of Colleges and Schools/Commission on Colleges
» Western Association of Schools and Colleges/Accrediting Commission for Senior Colleges
» Western Association of Schools and Colleges/Accrediting Commission for Community and Junior Colleges

It is the policy of Paris Junior College not to transfer credits received from any United States institution not so accredited. Students seeking credit from institutions outside the United States are required to present a transcript evaluation from an approved evaluation service. For more information, students may contact the Registrar. Students who have gained proficiency through completion of coursework from non-accredited institutions, or through life/work experience, should consult the Office of Admissions & Records regarding credit by examination/experience. Paris Junior College will inform transfer students of the amount of credit which will transfer prior to the end of the first academic term in which they are enrolled. Note:

» Students who transfer to Paris Junior College are required to submit an official transcript from all previously attended institutions to the Office of Admissions & Records prior to the end of their first semester of attendance.
» Students receiving VA education benefits are required to have all prior credit reviewed by the school, with credit awarded where applicable. This review includes all credits from military service as well as all post-secondary institutions previously attended. The school is responsible to obtain copies of all post-secondary and military transcripts for all veteran students receiving or requesting to receive VA education benefits. This requirement applied to all approved programs of study offered by
the school. (Title 38 Code of Federal Regulations 21.4253(d)(3) and 21.4254(c)(4)).

» Students are responsible for providing supporting documentation (school catalog, course syllabus/description, etc.) for transcript evaluation when necessary.

» The official transcript evaluation will be maintained in the student’s permanent file in the Office of Admissions & Records.

» A student wanting to appeal the transcript evaluation may direct his/her appeal to the Registrar. The Registrar will then confer with the appropriate vice president and notify the student within 30 days of the date of the appeal as to the decision.

» Transfer students intending to graduate from Paris Junior College should know that a minimum of twenty-five percent (25%) of their coursework applying to graduation must be completed at PJC.

A transfer student from a Texas public institution or from an accredited Texas private or out of state institution, if the receiving institution determines that the student has successfully completed a related introductory college-level course with an A, B, C, or D, the institution will report a student TSI complete in the related area.

Information on all college programs may be obtained by writing:

Registrar
Paris Junior College
2400 Clarksville Street
Paris, Texas 75460
903.782.0425

Resolution of Transfer Disputes

Paris Junior College works closely with colleges and universities to make the transfer process as smooth as possible for courses transferred to PJC from the other institutions and follows guidelines to resolve transfer disputes.

The Texas Higher Education Coordinating Board has established procedures (see below) to be followed when transfer credit for lower-division courses listed in the Academic Course Guide Manual (ACGM) is disputed. The individual courses covered by this procedure are defined in the Coordinating Board’s guide entitled, “Transfer of Credit Policies and Curricula.”

Resolution of Transfer Disputes for Lower-Division Courses

The following procedures shall be followed by public institutions of higher education in the resolution of credit transfer disputes involving lower-division courses.

» If an institution of higher education does not accept course credit earned by a student at another institution of higher education, the receiving institution shall give written notice to the student and to the sending institution that transfer of course is denied. The receiving institution will also give the reasons for denying credit for a particular course or set of courses at the request of the sending institution.
The two institutions and the student shall attempt to resolve the transfer of the course credit in accordance with the Texas Higher Education Coordinating Board rule and/or guidelines.

If the transfer dispute is not resolved to the satisfaction of the student or the sending institution within 45 days after the date the student received written notice of denial, the institution whose credit is denied for transfer shall notify the Commissioner of the Higher Education Coordinating Board of the denial.

The Commissioner of Higher Education or the Commissioner’s designee shall make the final determination about the dispute concerning the transfer of course credit and give written notice of the determination to the involved student and institutions.

NOTE: It is the responsibility of the student to check with the college or university to which they plan to transfer for all requirements. The student should know admissions policies, specific department requirements, deadlines, and courses that will satisfy degree requirements.

Photographing Employees, Students, and Related Activities

Paris Junior College often photographs and videos its students, faculty and staff for use in PJC publications, public relations, marketing, and the website. Anyone who does not want his or her photograph/image used for these purposes should file a written request with the Marketing and Public Relations Office.

HELPFUL HINT: Applications for the Radiology Technology program are accepted annually from August 1 to September 30.

COST OF ATTENDANCE

Tuition and Fees

For tuition purposes, students who enroll at Paris Junior College will be classified as In-District, Out-of-District, or Non-Resident. Proof of residence is required at the time of enrollment. The classifications are:

» **In-District**: Student’s residence must be documented on the Paris Junior College tax rolls (defined as residing within Lamar County). Student must have lived within the district for one year prior to enrollment at PJC.

» **Out-of-District**: Students who are Texas residents other than residents of Lamar County and all Oklahoma residents. Students must have lived within the state of Texas or Oklahoma for one year prior to enrollment at PJC.

» **Non-Resident**: Students whose legal residence is outside the states of Texas and Oklahoma.

» **Full-Time Student**: A student who is enrolled in 12 or more semester
hours of study.

» **Part-Time Student:** A student who is enrolled in less than 12 semester hours of study.

**Note:** Additional costs will include minimal laboratory fees and textbooks. Oklahoma residents are charged out-of-district, not non-resident, tuition at PJC. All costs are subject to change by the PJC Board of Regents. Students may be charged a higher tuition for courses attempted a third time.

### Residence Hall Costs*

Each student is required to make a payment of $135 (a $100 deposit and $35 background check fee) in order to have a space reserved in a residence hall. Upon receipt of the application for housing and the required deposit and fee, the Business Office will issue a receipt, and the student’s name will be placed on the approved list according to the receipt number. The deposit may not be applied to school costs, but will remain as a credit until the end of a semester or term. Students should contact the Director of Student Life for current residence hall costs. Students living off-campus may purchase commuter meal tickets from food service.

</tbody>
</table>

Summer sessions are prorated based on cost.

No food service will be provided during the Thanksgiving, Christmas and spring holidays; all residence halls will be closed during these holidays, and students are expected to make arrangements accordingly. Allowance for holidays has been made in setting the charge for residence hall costs.

Residence hall costs may be paid in four installments, with a $25 installment fee. In a fall semester, one-fourth is due upon occupancy, one-fourth on October 1, one-fourth on November 1, and one-fourth on December 1. In a spring semester, one-fourth is due upon occupancy, one-fourth on March 1, one-fourth on April 1, and one-fourth on May 1.

All residence hall students must pay upon occupancy.

*All rates are subject to change.

Tuition Rebates for Certain Students Receiving Bachelor’s Degrees

Senate Bill 1907 modified the Education Code to create a tuition rebate program for undergraduate students who complete their Bachelor’s degrees after attempting not more than three hours more than the number required.

The purpose of this program is to provide tuition rebates that will provide a financial incentive for students to prepare for university studies while completing their high school work, avail themselves of academic counseling, make early career decisions, and complete their baccalaureate studies with as few extraneous courses as possible. Minimizing the number of courses taken by students results in financial savings to students, parents and the state. To be eligible for rebates under this program, students must meet all the following conditions:

» They must have enrolled for the first time in an institution of higher education in the fall 1997 semester or later.
» They must have received a baccalaureate degree from a Texas public university.
» They must have been a resident of Texas and entitled to pay resident tuition at all times while pursuing the degree.
» They must have attempted no more than three hours in excess of the minimum number of semester hours required to complete the degree under the catalog under which they were graduated. Hours attempted include transfer credits, course credit earned exclusively by examination, courses that are dropped after the official census date, and for-credit developmental courses.
Refund Policy

Students enrolled in semester credit hour courses who officially withdraw or reduce their semester credit hour load at PJC shall have tuition and required fees refunded according to the following schedule. Refunds for courses with unique scheduling will be processed according to state guidelines. Refunds are issued based on the Refund Choice made by the student after logging in to MyPJC.

Fall / Spring Semester (16-week):
Prior to the first class day: 100%
Day 1-15: 70%
Day 16-20: 25%
Thereafter: None

Fall or Spring Semester (12-week):
Prior to the first class day: 100%
Day 1-12: 70%
Day 13-15: 25%
Thereafter: None

Fall or Spring Semester (8-week):
Prior to the first class day: 100%
Day 1-8: 70%
Day 9-10: 25%
Thereafter: None

Fall or Spring Semester (3-week):
Prior to the first class day: 100%
Day 1-3: 70%
Day 4: 25%
Thereafter: None

Summer Terms (16-week):
Prior to the first class day: 100%
Day 1-4: 70%
Day 5: 25%
Thereafter: None

Summer Terms (12-week):
Prior to the first class day: 100%
Day 1-5: 70%
Day 6-7: 25%
Thereafter: None

Summer Terms (8-week):
Prior to the first class day: 100%
Day 1-5: 70%
Day 6: 25%
Thereafter: None

Summer Terms (3-week):
Prior to the first class day: 100%
Day 1-3: 70%
Day 4: 25%
Thereafter: None

FOR THE PURPOSE OF THE REFUND POLICY, A CLASS DAY IS DEFINED AS A DAY DURING WHICH COLLEGE CLASSES ARE CONDUCTED. The count begins with the first day classes are held during the term and includes each consecutive class day thereafter. The first-class day and other important dates are listed in the Schedule of Classes each semester. For additional information about adding or dropping classes, see “Adding & Dropping” classes under Academic Policies in the current college catalog.

Refund of Residence Hall Deposits

At the close of a semester that a student has completed, and if they are not returning, the room deposit will be refunded. The resident must pay damages assessed upon receipt of billing unless financial arrangements are made with the Director of Student Life.

If a request for cancellation is received 30 days before the beginning of the semester for which the reservation was made, the deposit will be refunded. Room deposits may not be applied to a following semester.

No room deposit refund will be made to the student who withdraws or is required to withdraw during a semester.

Residence Hall Refunds

When a resident withdraws from the institution or residence hall either by choice or requirement, the meal cost is prorated through the week of withdrawal; however, the resident is billed for the cost of the room for the semester. Students enter into a contract
to remain in the residence hall for the semester unless withdrawal from the college is the end result.

Students must follow the required check-out procedure when vacating the residence hall. This procedure is given in detail in the Resident Hall Handbook regulations.

Check Writing

Students may cash personal checks only in the Business Office not to exceed the amount of $50. If for any reason a check is returned, the check will be handled by the Business Office for collection. A $25 service fee will be charged. Students must present their student identification cards and must have their student identification number on the checks.

HELPFUL HINT: Priority dates for completing your financial aid file in order to ensure that funds will be available for registration: Fall semester, July 15; Spring semester, Nov. 15; and Summer session, May 1.

Financial Aid

Paris Junior College subscribes to the philosophy that all students who have the ability to pursue and can benefit from a college education should be given the opportunity. The purpose of federal and state financial aid is to provide grants, loans, and part-time employment to eligible students who need help with paying their college expenses.

Because students are the ones who will benefit the most from their college education, the students and their families are considered to have primary responsibility for paying the costs of attendance as determined by the Department of Education. Federal financial aid is only intended to supplement, not replace, the student’s and their family’s responsibility for paying college expenses. For detailed information about the federal financial aid programs and institutional policies and procedures, students are advised to contact the Financial Aid Office.

Award Procedures

All federal and state financial aid is awarded in strict compliance with federal regulations and institutional policies and procedures. Priority is given to students with the greatest documented financial need whose completed applications are received by the priority dates.

Federal financial aid is awarded on the basis of documented individual need. Need is the difference between the college’s estimated cost of attendance for the student and the amount the students and family can reasonably be expected to contribute toward the student’s cost of attendance. Need-based aid awards cannot exceed documented financial need.
The major need-based federal financial aid programs are the Federal Pell Grant, Federal Direct Stafford Subsidized Loans, Federal College Work Study, and Federal Supplemental Education Opportunity Grant programs. A grant does not have to be paid back if the recipient complies with all of the terms under which the money was awarded. Work study gives the student the opportunity to work at the college and earn money to help pay expenses. Loans must be repaid.

The State of Texas has exemption programs that may be available to eligible Texas residents. See the College For Texans Web site (www.collegeforalltexas.com) for available programs of interest.

**Eligibility Requirements**

Financial aid recipients must meet all federal and institutional eligibility requirements including the following:

- Have a financial need.
- Have a high school diploma or a TxCHSE to establish eligibility.
- Be enrolled as a regular student in an eligible program.
- Be a U.S. citizen or eligible non-citizen.
- Make satisfactory academic progress.

**HELPFUL HINT: Apply for financial aid online at www.fafsa.gov.**

**Application Procedures**

To apply for one or more types of federal financial aid, students must submit the Free Application for Federal Student Aid (FAFSA) at [https://studentaid.gov](https://studentaid.gov) and other required documents. For maximum consideration, students should apply as early as possible. Contact the Financial Aid Office for applications, information and assistance. Students must apply annually on or after January 1 to be considered for financial aid for the next academic year.

Caution should be exercised when completing financial aid applications and forms. Students must read and follow all instructions carefully. Applications that are incomplete or that contain errors or false and misleading information will not be processed.

**Required Documentation**

Students are required to submit written documentation to the Financial Aid Office verifying the information reported on their applications. Types of required documentation include, but are not limited to, Student Aid Reports, institutional verification forms, federal income tax transcripts, academic transcripts, marriage licenses, divorce decrees, proof of separation, child support and untaxed income.

Students reporting no prior year income or exceptionally low incomes may be required to prove how normal living expenses were met. Eligibility cannot be determined until verification is complete.
Loan Policy

Paris Junior College (PJC) began participating in the Federal Direct Stafford Loan Program (Direct Loans); a Federal Title IV Program, in the fall term of 2018.

It is the primary goal of the Financial Aid Office at Paris Junior College to help students gain understanding of the responsibilities of utilizing Federal Direct Loans. Loans should be taken out as the last alternative for financing a student’s education. It is also recognized that in some cases, a student loan may be the only alternative available to assist with their educational expense.

Students interested in a Federal Direct Loan at PJC must complete the Free Application for Federal Student Aid (FAFSA) and submit all required documents needed to complete the application process.

Paris Junior college strongly recommends a total borrowing limit of $15,000. This loan limit includes all student loans, including amounts received from other institutions. Private loans are not guaranteed by the federal government and do not provide the same benefits to students as federal loans. For this reason, and our low costs, PJC does not endorse, certify, or participate in alternative loan programs.

Direct Loan Packaging

A statement will be included on the Financial Aid Award Letter sent to students via mail indicating that the student may pursue a student loan as an option. Students wanting more information are instructed to contact the PJC Financial Aid Office to request more information and/or a Federal Student Loan Request Packet.

PJC will only process Federal Direct Loans for the following enrollment periods; fall and spring.

Summer Federal Direct Loan requests will only be considered for Associate in Applied Science or certificates in the following programs of study: Air Conditioning & Refrigeration, Associate Degree Nursing Program (ADN), Diagnostic Medical Sonography, Emergency Medical Services-Paramedic, Horology, Jewelry, Jewelry Technician (Computer Aided Design, Repair Technician), Radiology Technology, Surgical Technology, Vocational Nurse (LVN), and Welding, since these programs often require summer enrollment.

Federal Direct Loan Application Requests

A student who is requesting to have a Federal Direct Loan as a part of their award package must complete the Paris Junior College Federal Student Loan Request Packet (FSLRP). The potential student borrower must submit a completed FSLRP with printout, print out of successful completion of the Annual Student Loan Acknowledgement available online at https://studentaid.gov, and Financial Aid Loan Budget Worksheet.

Deadline for FSLRP submission will be the Friday prior to the first week of class for the fall, spring and summer terms only. Specific deadline dates for each of the terms are listed on the Federal Student Loan Request Packet. Incomplete packets will not be accepted, held for ad-
ditional documents or processed. Students submitting a FSLRP should be requesting for the academic year, not just term. Student will only be allowed to submit one Federal student Loan Request Packet (FSLRP) per academic year.

A potential borrower must accept any aid that has been awarded through the PJC student portal, be enrolled in a minimum of 6 credit hours required for the student’s declared academic program, meet Financial Aid Standards of Academic Progress, prior to processing of the FSLRP.

**Award and Disbursement Procedures**

Completed FSLRP’s will be processed by the Official Reporting Date (ORD). Loan(s) awarded must be accepted by the student through the PJC student portal by ORD to prevent a drop for non-payment. A loan offer in a “pending” status will not prevent a drop for non-payment. A “pending” status is defined as an award offer that is waiting for the student’s action of acceptance through the Net Partner student portal.

Student borrowers are required to complete the Direct Loan Entrance Counseling (DLEC) session and Master Promissory Note (MPN) at the PJC Testing Center. Students will be required to complete the Direct Loan Entrance Counseling and Master Promissory Note on an annual basis or more frequently on a case by case basis. After completing the counseling and MPN, each student will meet in person with PJC financial aid staff to review and verify references. If references cannot be verified, the loan will be cancelled. Both the Direct Student Loan Entrance Counseling and Master Promissory Note (MPN) will need to be complete before any accepted loan awards can be credited to the students billing account at PJC. PJC will provide additional group Direct Loan Entrance Counseling sessions each term for student borrowers to participate in.

Students will have 30 days from ORD to complete the Direct Loan Entrance Counseling (DLEC) session and Master Promissory Note (MPN). If the DLEC and MPN are not completed within this time frame the loan offer/acceptance will be cancelled and assessed on a case-by-case basis.

Loan disbursements occur in two payments each fall and each spring term. First disbursement will occur after ORD and the second will occur after the last day to drop/withdraw. Students will typically receive one-half of the loan in each payment.

Paris Junior College defines the loan period based on the projected enrollment of the student. If a student receives loans from another school within the same loan period, then we must consider all loans received and certify only the remaining loan eligibility.

Disbursements to the business office and refunds of loan fund(s) to the student, may be delayed due to various start dates or non-traditional class formats in which the student is registered.

**Federal Direct Loan Exit Counseling**

The U.S. Department of Education requires that a student participate in Federal Direct Loan Exit Counseling for a student, who has taken out a Federal Direct student loan, when a student
withdraws, graduates, drops below half-time attendance or plans on transferring to another school. PJC requires the student to complete exit counseling at the end of each academic year, even if the student plans on attending the next academic year.

If a student fails to complete Federal Direct Loan Exit Counseling they will receive a letter directing them to the Federal Direct Loan Exit Counseling website. After 30 days, if student still has not completed exit counseling the Financial Aid Office will send out an Exit Counseling Guide provided by the U.S. Department of Education.

Every attempt will be made to assist the student in completing the exit counseling before he or she leaves campus. Transcript hold will be placed on students’ accounts until they have completed exit counseling.

Transfer Students

All applicants who have attended other colleges and/or universities during the same academic year are required to add Paris Junior College’s school code (003601) to the application. The amount of aid awarded at the other school must be verified before an award can be processed.

Satisfactory Academic Progress (SAP)

According to U.S. Department of Education Financial aid guidelines, Paris Junior College requires students who receive financial and state aid to maintain the following standards of satisfactory academic progress (SAP). These measurements shall be used to determine your eligibility for all federal Title IV aid and for other need-based financial assistance, unless the terms of a particular grant or funding source states otherwise. Students must meet all three (3) measurements below to maintain their eligibility for financial aid.

1. Qualitative Progress Measurement:
   Minimum Cumulative Grade Point Average

   To continue receiving financial aid payments, you are expected to successfully complete all your classes with good grades. You must have at least a 2.00 cumulative overall GPA (including developmental courses) at the end of the spring semester each year, or you will be suspended from receiving your financial aid unless you file a successful appeal. Students will receive a warning notice at the end of the Fall semester. See the section on Financial Aid probation below for more information on how Financial Aid suspension may affect your ability to receive aid. If you are awarded Summer aid your GPA will be checked again at the end of the summer. You must have at least a 2.00 cumulative GPA at the end of the summer or your financial aid will be suspended (see suspension guidelines below).

2. Quantitative Progress Measurement:
   Number of Credit Hours Required to Complete

   When you enroll in classes and receive financial aid, you are expected to complete those
classes. If you do not complete at least 67% of the credit hours that you started during the year (Fall and Spring), you will be suspended from financial aid. Only passing grades (D or above) count as successful completions. Incomplete or other grades that do not result in earned credits will not count as completions. Students will receive a warning letter at the end of the Fall semester and must see a Student Success Coach to establish an academic plan and monitoring system. Summer aid each year will be awarded and at the end of Summer your hours attempted and completed will be checked again. You must have successfully completed at least 67% of all classes attempted during that year or your financial aid will be suspended (see suspension guidelines below). Except for a program that takes less than one year to complete, SAP will be calculated at the midpoint of the program.

How do I calculate 67%?

» Add all the hours you attempted during the year (Fall, Spring). *Classes dropped are counted.*
» Multiply by .67
» Round any decimal up to the next whole number and that is the number of hours you must successfully complete (grade of an A, B, C, or D).

3. Quantitative Progress Measurement:

*Maximum Time to Complete a Degree/Program*

When you receive financial aid to help pay for a program of study, you are expected to complete that program without wasting a lot of money and time. You must select a program of study before you can receive financial aid.

To make sure that you complete your program in a reasonable amount of time, a limit has been placed on the number of hours that you can attempt in order to complete your program. That limit is 150% of the minimum number of hours required to complete your program. Once you reach the 150% limit for your program, you will no longer be eligible to receive additional federal financial aid for that program. The lifetime maximum Pell grant can only be received for 12 full time semesters combining all schools attended.

There are a lot of variables that go into calculating that limit, including, but not limited to:

» All attempted credit hours are counted regardless of whether or not you received aid to pay for them.
» Any transfer hours that are accepted from other colleges toward completion of your program are counted. If you are a transfer student, you must submit transcripts from all previous colleges before the end of your first semester or second semester aid will be canceled.
» If you repeat a course, both attempts are counted.
» If you withdraw from a course, it is still counted as an attempt.

Note: If you cannot complete your program within the 150% limit, you will be placed on financial aid suspension when that determination is made.
Financial Aid Suspension

If you fail to meet any one of the SAP measurements described above, you will be placed on financial aid suspension for at least one award year, unless you file a successful appeal. (Once you exceed the 150% limit, you cannot regain satisfactory progress. However, in extreme circumstances you may appeal to extend your eligibility to complete a program.) During the period of suspension, you will not be eligible to receive financial aid.

To regain financial aid eligibility, you must pay the expenses related to at least half-time enrollment (six hours) and satisfy all SAP requirements.

Unusual Circumstances and Appeals

If unusual circumstances contribute to students’ lack of academic progress, those students may regain Title IV eligibility through direct appeals to the Financial Aid Office. Financial aid administrators review appeals and make exceptions to SAP policies on a case-by-case basis using professional judgment. Federal regulations offer sample situations of unusual circumstances. According to federal guidelines, unusual circumstances include, but are not limited to:

» Illness.
» Injury.
» Personal crisis.
» Death in the family.
» Other unusual circumstances that reasonably could contribute to a lack of academic progress.

If you are placed on financial aid suspension, you may petition the Financial Aid Office to consider mitigating (special) circumstances that resulted in your inability to meet the SAP requirements. The Appeal Form must be completed and must include supporting documentation (if applicable) regarding the circumstances (i.e., medical statements, divorce documents, letters of unemployment, etc.).

You will be notified by the Financial Aid Office within five days after a decision has been made regarding the appeal. If the appeal is approved you will be put on financial aid probation for a period of no less than one semester. You will be required to meet with a Student Success Coach to evaluate your educational goals and program of study. You must abide by all probationary requirements as designed by the Student Success Coach and the Financial Aid Office.

If the Financial Aid Office denies the petition, you may follow the same written procedure to appeal to the college Financial Aid Committee for review.

Financial Aid Probation

Students who are awarded aid on financial aid probation will be monitored throughout the semester. When a student successfully raises their Cumulative Overall GPA to a 2.0 and completes enough hours to meet the 67% of attempted hours, they will be released
from probation.

**WARNING: Repayment of Federal Funds**

If you receive federal financial aid and withdraw from all courses, you will be required to repay a portion of the federal aid received.

If you receive a grade of F in all courses for a semester, you will be required to repay a portion of financial aid received unless an instructor documents that you participated through the term.

**Financial aid will not pay for:**

- Any credit hours in excess of the 150 percent maximum program limit (see discussion of Quantitative Measurement No. 3 above)
- Credit hours earned by placement tests
- Courses you register for after the official certification date of the semester
- Courses taken by transient students

**Federal Direct Student Loan Restrictions**

In accordance with federal regulations, a school must verify that a loan recipient is meeting SAP each time funds are released to the student. If you have been awarded money under the Direct Loans, all or part of your loan will be canceled if you are not meeting SAP at the time loan funds are available for disbursement (distribution).

You then will not be considered for future loans until the SAP requirements have been met. Other restrictions related to your college’s default management plan may limit how much you may borrow and when you will receive your loan payments.

**Summer Enrollment and SAP**

When calculating the SAP status, summer hours attempted will be counted toward the 150 percent maximum, and summer grade points earned will be calculated as part of the cumulative grade point average.

**NOTICE TO APPLICANTS**

**Student Financial Assistance Programs Disclosure of Social Security Account Number**

Section 7(a) of the Privacy Act of 1974 (5 U.S.C. § 552a) requires that when any federal, state, or local government agency requests an individual to disclose his or her Social Security Account number, that individual must also be advised whether that disclosure is mandatory or voluntary, by what statutory or other authority the number is solicited, and what use will be made of it.

Accordingly, applicants are advised that disclosure of the applicant’s Social Security Account number (SSAN) is required as a condition for participation in student financial assistance programs sponsored by the federal government, state of Texas, or the local government, in view of the practical administrative difficulties that would be encountered in maintaining adequate program records without the continued use of the SSAN.

The SSAN will be used to verify the identity of the applicant and as an account number (identifier) throughout the life of the loan or other type of assistance in order to report necessary data accurately.
As an identifier, the SSAN is used in such program activities as determining program eligibility, certifying school attendance and student status, determining eligibility for deferment or repayment of student loans, and for tracing and collecting in cases of defaulted loans.

Authority for requiring the disclosure of an applicant’s SSAN is grounded on Section 7(a)(2) of the Privacy Act, which provides that an agency may continue to require disclosure of an individual’s SSAN as a condition for the granting of a right, benefit, or privilege provided by law where the agency required this disclosure under statute or regulation prior to Jan. 1, 1975, in order to verify the identity of an individual.

The state of Texas has for several years consistently required the disclosure of the SSAN on application forms and other necessary program documents use pursuant to statutes passed by the Texas Legislature and regulations adopted by the Coordinating Board, Texas College and University System. October 12, 2007.

HELPFUL HINT: Applications are accepted annually by appointment for the Licensed Vocational Nursing (LVN) program from January through February, and for the Associate Degree (LVN to RN) program from May through June.

Withdrawals

Withdrawing or dropping all courses during any semester may result in the student being required to repay his or her financial aid. Students who withdraw during the first 60 percent of a semester may owe money and hours back to the aid programs. This will be calculated at the time of total withdrawal using Department of Education prorata refund software. Students will be blocked from enrollment until arrangements to repay the funds have been made. All students receiving financial aid or veterans’ benefits must report to the Financial Aid Office before submitting their drop slips to the Office of Admissions & Records and Business Office.

Refund Policy

When students withdraw from the college or drop a portion of their semester hour enrollment, a refund of tuition and fees will be made according to the refund schedule printed in the current semester schedule.

Policy for Refund of Title IV Programs: Title IV programs are funded by the U.S. Department of Education. All refunds due to the Title IV programs will be refunded to the program charged in the following order: SEOG and Pell Grant. No refund to a Title IV program will exceed the award from that program.

The Financial Aid Office will calculate a prorated refund and establish the amount of aid that must be repaid and returned to the Title IV Programs for students that completely withdraw from all classes.

Changing Schools

Financial aid does not automatically transfer with students when changing schools. Students planning to change schools should contact the Financial Aid Office at the new school for applications and information.
Status Change and Financial Aid

During any semester or summer term, a student’s financial aid status can change. Therefore, information such as address change, course load change and financial gains or losses must be reported immediately to the Financial Aid Office.

Defaulted Loans & Grant Repayments

Students that are currently in default or owe a grant overpayment from any previous school will not be eligible for any type of financial aid. To re-establish eligibility, students must provide written proof of eligibility from a lender or the organization currently holding the loan.

Discrimination Prohibited

No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subject to discrimination under, any program or activity receiving federal financial assistance, or be so treated on the basis of sex under most education programs or activities receiving federal assistance.

Information and Assistance

Contact the Financial Aid Office for applications, financial aid publications, and detailed information about financial aid programs, federal regulations and institutional policies and procedures. Financial aid policies and procedures are subject to change without notice in order to comply with federal regulations or institutional policies and procedures. Office Hours are 8 a.m. to 5 p.m. Monday through Friday.

By mail: Financial Aid Office, Paris Junior College, 2400 Clarksville, Paris, TX 75460
Phone: 903.782.0429; Email: finaid@parisjc.edu

Scholarships

Paris Junior College offers an extensive range of scholarship programs. The criteria for selecting scholarship recipients may include, but is not limited to, academic achievement, major area of study, service to the college, leadership and personal character. All recipients of Paris Junior College scholarships are required to complete a Free Application for Federal Student Aid (FAFSA).

Students interested in applying for a specific institutional scholarship should contact the Admissions Office or the Financial Aid Office for detailed information.

Veteran Affairs

Paris Junior College is approved for veterans training under the provisions of various federal and state laws. Veteran affairs are administered through the Office of Student Financial Aid located in the Alford Center. Veterans who are applying for U.S. Department of Veterans Affairs (VA) educational benefits are advised to call VA to inquire and verify VA
eligibility. The telephone number of the VA Regional Office is 1-888-442-4551. Apply for benefits at: https://www.va.gov/education.

The following will be required for all students using VA benefits:

» A “Certificate of Eligibility” and/or “Statement of Benefits.”
» An official copy of the DD-214 showing an “Honorable” discharge status (Chapter 31 beneficiaries may have other statuses).
» Dependents using benefits will also need:
  • If married to the Veteran, a copy of a marriage license.
  • If a dependent child, a copy of birth records or records of adoption by the Veteran.

All Veterans should complete the “Request For Veterans Education Benefits” form each semester to continue to use your veteran benefits at Paris Junior College. It is located on the Paris Junior College website Veterans Services page. All recipients of financial aid, including Veteran’s educational benefits, must maintain satisfactory academic progress (SAP) in accordance with Paris Junior College Financial Aid policies.

A covered veteran/dependent is any individual who is entitled to educational assistance through the U.S. Department of Veterans Affairs.

» Paris Junior College will permit any covered individual to attend or participate in the approved course of education during the period beginning on the date on which the individual provides to the educational institution a certificate of eligibility for entitlement to educational assistance (a “certificate of eligibility” can also include a “Statement of Benefits” obtained from the VA) and ending on the earlier of the following dates:
  1. The date on which payment from VA is made to the institution.
  2. 90 days after the date the institution certified tuition and fees following the receipt of the certificate of eligibility.
» Paris Junior College will not impose any penalty, including the assessment of late fees, the denial of access to classes, libraries, or other institutional facilities, or the requirement that a covered individual borrow additional funds, on any covered individual because of the individual’s inability to meet his or her financial obligations to the institution due to the delayed disbursement funding from VA under Chapter 31 or 33.
» Veterans may also be required to set up a payment plan (which has a $25 fee), or pay for the amount that is the difference between the amount of the student’s financial obligation and the amount of the VA education benefit disbursement.

Hazlewood Act
Certain veterans who have served on active military duty, whose “Place of Entry” or “Home of Record” on their DD-214 is in Texas, who have resided in Texas during the 12-month period before the date of registration and whose entitlement to educational benefits under federal legislation has been exhausted are eligible for exemption from the payment of tuition and fees (excluding activity fees) at Paris Junior College through the Hazlewood Act.

These exemptions may also apply to children and spouses of members of the Armed Forces who were killed in action, otherwise died while in the service, or are permanently and totally disabled (as determined by the VA) and to children and spouses of members of the Texas National Guard and Texas Air National Guard killed since January 1, 1946, while on active duty.

To determine eligibility the following documents must be submitted to the Financial Aid Office:

» Hazlewood Application (Each Semester).
» A copy of the veteran’s DD214.
» A letter from the Veterans Administration showing benefits have been exhausted (Chapter 30, 31, 35).

* Financial Aid Satisfactory Academic Policy (SAP) applies.

The Financial Aid Office will determine eligibility.

**Academic Progress**

This policy is the same as financial aid satisfactory progress.

**Reinstatement of Benefits**

A veteran’s benefits terminated because of unsatisfactory academic progress will be reinstated when the veteran has met satisfactory academic progress requirements.

**Supplemental Information**

» The college does not participate in the VA advance payment program or pre-certification.
» Students receiving VA benefits must promptly notify the Financial Aid Office regarding any course(s) dropped.
» VA will require students to repay any benefits received for courses that are dropped.
» VA students may not repeat a course for which they have received a passing grade (D or higher).
» The Veterans Administration will only pay for courses that are required for graduation and are listed on the VA student’s official degree plan.
» Eligibility will be lost if the cumulative grade point average is less than 2.0 for two consecutive semesters.
» VA will only pay for remedial course work that is required for graduation.
Academic Standards

All students are encouraged to work toward achieving their goals and maintaining scholastic progress throughout their enrollment at the college. Students who maintain a 2.0 or better cumulative grade point average (GPA) are considered in good standing.

Adding and Dropping Classes

Schedule changes will be allowed for the first five days during the regular semester and for the first two days during the summer semester.

During the first five days of the semester, students can see a Student Success Coach to make schedule changes. After the first five class days, the students must go to the instructor of the course to be dropped; the instructor will complete the appropriate form.

A student may withdraw (drop) from a course, other than developmental courses, at any time up until the last day of the 12th week of the semester (fourth week in a summer term) with no grade penalty.

It is the responsibility of the student to initiate his/her drop from a course. However, prior to the last day of the 12th week (fourth week in a summer term) an instructor retains the right to drop a student for classroom disruption in accordance with the institution’s policy.

A student may withdraw from a course after the Official Reporting Day (ORD) and until the withdrawal deadline. This will result in the student receiving a grade of “W.” It is the student’s responsibility to initiate his/her drop through MyPJC.

Students receiving financial aid and/or Veterans’ benefits must report to the Financial Aid Office before turning in drop slips to the Office of Admissions & Records. Students on scholarship must obtain approval from their advisor prior to dropping a course.

Students who properly withdraw from courses will receive grades of “W” for such course work (see the college calendar for the proper date of withdrawal). After that date, students will not be allowed to withdraw from any courses.

Requests for withdrawal become official and effective the date they are received in the Office of Admissions & Records. Requests received after published withdrawal deadlines will not be honored.

Some courses at Paris Junior College are offered on a less than a semester length basis and end prior to the end of the semester. For such courses a student may withdraw as per scheduled in the course syllabus.

After the period of schedule changing as described above, in order to drop a course, a student must apply for permission from the instructor. If a student drops a course with
approval, he will receive a grade of “W” in the course. Students will not be allowed to drop a course after 75 percent of the semester has passed.

Occasionally a student’s attitude is detrimental to the progress of the rest of the class as well as his/her own. When it becomes apparent to the instructor that counseling will not resolve the problem, the student may be dropped from the course. Under this circumstance, on the recommendation of the instructor with the approval of the appropriate vice president, the student dropped will receive a grade of “F” in the course.

Students adding courses will be charged the appropriate tuition and fees according to the tuition and fee schedule. Students who add courses and fail to pay the full cost by the last day to add a class will be dropped and no credit given for the course.

**Limits on the Number of Dropped Courses**

Section 51.907 of the Texas Education Code, enacted by the Texas Legislature, Spring 2007, applies to students who enroll in a public institution of higher education as a first time freshman in Fall 2007 or later.

The College may not permit a student to drop more than six courses, including those taken at another Texas public institution of higher education. All courses dropped after the Official Day of Record are included in the six-course limit unless (1) the student withdraws from all courses or (2) the drop is authorized by an appropriate College official as an approved Drop Exception.

Drop Exceptions can be approved if the student documents that the drop was required for one of the following reasons and for that reason the student could not satisfactorily complete the course:

» The student, a member of the student’s family, or a person of equally important relationship to the student experiences a serious illness or other debilitating condition.

» The student becomes responsible for the care of a sick, injured, or needy person.

» There is a death in the student’s family or of a non-family member of equally important relationship.

» The student or a member of the student’s family, or a person of equally important relationship to the student, is called to active duty service as a member of the Texas National Guard or the armed forces of the United States.

» There is a change of the student’s work schedule that is beyond the student’s control.

» The College determines that there is other good cause for the student to drop the course.

Enrollment and drop activities of students affected by this legislation will be monitored.
Those who drop six or more courses without an approved Drop Exception will incur registration and drop restrictions during all subsequent semesters, and may incur other enrollment limitations or requirements.

PJC students liable under this legislation who plan to attend another Texas public college or university should determine that institution’s policies and penalties for dropping courses and for approving Drop Exceptions.

**Withdrawal From Developmental Courses**

Students who have not attended developmental classes before the official report date **must** be dropped by the instructor of record. Students dropped from all developmental courses due to non-attendance before the official reporting day will be out of compliance with Paris Junior College developmental education guidelines. All developmental student schedule changes prior to the official report date must stay in compliance with policy.

Students will be advised to remain in all of their developmental courses in order to complete their developmental sequences as quickly as possible. Students will also be advised of the consequences of withdrawing from developmental courses and the repercussions of receiving a grade of F in developmental courses. Students must be advised, if applicable, to consult with Financial Aid before making a decision about withdrawing from a course.

**Complete Withdrawal from College**

Withdrawal from all remaining courses not previously dropped during a term constitutes withdrawal from college and should not be confused with simply withdrawing from one of several courses in which a student may be enrolled. Withdrawal from college requires payment of all outstanding debts for tuition fees and/or fines. Official transcripts of Paris Junior College credits will not be issued for students with outstanding debts and/or college property.

**Change of Grade**

Students should review their end of semester final grades closely to ensure their accuracy. If an error or discrepancy should occur, the student should contact the appropriate instructor immediately. A student who wishes to challenge a course grade must first discuss the matter with the instructor. If no resolution is reached and the student wishes to pursue the challenge, a written appeal must be presented to the division chair or vice president. Further appeals will be directed through the appropriate division chair and/or vice president. In filing a formal appeal, the student must follow the Student Rights and Responsibilities, Student Complaints (FLD local) as found in the Student Handbook. The student has one year from the date of final grade assignment to challenge a grade.

**Definition of Semester Hour**

The common unit of measurement of college credit is the semester hour. It represents the amount of credit due for work completed in a class for the period of one semester. If a
class meets only one hour per week for one semester, the credit earned in that class is one semester hour. If it meets three hours per week, the credit earned usually is three semester hours. Sometimes, additional credit is given for a laboratory required in addition to the class periods. For adult education courses, the continuing education unit (CEU) is used. Ten contact hours equal one continuing education unit (CEU).

**Discipline**

College discipline exists for the protection of the students enrolled at Paris Junior College. Students who have learned to exercise self-discipline and accept responsibility rarely need to be concerned about having disciplinary sanctions imposed upon them. The college expects all students to observe standards of conduct appropriate for a community of scholars. Lewd, indecent, or obscene conduct or expression is not condoned.

The Director of Student Life is charged with the responsibility of serving as the disciplinary officer of the college. The director is assisted in this capacity by other administrative officers and by the faculty. The student’s enrollment in Paris Junior College acknowledges the authority of the college in setting standards for student behavior on campus. Policies, procedures and regulations governing the conduct of students at Paris Junior College are outlined in the Student Handbook that also contains general information related to student life at the college. Copies of the handbook are available at the time of registration, and additional copies are available from the Office of the Director of Student Life.

**Notification of Rights Under FERPA**

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. FERPA applies to both on-campus and online students. These rights include:

- The right to inspect and review the student’s education records within 45 days of the day the institution receives the request for access. Students should submit to the Office of Admissions & Records, vice president, head of the academic department, or other appropriate official, written requests that identify the records they wish to inspect. The institution official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the institutional official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

- The right to request the amendment of the student’s education records that the student believes is inaccurate. The student should write the institutional official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate. If the institution decides not to amend the record as requested by the student, the institution will notify the student of the decision and advise the student of his or her right to a hearing regarding the re-
quest for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing. Send to:

Custodian of Records
2400 Clarksville Street
Paris, TX 75460

» The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the institution as an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel); a person or company with whom the University has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Regents; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility. Upon request, the institution discloses education records without consent to officials of another school in which a student seeks or intends to enroll.

» The right to file a complaint with the U.S. Department of Education concerning alleged failures by Paris Junior College to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

Family Policy Compliance Office
US Dept. of Education
400 Maryland Avenue, SW
Washington, DC 20202-5901

Directory Information

In compliance with section 438, the General Education Privacy Act (Title IV, a public law 90-247 as amended) and generally known as the Privacy Rights of Parents and Students Act of 1974, Paris Junior College gives notice that the following directory information may be released to the general public without written consent of the student. A student may request that all or part of the directory information on file in his or her name be withheld from the public by making written request to the Office of Admissions & Records during the first 12 days of a fall or spring semester or the first four days of a summer term. This request will apply only to the current enrollment period which will include:

» Name and address
If no request is filed by the student to withhold directory information, such information is released upon inquiry. Directory information is also defined as public information and as such will be available for inspection or duplication upon request during normal business hours. If the requested information is in active use or in storage, the applicant will be so notified and a date and hour set within a reasonable time when the record will be available. Charges will be levied for the cost of reproducing the requested materials at fees set by the institution. Cost for a computer run of the student directory is $50.00. If additional programming is required, the programming fee will be $50.00 per hour — one hour minimum.

**Academic Policies**

**Scholastic Dishonesty**

“Scholastic dishonesty” shall include, but not be limited to, cheating, plagiarism, and collusion.

“Cheating” shall include, but not be limited to:

- Copying from another student’s test or class work;
- Using test materials not authorized by the person administering the test;
- Collaborating with or seeking aid from another student during a test without permission from the test administrator;
- Knowingly using, buying, selling, stealing, or soliciting, in whole or in part, the contents of an un-administered test, paper, or another assignment;
- The unauthorized transporting or removal, in whole or in part, of the contents of the un-administered test;
- Substituting for another student, or permitting another student to substitute for one’s self, to take a test;
- Bribing another person to obtain an un-administered test or information about an un-administered test; or
- Manipulating a test, assignment, or final course grades.
“Plagiarism” shall be defined as the appropriating, buying, receiving as a gift, or obtaining by any means another’s work and the unacknowledged submission or incorporation of it in one’s own written work.

“Collusion” shall be defined as the unauthorized collaboration with another person in preparing written work for fulfillment of course requirements.

**Grading System**

Paris Junior College is on a four point grading system. Grades and grade points for each semester hour of credit are as follows:

- A - Excellent: 4 grade points per credit hour
- B - Above Average: 3 grade points per credit hour
- C - Average: 2 grade points per credit hour
- D - Below Average: 1 grade point per credit hour
- F - Failure: 0 grade points per credit hour/CEU
- P - Pass: 0 grade points per CEU
- W - Withdrawal: 0 grade points per credit hour/CEU
- X - Incomplete: 0 grade points per credit hour

Grades of “W” and “X” are not included in the computation of cumulative grade point averages. A grade of “W” indicates that the student withdrew from class. A grade of “X” indicates that course work was incomplete at the end of the semester.

The instructor must submit a Request for Change of Grade to the Office of Admissions & Records when all course work has been completed. Incomplete course work must be completed by the end of the next long semester, or the grade of “X” shall be changed to a grade of “F”.

**Academic Probation and Suspension**

Students must maintain a cumulative grade point average of at least 2.0 for all course work attempted during the fall and/or spring semesters. Special program students and scholarship students may require higher grade point average status to continue. The student should be familiar with the regulations dealing with scholastic probation and enforced withdrawal. These standards are published in the PJC student handbook, procedures manual and the policy manual.

In addition, students are advised about the probation and suspension policies during the required freshman Learning Framework course. A student who has been dismissed, but who nevertheless registers in the College, shall have his/her registration cancelled and cannot attend classes. Such a student will receive no special consideration on a plea of lack of knowledge of his scholastic status, regardless of whether he registered and paid his fees.

Students shall maintain a cumulative grade point average of at least 2.0 on all course work attempted during the fall and/or spring semesters.

- **Probation**: Students who have a cumulative grade point average of less than 2.0 for all course work attempted during the fall or spring semesters
shall be placed on academic probation. Students may remove all proba-
tion status by raising their cumulative grade point average to a 2.0 or
ger higher during the fall, spring, or summer semesters.

» **Strict Probation:** Students who remain on academic probation for two
consecutive semesters shall be placed on strict probation for the subse-
quent semester. Students on strict probation must achieve a cumulative
grade point average of at least 2.0 by the end of the semester. Failure to
achieve the required cumulative grade point average shall result in suspen-
sion from the institution for one long term (fall or spring).

» **Suspension:** Students who fail to remove academic deficiencies while on
strict probation shall be suspended from the institution. Under certain
circumstances students on suspension may be readmitted by the institu-
tion on strict probation. Students who have been suspended from the
institution two times shall normally be denied future admission to the
institution.

» **Strict Probation Admission:** A student who is on suspension from the
College or another accredited institution may request admission to the
College on strict probation. The request must be made in person to the
Vice President for Student Access and Success. If, in the opinion of the
Vice President, the student has the ability to continue pursuing college
work, the student may be readmitted on strict probation.

**Students readmitted on strict probation shall meet all of the following
requirements:**

› Enroll in a Learning Framework course if not already completed and
  the course is on the student's Program Map.
› Achieve a cumulative GPA of at least 2.0 by the end of the semester.
› Obtain approval for his or her schedule of courses from the assigned
  Student Success Coach. Online registration is prohibited.
› Contact each instructor on a regular basis for special instructions and
  assistance, as needed.
› Forfeit eligibility for class or club offices.

Paris Junior College wants to make every effort to help you succeed and has established special
procedures to help accomplish that goal. You will be asked to follow these procedures and to
seek services available to you. Our goal is to help you raise your cumulative grade point average
to 2.0 or higher which will remove the probation status.

Students may be administratively withdrawn from all classes by the appropriate vice president
for failure to abide by these terms of probation.

» **Appeal:** Decisions concerning academic probation and suspension may
be appealed as outlined in FLD (LOCAL).

**Raising a Grade**

A grade in a course may be raised only by the student's repeating the course and making a
higher grade. Only the grade and credits earned (whether higher or lower, with the exception of a “W”) in the most recent course repeated will be used in computing the grade point average and applied toward degree or program requirements. Courses must be taken at PJC to raise a grade.

Grade Reports

Grades will be posted online on MyPJC at the end of each semester. Grade reports are not mailed.

Honor Lists

The President’s and Deans’ Honor lists are announced at the end of each semester. Both are limited to students who complete at least 15 semester hours (exclusive of developmental courses). Students on the Deans’ Honor List must also have no grade lower than a “C” and must have a grade point average of 3.5 or better. Students on the President’s Honor List must have a grade point average of 4.0.

Incomplete Grades

Only students who have successfully completed three-fourths of the coursework are eligible to receive an “X” and complete the remaining coursework in the next semester without registering for the course a second time. The instructor must submit a Request for Change of Grade to the Office of Admissions & Records when all coursework has been completed. Incomplete coursework must be completed by the end of the next long semester, or the grade of “X” will be changed to a grade of “F.”

Religious Holy Days

In accordance with Section 51.911, Texas Education Code, Paris Junior College will allow a student who is absent from class for the observance of a religious holy day to take an examination or complete an assignment scheduled for that day within a reasonable time after the absence.

Reasonable time will be determined by the instructor and will be no later than one week after the student returns from the religious holy day. Students are required to file a written request with each instructor to qualify for an excused absence. This request must be made within the first 15 days of the semester in which the absence will occur.

A student who is excused will not be penalized for the absence, but the instructor may appropriately respond if the student fails to satisfactorily complete the assignment or examination. If a student disagrees with any decision concerning absence, the student may use the regular channels for appeal.

Excused Absence for Active Military Service

Upon notice from a student, an institution of higher education shall excuse a student from attending classes or engaging in other required activities, including examinations, in order for the student to participate in active military service to which the student is called,
including travel associated with the service. A student whose absence is excused may not be penalized for that absence and shall be allowed to complete an assignment or take an examination from which the student is excused within a reasonable time after the absence. An instructor may appropriately respond if the student fails to satisfactorily complete the assignment or examination within a reasonable time after the absence. Education Code 51.9111(c); 19 TAC 4.9(a)–(b)

**Repeating Courses**

Grades of all courses taken will be recorded on the student’s transcript. Only the grade and credits earned (whether higher or lower, with the exception of a “W”) in the most recent course repeated will be used in computing the grade point average and applied toward degree or program requirements. (Exceptions: Courses designed to be repeated for additional course credit are specified in the course description.)

Enacted in the 78th Legislative Session, HB 1 mandates that students repeating a course for a third or more times will be subject to an additional fee for the repeated course.

Veterans should consult the Veterans Affairs office before repeating any course.

Students planning to transfer to another college or university should check with the receiving institutions for their repeat policies.

**Transcripts**

Transcripts are provided to students at no charge. Contact the Office of Admissions & Records at 903.782.0212 for the procedure for requesting a transcript. All financial indebtedness to the college must be paid before any student’s transcript will be released. Additionally, all necessary admission documents must be on file before release of transcript. Requests for transcripts should be made at least 24 hours before the transcript is needed.

**Security / Parking**

The Campus Police Department, under the direction of the Chief of Campus Police, provides protection for the college seven days a week.

All vehicles using campus parking facilities must display a current parking permit. Permits are issued at registration and are available at other times in the Campus Police office.

Students and faculty will be permitted to park in all parking lots and areas that are not otherwise reserved. All parking violations must be cleared through the Campus Police within five days from the date of violation.

Any student disagreeing with the fine and violation levied should consult the Director of Student Life.

Copies of complete Parking Rules and Regulations can be obtained in the Campus Police Office and will be issued at time of registration.
Semester Examinations

Semester examinations are required of students in all courses except those that are activity courses. A student who is absent from a semester examination will receive a grade of “F” in the course unless excused by the appropriate vice president and allowed to take a postponed examination.

Sexual Harassment Policy and Complaint Procedure

Sexual harassment of a student, including harassment committed by another student, includes unwelcome sexual advances; requests for sexual favors; or sexually motivated physical, verbal, or nonverbal conduct. Sexual misconduct and assault, including rape, are violations of Paris Junior College standards of conduct for students and its sexual harassment policy.

Gender-based harassment includes physical, verbal, or nonverbal conduct based on the student’s gender, the student’s expression of characteristics perceived as stereotypical for the student’s gender, or the student’s failure to conform to stereotypical notions of masculinity or femininity. Examples of gender-based harassment directed against a student, regardless of the student’s or the harasser’s actual or perceived sexual orientation or gender identity, may include offensive jokes, name-calling, slurs, or rumors; physical aggression or assault; threatening or intimidating conduct; or other kinds of aggressive conduct such as theft or damage to property.

More extensive details and definitions of prohibited behavior may be found in the PJC Student Handbook, which is updated annually.

For Title IX concerns, contact:

Title IX Coordinator / Human Resources Director
Melanie Hatcher
2400 Clarksville Street
Paris, TX
Telephone: 903-782-0483
Email: mhatcher@parisjc.edu

Complaint Procedure

Any student who believes that he or she has experienced prohibited conduct or believes that another student has experienced prohibited conduct should immediately report the alleged acts to a responsible employee, or the appropriate College District official listed in this policy (See FLD in the PJC Student Handbook). Students have the right and can expect to have incidents of sexual misconduct to be taken seriously by the College District when formally reported, and to have those incidents investigated and properly resolved through administrative procedures. Formal reporting means that only people who need to know will receive information, and will be shared as necessary with investigators, witnesses, and the accused individual.

Any College District employee who suspects and any responsible employee who receives notice that a student or group of students has or may have experienced prohibited conduct shall immediately notify the appropriate College District official listed in this policy. Reports of
prohibited conduct shall be made as soon as possible after the alleged act or knowledge of the alleged act. A failure to immediately report may impair the College District’s ability to investigate and address the prohibited conduct.

The investigator shall have received appropriate training regarding the issues related to the complaint and the relevant College District’s policy and procedures. The initial review will be conducted by the Vice President for Student Access and Success or a designee whom will explain the College District conduct procedures:

» The difference between the administrative procedure and criminal report;
» No contact orders and remedial action; and
» Confidentiality and privacy.

Reports made to the Vice President for Student Access and Success will be shared confidentially with the Campus Title IX Coordinator and with the College District Campus Police Department per federal reporting requirements (Clery Act). If the results of an investigation indicate that prohibited conduct occurred, the College District shall promptly respond by taking appropriate disciplinary or corrective action reasonably calculated to address the conduct in accordance with College District policy and procedures (see FM and FMA in the PJC Student Handbook).

A student who is dissatisfied with the outcome of the investigation may appeal through FLD (LOCAL), beginning at the appropriate level. A student shall be informed of his or her right to file a complaint with the United States Department of Education Office for Civil Rights.

**Student Class Attendance**

Students are expected to attend classes on a regular and punctual basis. Absences are considered unauthorized unless the absences are due to sickness, emergencies, or sanctioned school activities. Student’s mastery of course content is measured by the individual instructor’s criteria. Students may be dropped from classes upon the recommendation of the instructors who believe the students have been unjustifiably absent or tardy a sufficient number of times to preclude meeting the course objectives. Students dropped from classes will receive a grade of “W”.

Each instructor must have on file in the respective Vice President’s office attendance policies, course objectives, and other relevant materials which comprehensively describe the course procedures applicable to each class section. Instructors are responsible for making all students enrolled in their classes aware of these procedures.

When it becomes necessary to drop a student from a class, the instructor will submit a properly completed withdrawal notice to the Vice President. Instructor withdrawals of students may be appealed by the student pursuant to the college’s Academic Appeals procedures.

**Attendance in Developmental Courses**

Students are required to participate in continuous remediation every semester until all parts of the Texas Success Initiative have been satisfied.
Developmental faculty **must** carefully monitor attendance. The instructor should attempt student contact through the retention link in MyPJC or by any other means of direct contact particularly during the first three weeks of classes, as well as throughout the semester. If the student is involved in extracurricular activities, an attempt may be made to contact him/her through activity sponsors.

**Student Classification**

- **Freshman:** A student who has successfully completed fewer than 30 semester credit hours.
- **Sophomore:** A student who has successfully completed 30 or more semester credit hours, but has not earned a degree.
- **Full-time:** A student enrolled for 12 credit hours or more in a regular (16-week) semester or 6 credit hours or more in a five-week summer session.
- **Part-time:** A student enrolled for 11 credit hours or less in a regular (16-week) semester or five credit hours or less in a five-week summer session.

**Student Loads**

The regular load for a student in the fall or spring term is five courses or 15 hours exclusive of physical activity, orientation, and applied music. No student will be classified as a regular full-time student who is enrolled in less than 12 semester hours during 16 weeks of work.

Students may not take more than 16 semester hours during a fall or spring semester unless approved by the appropriate vice president.

Students enrolled in summer terms, or special mini terms, are limited as to the number of hours to be taken. Summer term students may enroll in two courses, plus a physical activity, per term. Mini term students are limited to one course per term.

**Student Rights and Responsibilities**

**Student Disipline Hearings (FMA)/Academic Appeals (FLD)**

Paris Junior College has a formal process for investigations and appeals for incidences of student misconduct as well as student complaints related to academic decisions. The full FMA and FLD procedures for students, including appeals, are available in the PJC Student Handbook, which is updated annually.
Assessment

State law requires that each undergraduate student, unless otherwise exempt, who enters a public institution of higher education must be tested for reading, writing, and mathematics skills prior to enrolling in any collegiate-level coursework. The test that has been approved for testing purposes is the TSIA2. Students who have not taken a test prescribed by the state will only be allowed to enroll in developmental courses or technical courses leading to a one-year certificate program.

Students who fail any portion of an approved test will be required to remediate in the appropriate area(s) in order to be enrolled in college. PJC bars students from enrollment in certain courses until appropriate remediation is completed.

Students who do not attend and participate in TSI mandated courses will be withdrawn from that class.

Students who are not enrolled in the required developmental courses on the official report date will be dropped from all classes.

The Texas Success Initiative Assessment 2.0 must be satisfied before a degree may be awarded. Students who need remediation should expect to take longer than two years to complete a degree.

Career Planning

Students and alumni are encouraged to utilize the career planning services provided by the Advising & Counseling Center to assist them in making appropriate career choices. The goal of career services is to promote career development by providing students with the knowledge and skills needed to select a career plan and help them develop decision making skills to accomplish those career goals.

Career services provide counseling to help students explore vocational goals, occupational information and self appraisal of interests, abilities and personality. Students are encouraged to utilize the computer-based career guidance system and explore transfer and course equivalency information.

For more information about career services, students are invited to come to the Alford Center, Paris campus, or call 903.782.0426 (Paris campus), 903.454.9333 (Greenville Center) or 903.885.1232 (Sulphur Springs Center) to schedule an appointment.

CEEB Advanced Placement Examination

The CEEB Advanced Placement Examinations are generally offered during the month of May at designated high school test centers. Information on this program may be obtained from high school counselors. Paris Junior College does not award college credit based on ACT or SAT scores.
College-Level Examination Program (CLEP)

Most public-supported colleges and universities have agreed to accept as transfer credits all CLEP credit granted by regionally accredited institutions using the criteria below. Students planning to use CLEP credit to meet degree requirements at other institutions should check the requirements of the receiving institution. The college uses the following criteria for CLEP Subject Examination evaluation:

» CLEP credit shall be recorded on transcripts with a “CR” in order to be clearly recognized as credit earned by examination.
» CLEP credits shall not be granted if they duplicate credits for courses already completed.
» Credit is awarded for CLEP Subject Examination scores at or above the 70th percentile. Official score reports should be sent to the Registrar.

CLEP® (College-Level Examination Program®)

The College-Level Examination Program® (CLEP®) provides students with the opportunity to receive college credit through a program of exams in undergraduate college courses. If a student receives a satisfactory score, he/she may earn from 3 to 12 semester credit hours toward a college degree. A student may not earn CLEP credit for any course in which he/she is currently enrolled, and any course in which the student has already earned a grade. Students must have earned a minimum of three (3) semester credit hours at Paris Junior College (PJC), and be TSI complete before CLEP credit will be posted to the student’s transcript.

Most CLEP tests are designated to correspond to one-semester courses (i.e. ENGL 1301 or HIST 1301), although some correspond to full-year or two-semester courses (i.e. SPAN 1311 & 1312). The American Council on Education recommends a credit-granting score of 50 for all exams. All exams are scored on a scale of 20 to 80. The CLEP test is administered on a computer and available year-round. Study materials are available at http://clep.collegeboard.org to prepare for the exam. The tests are timed and most exams are 90 minutes in length. To register, contact the PJC Testing Center at 903.782.0446 to schedule your testing appointment. The Testing Center is located in the Alford Center room 107.

» Test Fees:
  › $90 CLEP fee must be paid when registering online before scheduling your test (Register for exam at http://clep.collegeboard.org)
  › $30 administration fee per test payable to PJC on test day (Bring credit or debit card, check with driver’s license or exact cash)
  › All test fees are non-refundable.

» Instructions to register online for CLEP exams are located at http://clep.collegeboard.org:
  › Must create an account. Keep a record of your username and password.
  › Register to take CLEP exam.
  › Select your testing center and score recipient.
  › Pay $90 CLEP fee with credit or debit card.
  › Print your “registration ticket” and bring to PJC Testing Center.
» As of July 1, 2014, you must bring one form of valid identification (ID) to the PJC Testing Center.

> ID must be a valid, unexpired, government-issued photo ID.

- Current passport with name, photograph, and signature
- Valid driver’s license with name, photograph, and signature
- State or Providence ID issued by the motor vehicle agency with name, photograph, and signature
- Military ID
- National ID with name, photograph, and signature
- A tribal ID card
- A naturalization card or certificate of citizenship
- College Board ID Form, if student is a minor and unable to provide a primary government-issued ID

**NOTE:** If you have questions about the ID policy, contact CLEP Services at (800) 257-9558, (609) 771-7865, or clep@info.collegeboard.org.

**Unacceptable ID Documents** include credit or debit cards of any kind, social security card or Employee ID.

Normally, you will receive your unofficial score report instantly (with the exception of the College Composition, which will take three to four weeks to deliver). CLEP sends official score reports to your chosen institution in about one week. Examinees may be awarded credit in the following courses:

Credit for an International Baccalaureate (IB) Examination

The International Baccalaureate Diploma Program is an accelerated high school curriculum of courses and examinations taught by selected, certified teachers and patterned after the European and other international secondary programs. Students may earn advanced placement credit for scores made on the Standard Level and Higher Level examinations. In keeping with Senate Bill 111 passed in 2005, Paris Junior College (PJC) will grant credit (CR) for IB examinations with specified required scores.

Students must send an IB examination transcript to the PJC Office of Admissions & Records to receive credit. All IB students must show proof of meeting the Texas Success Initiative Assessment 2.0 (TSIA2) requirements prior to their initial enrollment at Paris Junior College. Credit earned by IB examination will not be transcribed until the student has accumulated twelve semester hours at PJC.

Paris Junior College and the Southern Association of Colleges and Schools/Commission on Colleges (SACS) policies require students to take 25% of credit hours through PJC instruction for graduation purposes.

Academic Advising

All new students and students who have not met Texas Success Initiative (TSI) requirements must meet with a Student Success Coach prior to registration. Students are assigned to a Student Success Coach during their first semester of college. Students should meet with their Student Success Coach prior to enrollment and at appropriate intervals to assess academic progress.

Student Success Coaches assist students in selecting fields of study by helping them identify their educational life goals so they will be able to make informed decisions. Students are assisted with the proper selection of courses for their targeted degree plan and with the inter-
pretation of their Texas Success Initiative (TSI) status. Student Success Coaches also provide students with appropriate academic plans and provide important information about academic standards, college policies and procedures, and transfer concerns.

Programs have been developed to assist all students, including special populations and non-traditional students. Assistance is provided to students in coping with academic concerns and in resolving personal situations that may impeded their academic success. Students may find advising services helpful as they make plans and decisions in various phases of their academic career. Services provided by the Advising and Counseling Center include career planning, academic advising, disability services, transfer services, and international student services. Students may contact a Student Success Coach at the Alford Center, Paris campus, or call 903-782-0426 (Paris); 903-454-9333 (Greenville Center); or 903-885-1232 (Sulphur Springs Center) to schedule an appointment.

Counseling

Licensed Professional Counselors assist currently enrolled students with short-term, personal counseling services. Services include resolving personal problems, managing stress, depression and other mental health-related issues that may impede academic success. Licensed Professional Counselors are based at the Paris location, however, appointments may be scheduled at off-site locations and they are available via phone, email and Zoom on a daily basis. To supplement services provided by the Licensed Professional Counselors, students are made aware of third-party mental health services available in their geographic area.

Tutoring

The tutoring program focuses on one-on-one and small group relationships to promote student success and retention at PJC. It is a free service offered to all currently registered PJC students and includes tutoring assistance for many PJC courses to help students improve their grades.

PJC contracts with Tutor.com for online tutoring services available 24 hours / seven days per week. Tutors develop one-on-one relationships with students by assisting them to overcome obstacles that may interfere and hinder their success in the classroom. Students are highly encouraged to take advantage of the opportunities made available to them free of charge by the tutoring program; email tutor@parisjc.edu. A Math Lab and Writing Center are also available on the Paris campus.

Students may contact request tutoring services by calling 903.782.0415 (Paris campus), 903.454.9333 (Greenville Center) or 903.885.1232 (Sulphur Springs Center).

Disability Support Services

Services for students with disabilities are coordinated by the Advising & Counseling Center. The institution is committed to assisting qualified students as completely as possible. Services include the arrangement for accommodations and services to allow equal access to education opportunities for students with disabilities.

The college will make reasonable accommodations for qualified students with documented disabilities who have been admitted to the college and have requested accommodations. Students
may request services by providing appropriate documentation of a disability and completing a Request for Accommodations form.

To provide appropriate planning and scheduling, students should submit requests for most accommodations at least two weeks before accommodations are needed. However, for scheduling of interpreters, available modified equipment, enlarged textbooks, scribes, or electronic books, students must make the request six weeks in advance of the need.

Students with disabilities are encouraged to contact a Student Success Coach from the Advising & Counseling Center by calling 903.782.0426 (Paris campus), 903.454.9333 (Greenville Center), or 903.885.1232 (Sulphur Springs Center) to arrange an appointment to begin the process.

For ADA/Section 504 concerns, contact:

**Student Success Coach / ADA (Section 504) Coordinator**
Ansley Hoskins
2400 Clarksville Street
Paris, TX
Telephone: 903-782-0281
Email: ahoskins@parisjc.edu

**Testing Services**

The Testing Center on the Paris campus offers several testing services to meet the needs of students. The following tests are administered according to a published schedule: HESI-A2, HESI-Mobility, CLEP, TSIA2, THEA, WorkKeys, ACT, SAT, and Texas High School Equivalency Certification (GED). Students should contact the Paris campus Testing Center at 903.782.0446 to schedule a TSIA2, CLEP, WorkKeys, HESI-A2, or HESI-Mobility test. The TSIA2 is also administered at the Greenville (903.454.9333) and Sulphur Springs (903.885.1232) centers at regularly scheduled times during each semester. Please call ahead to schedule an appointment. Students may also contact the Testing Centers to schedule instructor approved and arranged make-up tests, Internet tests, correspondence tests and special accommodation tests. For information regarding test fees please call the Paris Testing Center at 903.782.0446.

The fee for retesting on the TSIA2 is $15, whether a student needs to retest in one, two, or all three areas. Also, the initial cost of taking the TSIA2 test is $25.

**Transfer Services**

The Advising & Counseling Center offers students assistance in the transition to a four-year institution. Students are encouraged to take advantage of the resources available to assist them in making informed decisions regarding selecting majors, choosing a transfer institution, and in successfully completing the transfer process. Students are highly encouraged to start making plans for transfer early on in their academic career.

Students may also utilize the computerized guidance system to help them in identifying career and occupational interests. PJC provides several opportunities for students to obtain informa-
tion about other institutions including College Day, transfer workshops, and career seminars.

PJC has also partnered with several local four-year institutions to establish articulation agreements to allow the smooth transition of transfer credits between institutions.

To obtain assistance with transfer concerns, students may seek assistance from a Student Success Coach at the Advising & Counseling Center, Alford Center, on the Paris campus, or call 903.782.0426 (Paris campus), 903.454.9333 (Greenville Center), or 903.885.1232 (Sulphur Springs Center) to schedule an appointment.

**Student Housing**

Paris Junior College offers residence hall rooms for both men and women. A student must be 17 years of age, enrolled in at least 15 semester credit hours, and remain enrolled in at least nine semester hours, in order to live in residence halls. Residence hall costs include meals in the college cafeteria.

Thompson Hall houses 70 female students. Two people share each room. A lounge and recreational area, located on the first floor of Thompson Hall, provides residents with facilities for informal meetings, television viewing, and group study.

Hatcher Hall houses 70 male students. Two people share each room. Students can enjoy the lounge and recreational areas which are located on the first floor of Hatcher Hall and which provide facilities for informal meetings, television viewing, and group study.

The new South Campus Residence Hall houses 60 women and 64 men. Two rooms share a suite bathroom. A large commons area provides a lounge area. Study areas are available on each floor.

Paris Junior College has developed its policies concerning student housing in order to provide the best campus living situation for all resident students, to optimize the benefits of the college experience, and to provide for campus security and maintenance. Students should make themselves aware of and be prepared to abide by these policies. Falsification of housing records will result in disciplinary action. Students should familiarize themselves with the “Resident Policies and Procedures Handbook.”

An application for student housing is available on the PJC website at www.parisjc.edu under the Student Services tab - Housing for Students. Submit the online Application for Housing along with $135 to cover deposit and background check fee by the priority deadline. If you do not have the ability to pay online, please submit a completed Application for Housing (PDF form) with a $135 deposit to the PJC Business Office, 2400 Clarksville Street, Paris, Texas 75460.

Any further questions regarding housing should be directed to the Director of Student Life.

**Distance Education**

Paris Junior College offers a variety of classes through several distance learning options. Dis-
Distance learning classes are open to all students. They may include online courses (internet), hybrid, or Interactive Video Distance Learning (IVDL). Students may also be able to take a course through DigiTex (Digital Higher Education Consortium of Texas).

**Online (Internet) Courses**

An online (or Internet-based) course allows a student to take classes from any computer that has Internet access (home, work, school, library, etc.). Students access course information through links to Blackboard, Paris Junior College’s online learning management system (LMS).

Students are responsible for a reliable internet connection with sufficient bandwidth to access the course and content. Some smartphones, tablets, and iPads may not be able to access all course materials or meet all course requirements. Students are responsible for a personal computing device (desktop or laptop) to complete online courses. When taking an online class, students should be proficient in basic computer operations, including but not limited to; accessing the internet, sending emails with attachments, uploading files, and composing word documents in a word processing program.

Many online classes require some proctored examinations either through the Paris Junior College Testing Center or by making arrangements with the Testing Center for a proctor at a local testing center or by applying for a remote online proctor.

**Hybrid Courses**

A hybrid course has both online (Internet) and in-class (face-to-face) components. These courses have reduced time for meeting face-to-face, and the remainder of the classwork is completed online. This type of class allows students the flexibility of coming to campus less often than they usually would. Just as with online courses, students are responsible for a reliable internet connection with sufficient bandwidth to access the curriculum and content and a personal computer. Basic computer proficiency is also required.

**Interactive Video Courses**

Interactive video is essentially a face-to-face internet classroom setting. Interactive video connects two or more classrooms with audio and video equipment that enables participants to see and speak with each other, almost as if they were in the same room. Students can see and interact with the instructor as broadcast over the internet. Interactive video is offered in limited courses and used to connect locations at the Paris, PJC-Sulphur Springs Center, PJC-Greenville Center, or area high schools. Students may participate in the course from home or a remote location.

**Online Course Sharing Through DigiTex**

Distance education courses in the Paris Junior College catalog or schedule of classes may be available to students through a statewide consortium through DigiTex (Digital Higher Education Consortium of Texas). DigiTex, formerly known as the Virtual College of Texas (VCT), is a statewide consortium that provides course sharing between community colleges in Texas.
Courses may originate from any of the more than 50 public college systems in the state but have the same tuition, admissions procedures, and requirements, and appear the same on transcripts as any other Paris Junior College courses. For DigiTex classes, students will have access to advisement, library, labs, and other support services as well as activities provided through enrollment at Paris Junior College.

Additional information on courses offered through DigiTex may be obtained by contacting the Vice President of Academic Instruction at 903.782.0338 or emailing DigiTex@parisjc.edu.

**Learning Center**

The Mike Rheudasil Learning Center provides an open environment of access to information resources, guidance in finding the needed resources, and assistance to the students, faculty, staff, and community patrons in realizing their information-seeking goals. The Learning Center is a multi-purpose facility that houses the J.H. Newton Library Collection, the A.M. and Welma Aikin Regional Archives, a classroom for interactive distance learning, a computer lab, and the Educational Opportunity Center.

The J.H. Newton Library collection provides educational resources for the college's technical, vocational, and university parallel programs. These resources support students in attaining an associate degree or certificate. In order to help students successfully achieve their learning goals, the library is responsive to the faculty and administration in collecting and evaluating those resources that promote student success. Select areas of collecting are jewelry, gemology, horology, and nursing. Resources are provided in both print and electronic format and are available to students on the main campus and the two campus centers. There are a wide variety of electronic databases provided through TexShare, as well as limited streaming services by individual departmental request.

The Paris Junior College library provides user privileges and access to students and faculty through e-mail, Web chat, and phone reference services. The library’s embedded librarian program is also a significant component in providing the college community with learning resources. The college offers Wi-Fi access to students while on campus, which allows them to access the library’s electronic resources. Print resources can be identified through the library’s public access card catalog located on the library’s homepage. Students and faculty access library resources from off-campus by signing in through the library’s proxy server. A Paris Junior College identification number must authenticate students and staff.

**A.M. and Welma Aikin Regional Archives**

The A.M. and Welma Aikin Regional Archives houses papers and memorabilia of the longtime Dean of the Texas Senate, including a museum and replica of his Austin office, as well as regional and local history collections of other prominent Northeast Texas families, a large historic photograph collection, and the historic institutional records of Paris Junior College. The facility is a State Depository for official local government records of Red River, Delta, Fannin and Lamar Counties and is operated jointly by PJC and the Texas Library and Historical Commission. In addition to PJC archives, the facility collects family papers, civic and business records, photographs, and other materials of primary interest to citizens of Northeast Texas.
Fine Arts

**THE FOYER GALLERY:** The Foyer Gallery serves as a center for aesthetic exploration through creative processes of fine arts faculty and students, professional artists, and arts organizations. By presenting quality, interdisciplinary art exhibitions and events, the Foyer Gallery enhances an understanding of the arts within the college and the community and enriches individual lives. For further information on the Gallery or its current exhibitions, please contact Fine Arts at 903.782.0438 or visit the PJC web site at www.parisjc.edu and click on Fine Arts.

**THE SHAW RECITAL HALL:** This general purpose musical recital hall, located in the Henry P. Mayer Music Building, accommodates performances hosted on the Paris campus. Student recitals, as well as major traveling performance opportunities, are typical items of interest associated with the facility. Seating approximately 125, the facility lends itself to small, intimate audiences sharing an appreciation of the variety of scheduled performances. The recital hall is used as a teaching resource as well as a performance venue, and Paris Junior College music instructors have the opportunity to showcase individual or group talent with the live performance setting.

**THE RAY E. KARRER THEATER:** This multi-purpose facility for the performing arts is located in the Louis B. Williams Administration Building on the Paris campus. A capacity of 350 seats provides an intimate setting and a good visual experience for all attendees. Originally built as part of the “Old Main Building,” the theater has been renovated to provide a comfortable, climate controlled, and technologically up-to-date teaching and performance facility enhancing the drama and speech classes taught at PJC. The state-of-the-art lighting and sound systems contribute to the technical skills acquired by students in the drama program. Major dramatic and musical productions are staged each year, as well as seasonal children’s theater productions catering to a specialized audience.

Adult Education and Literacy

The Paris Junior College Adult Education and Family Literacy program offers free educational opportunities to adults 16 years and older. Adult Basic Education, Adult Literacy, Adult Secondary (Texas High School Equivalency Certification), College and Career Readiness, and English as a Second Language classes are held each semester in Paris, Greenville and Sulphur Springs. Classes are also available at several off-site locations. All participants must complete a free New Student Orientation and pre-test before being placed in a class. Call the Adult Education Office at 903.782.0467 for additional information.

Workforce & Continuing Education

The Department of Workforce and Continuing Education at Paris Junior College offers a large selection of non-credit courses and learning opportunities. The courses are designed to meet specific learning needs, and their format and duration vary accordingly. Courses may be offered on or off campus.

PJC also works with area businesses, industries, individuals, and groups to plan continu-
ing education courses, workshops, institutes, and forums through the college’s Workforce Development Division.

Although not providing academic credit, selected courses qualify for Continuing Education Units (CEUs). The CEU is a uniform, nationally accepted unit that provides permanent documentation of an individual’s completion of a given course. Ten hours of participation in these courses constitute one CEU, with decimal units for each additional hour.

**WorkKeys® Assessments**

WorkKeys® assessments measure “real world” skills employers believe are critical to job success. These skills are valuable for any occupation – skilled or professional – and at any level of education. WorkKeys® scores determine what level of certificate is earned. The service is available through the Paris Junior College Testing Center.

**National Career Readiness Certificate**

The National Career Readiness Certificate (NCRC) program is composed of three WorkKeys® assessments: 1) Applied Mathematics, 2) Graphic Literacy, and 3) Workplace Documents. The NCRC is an evidence-based credential that measures essential workplace skills and is a reliable predictor of workplace success.

The cost is $50 for the initial WorkKeys® Assessment test which includes all three sections, and $15 per section to retest.

**Customized Training Needs**

Paris Junior College offers a wide range of customized training solutions for companies in the service delivery area. The Workforce and Continuing Education Department strives to provide training which is specific to company needs both in content and scheduling. The department provides training at all three PJC locations as well as on-site at company facilities. In an effort to ensure the appropriate content is delivered, the department’s trainers will meet with the business partners to develop a training plan upon which to build the training curriculum.

**Personal Enrichment Classes**

The Workforce and Continuing Education Department offers many courses in the area of personal enrichment. These courses are often centered on personal interest. These courses allow students to continue life-long learning in a relaxed environment with expert instructors. The class topics range from cake decorating to ballroom dancing to writing and publishing poetry, with many in between.

**Community Service Classes**

It is in the Workforce and Continuing Education department’s mission to be an integral part of the comprehensive offerings of PJC. This philosophy allows the department to offer classes to assist the community and its individual members. These classes vary in scheduling and often times are in response to community requests. Some of these offerings include: child care pre-service, driver’s education and Kids Hurt Too.
Seminar Coordination

Each year the Workforce and Continuing Education department coordinates several day long seminars on various topics. These seminars allow interested individuals to participate in a training session led by outside industry experts while networking with others who are in similar industries or have similar training needs. Recent seminars have included topics for human resources specialists and child care workers.

Allied Health

Workforce and Continuing Education offers several allied health related courses. These courses primarily train individuals in specialized areas of the allied health industry. The current course offerings include:

» Certified Nurse Aide
» Phlebotomy
» Medication Aide Initial
» Med Aide Update
» EKG Technician
» Dental Assisting
» Pharmacy Technician
» CPR
» Advanced Cardio Life Support (ACLS)

Continuing Education Units

Paris Junior College awards Continuing Education Units (CEUs) in recognition of satisfactory completion of Continuing Education and Workforce Development courses. The College meets the requirements of the Southern Association of Colleges and Schools, as well as the Texas Higher Education Coordinating Board, in awarding CEUs.

One CEU is defined as 10 hours of participation in an organized continuing education experience under responsible sponsorship, capable direction and qualified instruction. A certificate indicating satisfactory completion and the number of CEUs awarded is issued at the end of the course. Permanent records are maintained by the Office of Admissions & Records.

DragonMail: PJC’s Official Academic Communication With Students

All PJC students have a dedicated email address assigned them that is the primary method of contact between students and PJC. Upon admission to the college, each student will receive their DragonMail email address. This is the official method of communication between the college and the student.

Dragon Emergency Alert System

In the event of an emergency or severe weather, Paris Junior College will send out an emergency alert by text message or email. This is a free service provided by PJC, though normal message fees may apply. A student’s cell phone must have text messaging capabilities to receive a text alert. Notifications are dependent upon external providers and PJC cannot guarantee notifications will be received by the intended recipient. To add your email address or a different cell phone number, go to www.parisjc.edu, select the “Current Students” link, look under “Life on Campus” and select the “Dragon Emergency Alert System Signup” link.
**Special Populations - Connect Program**

The Connect Program, designed for special populations, provides textbook loans, childcare funding assistance, toolkit vouchers, and certification exam vouchers to qualified students. To be considered for this program, a student must have a declared workforce education major. Special population categories include the following:

- Students with disabilities
- Students training for a non-traditional major for their gender
- Students with limited English proficiency
- Students who are:
  - economically disadvantaged;
  - single parents;
  - homeless;
  - aged out of foster care; or
  - out of workforce

To obtain an application for the Connect Program, students may go to the Advising Office in the Alford Center on the Paris campus or call 903.782.0426. Greenville students may go to the Main Office or call 903.454.9333, and Sulphur Springs students may go to the Main Office or call 903.885.1232.

**Referrals**

The Connect Program can help students get in contact with other community social services and educational departments if additional assistance is needed. For more information about the services call 903.782.0426.

**TRIO Programs**

The TRIO Programs at Paris Junior College are comprised of the Educational Opportunity Center, Educational Talent Search, and Upward Bound. The TRIO programs are funded through grants by the U.S. Department of Education. The Educational Opportunity Center is located in the Mike Rheudasil Learning Center on the Paris campus as well as in the main offices at the PJC - Greenville Center and PJC - Sulphur Springs Center, and Educational Talent Search and Upward Bound are located on the southeast side of the campus on Collegiate Street.

**Educational Opportunity Center**

The Educational Opportunity Center is designed to respond to the increasing educational needs of adults. EOC serves as a support system for qualified individuals by providing comprehensive, individualized information about education and career opportunities. Program participants are provided free assistance with completing admissions and finan-
cial aid applications to enroll in postsecondary education, educational and career counseling, financial literacy, workshops and fee payment(s) assistance.

Advisors also assist with enrollment in TxCHSE and other basic adult education programs.

Educational Talent Search

Educational Talent Search is an educational outreach program designed to provide junior high and high school students as well as students pursuing their TxCHSE with the information and assistance necessary to have a realistic opportunity to select, enter, and complete a degree at a college of their choice.

ETS provides tutoring, cultural enrichment, college tours, assistance with admissions applications as well as scholarship and financial aid assistance.

Upward Bound

Upward Bound is a college-based program of rigorous academic instruction, individual tutoring and counseling for low-income, disadvantaged high school students, most of whom are the first generation of their families to consider postsecondary education.

During the summer, Upward Bound students live on the PJC campus for six weeks and are involved in an intensive academic study program with an emphasis on English, mathematics, science, and foreign languages.

During the academic year, Upward Bound students receive academic instruction, tutoring, and counseling after school and on Saturdays. UB advisors follow students’ progress in high school and the students learn about the college application process and how to apply for financial aid assistance.

Student Activities

Various clubs and societies have been organized to meet the extra-curricular needs of Paris Junior College students. These organizations give students the opportunity to become involved in planning activities, developing leadership qualities, developing individual interests, and receiving recognition for accomplishments.

Student activity organizations are open to all students. However, certain curriculum-oriented clubs may limit their membership to students enrolled in that curriculum, and other clubs may require a member to maintain a certain scholastic average.

Students are encouraged to initiate and develop organizations consistent with the purposes and philosophy of Paris Junior College. The procedures for organizing a new club may be obtained from the Student Life Office in the J.R. McLemore Student Center.
Competitive Scholarships

Athletics

Paris Junior College sponsors basketball, soccer, and fast pitch softball for women, and baseball, soccer and basketball for men. The college is a member of the National Junior College Athletic Association and the Region XIV Athletic Conference. College athletic scholarships are available in all sports.

Cheerleading

Paris Junior College offers coed cheerleading. Scholarships are available. Tryouts are held each spring for the following year.

Fine Arts Activities

All students are eligible to participate in performing arts activities at Paris Junior College. These activities consist of being in plays, working behind the scenes in plays, singing in the College Chorale and Chamber Singers, or playing in the instrumental ensemble.

To participate in music activities students must enroll in appropriate one- or two-semester hour classes. Enrollment in an appropriate drama class is invited, but not required, for participation in play productions.

The Foyer Gallery in the Visual Art Building provides guest artist and student exhibitions, and lectures of special interest during the fall and spring semesters. All students, faculty and staff, and the general public, are invited to attend the exhibits and lectures free of charge.

HELPFUL HINT: Paris Junior College scholarship applications are available online at www.parisjc.edu. Priority deadline is April 15 of each year.

Student Organizations

African-American Student Union

This organization is open to all students who wish to promote awareness and mutual respect for the contributions and concerns of persons of African-American heritage.

The club participates in campus activities, attends cultural functions, and develops special ethnic-related programs.

The Blend Club

This organization is open to all students interested in awareness of world cultures by appreciating
different people, traditions and world issues for a better understanding of and connection to the world around us. The club participates in campus activities, sponsors an international film festival and develops programs that lead to cultural awareness and student success.

**Delta Psi Omega**

Students interested in drama activities are encouraged to join Delta Psi Omega, the National Theatre Honor Society for two-year colleges. The club engages in a variety of educational and social activities each semester, including hosting UIL One-Act-Play contests. Students should check with the Fine Arts faculty for further information.

**Eco Club**

This organization is open to all students interested in promoting ecological and environmental awareness, and at the same time who wish to learn how to grow healthy vegetables in a backyard-type environment. The student volunteer group seeks to learn about sustainable living in a modern world. Other topics and learning activities will involve preserving food, preventing and controlling plant insects and diseases, water conservation, recycling, composting, and generally preserving the ecosystem.

**H.A.R.T.S Club**

Open to all who are interested in the Heating, Air Conditioning, and Refrigeration field. The purpose of this club is to develop industry awareness and student success.

**Informal Sports**

The informal sports program involves a process of self-directed participation. It is an individualized approach to sport that allows students to participate for fun and fitness. A current PJC ID card is required for admission to the Old Gymnasium and Weight and Fitness Center, during informal sport hours, Sunday through Thursday, 5 p.m. to 8 p.m.

**Intramurals**

The intramural sports program provides structured, competitive and non-competitive sport opportunities for men, women and co-intramural participants. The program offers a variety of tournaments for students, faculty and staff. The program does not require the intensified training and high degree of skill associated with varsity athletics. An individual's playing ability is not considered as important as his/her desire to enter into the true spirit of competition and good sportsmanship.

A few of the sports organized for Paris Junior College students, faculty and staff are basketball, volleyball, flag football, tennis and softball. Information concerning these and other sports may be obtained from the Student Activities Coordinator in the Student Center.
Jewelry Technology Student Association

PJC’s Texas Institute of Jewelry Technology Student Association maintains and improves the quality of jewelers, horologists, and gemologists in the jewelry industry, keeps students actively involved with activities on the Paris campus, and keeps TIJT alumni abreast of current jewelry, horology, and gemology department activities on and off campus.

Nursing Students Association

The Nursing Students Association of Paris Junior College is affiliated with the Texas Nursing Students’ Association and the National Student Nurses’ Association. The purpose of this organization is to foster pre-professional growth as a nurse. Bi-monthly meetings are held and efforts are made to ensure that nursing students are aware of development at all levels: local, state, and national. Contact the nursing department (Paris campus) for more information.

Phi Theta Kappa

Phi Theta Kappa is the only national scholastic honor society for junior colleges recognized by the American Association of Community Colleges. It was founded in 1918, and a local chapter has been at PJC since 1932. Its purpose is the promotion of scholarship, development of leadership and service, and cultivation of fellowship among students.

To be eligible for membership, a student must have completed one long-term semester at Paris Junior College, must have accumulated 12 semester hours (exclusive of developmental courses), have a grade point average of 3.5, and be within the upper scholastic 10 percent of the regularly enrolled student body.

To maintain active membership, a student must be regularly enrolled each semester with a minimum of 3 semester credit hours, and at the end of any given semester must have a grade point ratio of 3.0, which is a “B.”

Student Art League

The Student Art League is dedicated to the promotion of visual fine art at Paris Junior College and Lamar County. The intent is for members to stimulate visibility of the arts in the community as well as the college through group projects, fundraisers, and public community art events, and support visual art exhibits in the Foyer Gallery on the college campus. Students interested in art activities are encouraged to join the organization.

Student Veterans Organization

The primary mission of the organization is to bring together military veterans, dependents, and supporters in order to provide support and foster fellowship among those attending Paris Junior College. This organization was established to create a network of military veterans and families to share information on academic success, educational benefits, and VA policies and procedures.
**Student Government Association**

A student council was formed in 1937. The organization and constitution were reorganized in 1970, and renamed the Student Government Association with the executive officers elected by the student body. Vice presidents of all student organizations automatically are members of the student governing body. The chief duties of the Student Government Association, working with the faculty and administration, are: conducting student elections, arranging the social calendar for the year, providing equitable representation within the student association of each student organization, discussion of campus affairs as they pertain to student life, and planning the course of action for implementation of these activities and programs.

This governmental agency provides policy-making decisions over all student organizations and serves to promote better relations between the administration and the students and to protect the best interests of the students. The Student Government Association holds membership in the Texas Junior College Student Government Association.

**Teacher Education Student Organization (TESO)**

TESO is an organization open to all students enrolled at PJC who are interested in education as a major and who have a minimum 2.0 GPA. The club’s purpose is promotion of the teaching profession and increasing the number of education majors at PJC. Activities include meeting local educators to discuss issues in education, promoting literacy and mathematics in local schools through community service projects, and raising awareness of transfer opportunities at four-year universities after completing their associate’s degree.
Programs Of Study

Guided Pathways
Helping Students Succeed

Paris Junior College is at the forefront of a national initiative seeking to help students finish certificates or degrees with fewer excess hours and better preparation for employment or transfer to a four-year institution of higher education.

The Guided Pathways model is based on coherent and easy-to-follow college-level programs of study that are aligned with requirements for success in employment and at the next stage of education. - American Association of Community Colleges (AACC).

In 2017, PJC was one of 30 colleges chosen nationwide by AACC to lead this initiative, which focuses on helping students clarify their goals, so that they can enter an educational pathway designed to help them achieve those goals.

Students first choose one of seven pathways that represents their interests: Arts and Humanities, Business, Industry, Health Careers, Public Services, STEM, or Social and Behavioral Sciences. Then the student chooses a program within that pathway aligning with their goals, interest, and aptitudes. Each program is represented on a Program Map, specifying which courses the student should take and in what order, the marketable skills and outcomes and career opportunities associated with that program, and information regarding transfer to a four-year institution, where appropriate.

PJC’s Program Maps are designed to help students stay on track with regard to their coursework and to master knowledge and skills that will equip them to enter the labor market successfully or to pursue further education with seamless transfer of credits.

Academic Studies

Academic Studies includes communications, fine arts, social sciences, natural sciences and mathematics, kinesiology (physical education), as well as learning skills and teacher education along with library support services for all areas of the College.

Objectives of Academic Studies include: fostering an appreciation of the creative process; the ability to think critically and to communicate effectively; a desire for lifelong learning; and a strong identification with truth and reason.

Courses offered in Academic Studies are designed primarily for transfer. Many courses such as art, music, language, humanities, theatre, and a variety of studio classes serve a dual purpose. They are available for students planning to transfer to a university, and are also available to community members wishing to broaden their educational experience and enrich their lives. Students selecting majors within Academic Studies should consult with a Student Success Coach. During the visit with their Student Success Coach, students will develop a
degree plan for their major that sets forth the classes required in the core curriculum as well as suggested specialization courses in their major field of interest. By visiting with their Student Success Coach on a regular basis, students may make sure they are taking courses that apply not only toward a Paris Junior College awarded Associate of Arts (AA) or Associate of Science (AS) degree, but also transfer and apply to their intended baccalaureate degree.

Because most students taking Academic Studies courses plan to transfer to a university, a goal of the College is to assure the transferability of its courses; however, because of the diversity of the population served by the College, students planning to transfer courses to a university or four-year college should take the responsibility of discussing their plans with a counselor from their university-of-choice as well as a Student Success Coach on campus.

Academic Studies also provides general education courses for students pursuing technical or workforce training and degrees.

Students planning to continue their education toward a baccalaureate or advanced degree may complete core curriculum courses providing a sound background in the arts and sciences. The 42 hours of core curriculum courses are guaranteed to transfer and replace the first two year core requirements at all state-supported colleges and universities in Texas.

**Associate’s Degree Core Curriculum (42 credit hours)**

Paris Junior College adheres to various policies that are designed to make transfer easy, such as a state-honored block core curriculum, a statewide Guarantee for Transfer program, and participation in the Texas Common Course Numbering System.

The Texas Education Code, as a result of Senate Bill 148, requires all public colleges and universities to have a core curriculum. Core curriculum is defined as “the curriculum in the liberal arts, humanities, sciences, and political, social, and cultural history that all undergraduate students of a particular Texas institution of higher education are required to complete before receiving an associate or bachelor’s degree.”

Every public institution in Texas has a Core, which is designed to provide a solid foundation for your college education and to make transfers between and among Texas institutions of higher education as smooth and seamless as possible.

The purpose of the Texas Core Curriculum states: “Through the Texas Core Curriculum, students will gain a foundation of human cultures and the physical and natural world, develop principles of personal and social responsibility for living in a diverse world, and advance intellectual and practical skills that are essential for all learning.”

Core objectives include the following:

- Critical Thinking Skills
- Communication Skills
- Empirical and Quantitative Skills
- Teamwork
The core curriculum is predicated on a series of basic intellectual competencies – reading, writing, speaking, listening, critical thinking, and computer literacy – that are essential to the learning process in any discipline. Foundation competencies include teamwork, communications, quantitative reasoning, critical thinking, and social and personal responsibility. Although students can be expected to come to college with some experience in exercising these competencies, they often need further instruction and practice to meet college standards and, later, to succeed in both their major field of academic study and their chosen career or profession.

PJC will designate core curriculum courses completed by a student on the official PJC transcript. If a student satisfies all component areas, the message “Core Curriculum Completed” will appear on the transcript.

Students should visit with a Student Success Coach and follow the appropriate Program Map to ensure that they take the correct courses for their Associate of Arts or Associate of Science degree program at PJC in addition to the major for their chosen transfer college or university.

Students must complete a minimum of 60 credit hours in a program of study with a cumulative (overall) grade point average of 2.0 or better in order to graduate with an associate degree in the state of Texas.

PJC’s common core curriculum courses of 42 credit hours are detailed below, along with additional graduation requirements and elective hours as follows. However, the entire core curriculum is embedded within each Program Map associated with an academic transfer degree, so students should consult their chosen Program Map to determine which courses to take.

ADDITIONAL REQUIREMENTS FOR ASSOCIATE OF SCIENCE OR ASSOCIATE OF ARTS

Minimum Semester Credit Hours required for graduation for an AA or AS is 60 credit hours. Please see your Pathways Program Map for additional requirements for graduation.

**Fields of Study**

Mandated in Senate Bill 148, the Fields of Study curricula are intended to facilitate the transferability of lower-division courses among Texas public colleges and universities. Field of Study courses
are defined by SB 148 as, “a set of courses that will satisfy the lower-division requirements for a bachelor’s degree in a specific academic major at a general academic teaching institution.” Receiving institutions may not require incoming transfer students to repeat courses with the same content as Field of Study courses. PJC offers Fields of Study curricula for Business, Communication, Computer Science, Criminal Justice, Early Childhood Education, Engineering, Music and Nursing. Refer to the appropriate Program Map for guidance in course selection.

**Guarantee For Transfer Credit**

PJC guarantees to its students who have met the requirements for its Associate of Arts/Associate of Science degree and students who have met the 60 credit-hour transfer plan transferability of those course credits to the Texas colleges and/or universities that participate in the Guarantee for Transfer Credit program.

**Common Course Numbering**

To help meet the transfer needs of its students, PJC is a member of the Texas Common Course Numbering System Consortium. All Texas community/junior colleges and many Texas universities also use this numbering system. The Texas Common Course Numbering System provides a shared, uniform set of course designations for students and their advisors to use in determining both course equivalency and degree applicability of transfer credit on a statewide basis. Students should not assume that only courses with common course numbers will transfer and should see a PJC academic advisor for assistance.

**Workforce Education Programs**

The Associate of Applied Science degree (AAS) is awarded upon completion of a prescribed program of study designed to prepare students to enter and compete in the job market. AAS curricula are designed to enable the graduate to enter an occupation with marketable skills, an acceptable level of technical competency, and the ability to communicate effectively.

The AAS degree is awarded to students who meet the specific degree requirements along with the graduation requirements listed under the Academic Policies section. The total number of hours required to graduate with an AAS degree is 60 hours. A minimum of 25 percent must be completed at PJC.

Each workforce education program uses advisory committees for program development, evaluation, long-range planning, development of employment opportunities for graduates, and other program issues. These committees provide an essential link between the education institution and the business community to ensure that graduates are adequately prepared for employment. Members of the advisory committees are selected from related industry, prospective employers, and other knowledgeable community representatives.

Within each AAS program are suggested time lines for completion of degrees and certificates.
Associate of Applied Science Degree Core Curriculum 15-16 credit hours

COMMUNICATION / HUMANITIES / FINE ARTS (2 Courses)

Communication (1 Course)

ELECTIVE (1 Course)

One additional course needs to be selected from any of the above categories or COSC 1301, Introduction to Computing.

INSTITUTIONALLY DESIGNATED OPTION (3 Credit Hours)

PSYC (Psychology) 1300 ........................................... Learning Framework
(Fulfills Social/Behavioral Science option)

NOTE: The second digit in a course number indicates the number of credit hours for that course.
Students should see individual program areas for specific degree requirements.

Each degree program must also contain math, computer, and communication competencies. These should be built into every program to the extent that they are applicable and relevant. If a program area elects math, computer science, or communication courses as general education requirements, the courses must be academic transfer courses of collegiate level and of a general nature, not geared to a specific occupation – e.g., welders, electricians, or secretaries.

Certificate Programs

PJC offers certificate programs designed to meet specific employment needs of the community. Students who enroll in certificate programs are generally interested in re-entering the job market after an absence, changing careers, or upgrading job-related skills in order to enhance employment specialization. Although certifications are normally one year in length, the specific number of credit hours varies by program area.

Graduation

To graduate from Paris Junior College with an Associate Degree, students must:

» Complete a Request for Graduation form available online. It is the responsibility of the student to know the application deadline as published in the College Calendar and Student Handbook.
» Present the completed graduation form to the Office of Admissions & Records.
» Meet the specific requirements for one of the degrees as described.
» Have a grade point average of “C” or 2.00 in all work completed, excluding developmental courses.
» Complete 25% of coursework towards the degree at Paris Junior College.
» Be enrolled during the calendar and/or academic year during which the degree is to be awarded.
» Complete all financial obligations to Paris Junior College.
» Successfully complete all sections of the Texas Success Initiative Assessment 2.0 (TSIA2) or be exempt from the TSI requirement.
» Submit course substitutions to the appropriate Vice President’s office.

Note: Academic rules and requirements are subject to change at the end of any semester and/or summer session. Individual academic divisions may prescribe additional standards of performance.

Within five years of initial enrollment a student may graduate according to the catalog requirements in effect at the time of first enrollment or any subsequent catalog provided the requisite courses are still being offered and mandates of regulating agencies are satisfied.

If a student fails within five years to complete all requirements of the catalog in effect at the time of initial enrollment, then the student will be required to graduate under the current catalog.

Graduation with Honors

To be considered for graduation with honors, a student must be seeking an associate degree
and have completed at least 30 semester credit hours in residence at Paris Junior College. All coursework attempted (including transfer courses) are considered for high/highest honors.

» Honors – overall cumulative grade point average 3.50 – 3.89
» High Honors – overall cumulative grade point average 3.90 – 3.99
» Highest Honors – overall cumulative grade point average – 4.00

**Accounting / Business Administration**

The Accounting/Business Administration program is designed to prepare students for transfer to a four-year university as a business major. The program will provide students with a background in basic academic areas such as mathematics and the sciences, as well as introductory work in the business areas of accounting, economics and business computer applications. Graduates from the program will have earned an Associate of Science degree and will be ready for junior and senior level work in such business areas as accounting, finance, management, and marketing.

**Associate of Science in Accounting / Business Administration (60 Semester Credit Hours)**

Computer Aided Design

The Department of Computer Aided Design presents a series of courses designed to familiarize students with the concepts of Drafting and Design. Using the latest in Computer Assisted Design (CAD) capabilities, these courses will prepare the student for the job market. The new 3D Printing Lab provides a level of expertise making graduates attractive to employers, as well.

**Computer Information Systems**

With the continual development and use of computers in business and industry, growing need continues for personnel proficient in business programming, networking, equipment repair, software applications, and cybersecurity, as well as computer operations. To address these skills, the Computer Science Department offers an Associate of Applied Science (AAS) Networking Degree, an Associate of Science transfer degree (AS), an Associate of Applied Science Degree in Cybersecurity, and five workforce certificate programs.

The Associate of Science (AS) degree is designed to prepare students for transfer to a four-year university as a Computer Science or Computer Information Systems major. The program will provide students with a background in basic academic areas such as mathematics and the sciences, as well as introductory work in the computer areas of logic design, programming concepts, and programming languages.

The department offers a certificate in Computer Information Systems that provides training for careers in database support, software applications, and computer operations.
Additionally, an Associate of Applied Science Networking degree is designed to prepare students to perform tasks in network technology relating to network management, technical support, hardware/software installation, security servers, and equipment repair. Network and A+ certification training is available.

The program graduate will be able to assemble computers based on customer requirements, install network wiring and interfaces at customer sites, install and debug network software, and maintain network hardware and software.

The Cybersecurity program offers both a certificate and an Associate of Applied Science in Cybersecurity. Graduates will have the ability to conduct risk and vulnerability assessments of existing and proposed networked systems, understand cyber defense and attack methods, demonstrate techniques to design a secure network, and troubleshoot an information security system.

Diagnostic Medical Sonography*

The Diagnostic Medical Sonography Program is designed to prepare individuals to perform diagnostic examinations using high frequency sound waves to visualize soft tissue structures including the liver, gallbladder, kidneys, pregnant uterus, and other organs as requested by the physician. The Diagnostic Medical Sonography Program is a two-year program leading to an Associate of Applied Science (AAS) degree.

The Paris Junior College Diagnostic Medical Sonography program will apply for accreditation from the Commission on Accreditation of Allied Health Programs (CAAHEP) 25400 U.S. Highway 19 North, Suite 158, Clearwater, FL 33763; phone: 727.210.2350, www.caahep.org) in cooperation with the Joint Review Committee on Education in Diagnostic Medical Sonography (JRC-DMS) within the first year of the program. Graduates of the program will be eligible to sit for designated registry exams through the American Registry for Diagnostic Medical Sonography (ARDMS) to obtain their Registered Diagnostic Medical Sonographer credential (RDMS) in Abdominal (AB) Extended, after completing one full year as a sonographer. Once the program is accredited by CAAHEP, graduates will be eligible to sit for certification upon graduation.
Admissions Procedures for Diagnostic Medical Sonography Program

Students will be accepted into the Diagnostic Medical Sonography program requires the following steps:

» Application and current admission to Paris Junior College
» Submission of complete application materials to the Health Occupations Office during the designated filing period.
» Completion of the 18 credit hours of Diagnostic Medical Sonography Prerequisite Courses with a minimum cumulative grade point average of 3.00.

For more information about the application process, contact the Health Occupations staff at 903.782.0734.

Teaching at the high school level requires a bachelor’s degree in a specific academic discipline. For example, history teachers need a bachelor’s degree in history, science teachers need a degree in a science discipline, etc.

* Students should identify the four-year institution they wish to transfer to and then work closely with their academic advisor to select science and other discipline-specific courses to fulfill all graduation requirements.

Electrician

Paris Junior College offers a Certificate in Electrician. The program provides a solid foundation in basic electrical principles, motors and controls, schematics, and troubleshooting of complex electrical systems. The program also covers commercial and industrial facilities maintenance such as lighting, security systems, fire alarms, elevators, and computerized irrigation systems.

**CERTIFICATE IN ELECTRICIAN (30 Semester Credit Hours)**

**First Semester (15 SCH)**
- CNBT 2310 ................. Commercial/Industrial Blueprint Reading
- ELPT 1411 .................... Basic Electrical Theory
- ELPT 1221 .................... Introduction to Electrical Safety and Tools
- ELPT 1225 .................... National Electrical Code I
- ELPT 1429 .................... Residential Wiring

**Second Semester (15 SCH)**
- ELPT 1357 .................... Industrial Wiring
- ELPT 2225 .................... National Electrical Code II
- ELPT 1341 .................... Motor Control
- ELPT 1445 .................... Commercial Wiring
- ELPT 2323 .................... Transformers
Emergency Medical Services

PJC’s Emergency Medical Services Program offers an Associate’s Degree of Applied Sciences in Emergency Medical Services, a Certificate in Emergency Medical Technician - Basic, a Certificate in Emergency Medical Technician - Advanced, and a Certificate in Emergency Medical Technician - Paramedic. Careers in this field may be found with fire departments, public and private emergency medical services, hospitals, industrial safety, and flight services. Graduates are eligible to apply for the National Registry of EMT certification examination. Students seeking admission should contact the EMS faculty, Health Occupations Department or Advising & Counseling Department at PJC.

The Emergency Medical Technician-Paramedic program is accredited by the Commission on Accreditation of Allied Health Education Programs (727.210.2350 or https://www.caahep.org), upon the recommendation of the Committee on Accreditation of Educational Programs for the Emergency Medical Services Professions (https://www.coaemsp.org). The Commission may be reached at: Commission on Accreditation of Allied Health Education Programs, 9355 - 113th St. N, #7709, Seminole, FL 33775, 727.210.2350 or https://www.caahep.org.

Program goal: To prepare competent entry-level Paramedics in the cognitive (knowledge), psychomotor (skills), and affective (behavior) learning domains with or without exit points at the Advanced Emergency Medical Technician and/or Emergency Medical Technician, and/or Emergency Medical Responder Levels.

Enhanced Nurse Aide

Economics are driving changes in the health care industry and PJC is responding with the Enhanced Nurse Aide program to provide graduates with more diverse skills. The program is designed to provide trained healthcare professionals to assist licensed nurses in caring for patients.

The graduate will have obtained skills to work in facilities for long term care, assisted living, acute care, physician offices, home care and other types of health care agencies. A graduate of the Enhanced Nurse Aide program may go to work as a nurse aide, phlebotomist, or medication aide.

There are three levels of certificates available: a 16 credit hour ENA Certificate I that is one semester, a 25 credit hour ENA Certificate II that is two semesters long, and a two-semester ENA Certificate III that is 30 credit hours. At the end of the first semester, the student may obtain a Certified Nurse Aide (CNA) credential by exam through the Texas Department of Health and Human Services. Upon completion of the second semester, students have the potential to add two additional certifications; phlebotomy through the American Society for Clinical Pathology (ASCP) or the National Health Career Association (NHA) and Certified Medication Aide (CMA) through the Texas Department of Health and Human Services.

Gemology

The Texas Institute of Jewelry Technology at Paris Junior College offers a one-semester certificate in Gemology, requiring 12 credit hours of Gemology and 6 credit hours of business courses. The curriculum includes the development of skills in the identification of gemstones, detection of imitation and synthetic materials, and the proper use and care of laboratory instruments. Students study the formation, recovery, merchandising, advertising, display, promotion, buying and selling of precious stones. The course is designed to prepare the graduate for employment as a gemologist, with an emphasis on retail jewelry operations.

Prospective students are encouraged to tour the PJC campus and the TIJT division and/or request complete information and cost packet. You may schedule a tour or request an information packet by calling 903.782.0318. To receive a certificate in this program, a grade of “C” or better must be maintained in all courses.

Horology

The Texas Institute of Jewelry Technology at Paris Junior College is known for excellence in watchmaker training. The need for qualified watchmakers has never been greater. In the last few decades, sales of fine mechanical timepieces and precious metal watches have increased. With the right education, countless options are available for the watchmaker in after-sales-service, antique restoration, and in related micro-technical fields. Horology Technology is a four-semester program starting each fall, spring, and summer.

Students can earn certificates or an AAS degree in Horology Technology. Program content covers watch repair, material systems, automatics, calendars, timers, chronographs, electric watches, accutrons, digital, step motor quartz, and lathe work. History and business applications are included in the curriculum. Prospective students are encouraged to tour the PJC campus and the TIJT division and/or request complete information and cost packet. You may schedule a tour or request an information packet by calling 903.782.0361. To receive a certificate in this program, a grade of “C” or better must be maintained in all courses.

Jewelry
The Texas Institute of Jewelry Technology at Paris Junior College has enjoyed a reputation for teaching excellence since it opened in 1942. This highly acclaimed division of PJC is well known for a diverse student body that includes students from around the world.

While TIJT prides itself on the state-of-the-art instruction, the Jewelry program is also well known for teaching time honored techniques such as bead-set/bright cut and pave. TIJT can
help the student gain the competitive edge in the dynamic field of Jewelry Technology, as well as prepare them for an exciting career by working at personalized work stations supervised by instructors who are professional jewelers.

Jewelry Technology is a four-semester program starting each fall and spring. Students can earn certificates or an AAS degree in Jewelry Technology. Program content includes the optimal use of tools and equipment, hand finishing and machine polishing, forming and fabrication, jewelry repair, wax carving, casting, stone setting round and fancy-cut stones, and working with gold and platinum.

At the end of the program, students will take the “Jewelers of America” certification exam for bench jewelers.

Prospective students are encouraged to tour the PJC campus and the TIJT division and/or request complete information and cost packet. You may schedule a tour or request an information packet by calling 903.782.0318.

To receive a certificate in this program, a grade of “C” or better must be maintained in all courses.

Mechatronics

PJC offers an Associate of Applied Science degree in Mechatronics, which is designed to prepare students to work in industrial maintenance or other related areas. The student will study electricity, electronics, hydraulics, pneumatics, mechanical, drives, computer based automated systems, industrial operations, and current industry practices. Instructional emphasis is placed on understanding of and troubleshooting of electromechanical systems.

Medical Records Coding
(Health Information Coding)

The Medical Records Coding Program is designed to prepare individuals to function effectively in the information management of the health care industry under the supervision of a medical records supervisor. As part of the information management team, the medical records coding associate will provide evidence for appropriate coding of the patient record to assist in reimbursement via private or governmental means.

Graduates are eligible to work in the information management areas in acute care and/or healthcare provider offices, and will be eligible to take the Certificate Examination for Coding Associate to qualify as a Certified Coding Associate (CCA).

The program begins in the Spring semester with general academic courses and is concluded at the end of the Spring semester of the following year.

Admissions Procedures for Medical Records Coding Program

The Medical Records Coding Program's admission application is available at the beginning of January for those who wish to apply. Completed and signed applications are accepted year-round; the core courses begin in the second summer session.

Along with the completed and signed application, the following must also be submitted:

» Official high school transcript or G.E.D.
» Official college transcripts from all colleges attended.
» Required references at the time of applications.
» Immunization records.

To receive a Medical Records Coding application by mail or to pick one up in person, contact the Health Occupations staff at 903.782.0734.

Students who have not been enrolled in the previous five years may be requested to resubmit all transcripts.

Admission to Medical Records Coding Program is dependant upon:

» General academic courses.
» GPA – required courses.
» References.
» Available space.

Nursing

The Paris Junior College Nursing Program is classified as a one-plus-one ladder program that offers Vocational Nursing (LVN) and LVN-to-RN programs. The first year of study is the Vocational Nursing (LVN) program that prepares the student for entry into the healthcare industry. Upon successful completion of this first year, students satisfying all admission requirements may continue their education by entering into the LVN-to-RN Associate Degree Nursing Program.

Vocational Nursing Program

The Licensed Vocational Nursing program prepares nurses to provide direct care to patients in acute and long term care facilities, physician’s offices, clinics, and other types of health agencies. LVNs practice under the supervision of a registered nurse or physician.

The LVN Program at PJC may be completed in 12 months (Summer, Fall, and Spring semesters). Upon successful completion, the graduate receives a Certificate for Vocational Nursing and is eligible to take the National Council Licensure Examination to become a licensed vocational nurse (NCLEX-PN).

The Vocational Nursing program is approved by the Texas Board of Nursing (BON), George H.W. Bush State Office Building, 1801 Congress Avenue, Suite 10-200, Austin, Texas, 78701, 512.305.7400, https://www.bon.texas.gov.

Admission To The LVN Program

Prospective PJC nursing students need to contact the Health Occupations Secretary at 903.782.0734 as soon as possible to provide information to being the Board of Nursing background check.

The Vocational Nursing Program’s admission application may be obtained November 1 through mid-March. Completed and signed nursing applications are accepted in the Health Occupations Office until the date listed on the application. Incomplete or late submissions will not be considered for admission.

Vocational Nursing Admission Selection Criteria

Admission to the Vocational Nursing program is selective. Prospective students cannot register
for nursing courses without permission. Admission to the program is dependent on:

» Available space
» Documentation of approved Criminal Background from the Texas Board of Nursing. Students must show proof of eligibility to test from the Texas Board of Nursing.
» Completion of pre-requisites:
  ◊ PSYC 2314 Lifespan Growth and Development
  ◊ BIOL 2401 Anatomy and Physiology I
  ◊ BIOL 2402 Anatomy and Physiology II
  ◊ BIOL 1322 Nutrition and Diet Therapy
» Admission criteria:
  ◊ The following areas are used to calculate the 21 available admission points
    › Testing is available at the PJC Testing Center; information and additional sites are provided in the admission application forms.
  ◊ GPA in prerequisite courses (2-8 points)
    › Minimum GPA of 2.5 in prerequisite courses.
  ◊ Nursing Support Courses (1-5 points)
    › Students are encouraged to complete some or all of the LVN-to-RN program pre-requisite and support courses: ENGL 1301, PSYC 2301, SOCI 1301, BIOL 2420, and MUSI 1306; a minimum grade of “C” is required.
» Current health care related experience or certifications.

CERTIFICATE IN VOCATIONAL NURSING - LVN (51 Semester Credit Hours)

Academic Prerequisites (14 SCH)
- BIOL 2401 ................................................................. Anatomy & Physiology I
- BIOL 2402 ................................................................ Anatomy & Physiology II
- PSYC 2314 ................................................. Lifespan Growth and Development

- VNSG 1236 ........................................................................ Mental Health
- VNSG 2410 .............................................................. Nursing in Health and Illness III
- VNSG 2460 ................. Clinical - Licensed Practical/Vocational Nurse Training
LVN-to-RN Associate Degree Nursing Program

The LVN-to-RN Associate Degree Nursing program is a one-plus-one program transitioning the licensed vocational nurse into professional practice. A student must maintain a current, unencumbered Licensed Vocational Nurse (LVN) licensure in Texas or a Compact Nursing State in order to be considered for admission and remain in the program.

The LVN-to-RN program prepares nurses for entry-level positions integrating knowledge and skills to provide care to patients in a variety of health care settings. The LVN-to-RN program may be completed in 12 months (Fall, Spring, and Summer semesters). Upon successful completion, the graduate receives an Associates of Applied Science Nursing Degree and is eligible to take the National Council Licensure Examination to become a registered nurse (NCLEX-RN).

The LVN-to-RN Associate Degree Nursing program is approved by the Texas Board of Nursing (BON), George H.W. Bush State Office Building, 1801 Congress Avenue, Suite 10-200, Austin, Texas, 78701, 512.305.7400, https://www.bon.texas.gov.

This program is also accredited by the Accreditation Commission for Education in Nursing (ACEN), 3343 Peachtree Road NE, Suite 850, Atlanta, Georgia, 30326, 404.975.5000, https://www.acenursing.org.

Admission to the LVN-to-RN Associate Degree Nursing Program

Prospective PJC nursing students need to contact the Health Occupations Secretary at 903-782-0734 as soon as possible to provide information to begin the Board of Nursing background check.

An admission application LVN-to-RN Associate Degree Nursing Program may be obtained March 1 through mid-May. To receive a nursing application by mail, or to pick one up in person, contact Health Occupations staff at 903.782.0734. Completed applications are accepted in the Health Occupations Office until the date listed on the application. Incomplete or late submissions will not be considered for admission.

LVN-to RN Nursing Program Admission Selection Criteria

Admission to the LVN-to-RN Associate Degree Nursing program is selective. Prospective students cannot register for nursing courses without permission.

Admission to the program is dependent upon:

» Available space.
» Documentation of approved Criminal Background from the Texas Board of Nursing. Students must show proof of LVN licensure and eligibility to test from the Texas Board of Nursing.
» Completion of the following pre-requisite courses:
  ◊ PSYC 2314 Lifespan Growth and Development
  ◊ PSYC 2301 General Psychology
  ◊ BIOL 2401 Anatomy and Physiology I
◊ BIOL 2402 Anatomy and Physiology II
◊ BIOL 1322 Nutrition and Diet Therapy
◊ ENGL 1301 Composition I

» Admission criteria point score
◊ The following are used to calculate the 16 available admission points:
› Preadmission HESI RN Mobility Exam or HESI Exit PN (2-5 Points)
› Testing is available at the PJC Testing Center. Information and additional sites are provided in the admission application forms.
› A minimum cumulative score of 850 is required.
◊ GPA in pre-requisite courses (2-8 points)
› Minimum GPA of 2.5 in pre-requisite courses.

» Nursing Support Courses (1-3 points)
◊ Students are encouraged to complete some or all of the LVN-to-RN program support courses (ENGL 1301, PSYC 2301, SOCI 1301, BIOL 2420, and MUSI 1306) prior to admission.
◊ A minimum grade of “C” is required.

Radiology Technology

The Radiology Technology Program is designed to prepare individuals to function effectively in the field of the diagnostic medical radiography. Radiography is the application of knowledge using a variety of imaging methods in the examination of the body for structural defects and disease processes.

The Radiology Program is a two-year program leading to an Associate of Applied Science (AAS) degree. Students will gain experience and knowledge through a combination of classroom, laboratory and clinical hands on experience. Clinical sites include surrounding community hospitals and clinics (some sites are more than 60 miles away from the Paris campus).

The Paris Junior College Radiology Technology program is accredited by an organization known as the Joint Review Committee on Education in Radiology Technology (JRCERT), 20 North Wacker Drive, Suite 2850, Chicago, Illinois 60606-3182, 312.704.5300. Graduates are eligible to apply for the American Registry of Radiologic Technologists (ARRT) Certification Examination. The website for the Joint Review Committee on Education in Radiologic Technology is www.jrcert.org.

Admissions Procedures for Radiology Technology Program

The program begins in the Spring Semester and is concluded at the end of the second Fall Semester. The program is six semesters in length. The Radiology Technology Program’s admission application is available at the beginning of August for those who wish to apply. Completed and signed Radiology Technology Program applications are accepted from August 1 through September 30.

Along with the completed and signed Radiology Technology Program application, the following must also be submitted:

» Texas Success Initiative (TSI) exemption status or proof that TSI criteria has been met.
» Proof of Paris Junior College acceptance.
» Official college transcripts from all colleges attended.
» Completed, required references at the time of application.
» Immunization Records.
» Documentation of CPR (American Heart Association Basic Heart Code BLS) status.

Admission to the Radiology Technology Program is dependant upon:

» General academic courses.
» GPA - required courses.
» References.
» Applicant Interview.
» Available space.

To receive a Radiology Technology application by mail or to pick one up in person, contact the Health Occupations staff at 903.782.0734. Students who have not been enrolled in the previous five years may be requested to resubmit all transcripts.

### Surgical Technology

The Surgical Technology Program is designed to prepare individuals for entry-level employment as Surgical Technologists in the acute-care operating room environment under the direct supervision of licensed health-care providers. As an essential member of the surgical team, the Surgical Technologist assists in providing quality patient care in the surgical suite.

Principles of safety and sterility are emphasized and specialized skills are developed. The Surgical Technologist will prepare the surgical field, pass instruments to Surgeons, cut sutures, and assist with tissue retraction and surgical site visualization. From preparation, to anticipation and critical thinking, the Surgical Technologist helps the surgical team accomplish safe and efficient surgical intervention for a variety of surgical specialties.

Completion of the Program earns an Associate of Applied Science (AAS) degree of Surgical Technology from Paris Junior College, and graduates are eligible to sit for the National Certifying Examination for Surgical Technologist (Capstone) in order to achieve the Certified Surgical Technologist (CST) credential. The Certification Examination is administered by the National Board of Surgical Technologists and Surgical Assisting. The Surgical Technology Program is accredited by the Commission on Accreditation of Allied Health Education Programs (CAAHEP), by recommendation of the Accreditation Review Committee in Surgical Technology & Surgical Assisting (ARC/STSA). The CAAHEP offices are located at: 9355 - 113th St. N, #7709, Seminole, FL 33775; www.caahep.org. The ARC/STSA offices are located at: #6 West Dry Creek Circle, Suite #210, Littleton, CO 80120; 303.694.9262; www.arcstsa.org.
The Associate of Applied Science degree is 60 credit hours and includes two semesters of hospital-based clinical training.

**Admissions Procedures for the Surgical Technology Program**

The Surgical Technology Program’s admission application is available through the Health Occupations Office in the Bobby Walters Workforce Training Center and is accepted year-round. Admission determinations are rendered each spring prior to summer enrollment when the program core begins. Along with the completed and signed surgical technology application, the following must also be submitted:

- Official high school transcript or TxCHESE.
- Texas Success Initiative (TSI) exemption status or proof that TSI criteria have been met.
- Official college transcripts from all colleges attended.
- Required references at the time of applications.
- Immunization records.

To receive a surgical technology application by mail or to pick one up in person, contact the Health Occupations office at 903.782.0734.

Admission to Surgical Technology Program is dependant upon:

- Completion of application.
- GPA – required courses.
- Available space.

Welding

Graduates will receive a certificate of completion from Paris Junior College. Also, students must test for the AWS Structural Steel Welding Certificate. This is administered by a representative of the American Welding Society on the PJC campus. The test is used for program evaluation purposes only. Students are not required to pass the test to complete the certificate. The PJC Structural Steel Welding certificate is a stand-alone certificate.

For the Pipe Welding Certificate, students must test for the ASME Pipe Welding Certificate. This certification test will be administered by a representative of the American Society of Mechanical Engineers on the PJC campus. The test is used for program evaluation purposes only. Students are not required to pass the test to complete the certificate.

Additionally, students could earn an Associated of Applied Science degree with the completion of selected academic courses.

**Associate of Applied Science in Welding Technology**

**CERTIFICATE IN STRUCTURAL STEEL WELDING (18 Credit Hours)**

**First Semester**
- WLDG 1323: Welding Safety, Tools, and Equipment
- WLDG 1425: Introduction to Oxy-Fuel Welding and Cutting
- WLDG 1407: Introduction to Welding Using Multiple Processes
- WLDG 1313: Introduction to Blueprint Reading for Welders
- WLDG 1457: Intermediate Shielded Metal Arc Welding (SMAW)

**CERTIFICATE IN PIPE WELDING (42 Credit Hours)**

**First semester (18 SCH)**
- WLDG 1323: Welding Safety, Tools, and Equipment
- WLDG 1425: Introduction to Oxy-Fuel Welding and Cutting
WLDG 1407 ........................ Introduction to Welding Using Multiple Processes
WLDG 1313 .......................... Introduction to Blueprint Reading for Welders
WLDG 1457 .......................... Intermediate Shielded Metal Arc Welding (SMAW)

**Second semester (16 SCH)**

WLDG 1427 .................................................. Welding Codes and Standards
WLDG 1434 .......................... Introduction to Gas Tungsten Arc (GTAW) Welding
WLDG 1435 .......................... Introduction to Pipe Welding
WLDG 2413 .................................................. Intermediate Multi Processes

**Third semester (8 SCH)**

WLDG 2451 .......................... Advanced Gas Tungsten Arc (GTAW) Welding
WLDG 2453 .......................... Advanced Pipe Welding

*Note:* All Structural Steel Welding courses must be taken as prerequisites to Pipe Welding courses.

**CERTIFICATE IN PRODUCTION WELDING**

(18 Credit Hours)

**First Semester**

WLDG 1323 ......................................... Welding Safety, Tools, and Equipment
WLDG 1425 .......................... Introduction to Oxy-Fuel Welding and Cutting
WLDG 1430 .......................... Introduction to Gas Metal Arc Welding (GMAW)
WLDG 1317 ......................................... Introduction to Layout and Fabrication
WLDG 2447 ......................................... Advanced Gas Metal Arc Welding (GMAW)
ACCT 2301 Principles of Financial Accounting (52.0301.51 04)  3.3.1
This course is an introduction to the fundamental concepts of financial accounting as prescribed by U.S. generally accepted accounting principles (GAAP) as applied to transactions and events that affect business organizations. Students will examine the procedures and systems to accumulate, analyze, measure, and record financial transactions. Students will use recorded financial information to prepare a balance sheet, income statement, statement of cash flows, and statement of shareholders’ equity to communicate the business entity’s results of operations and financial position to users of financial information who are external to the company. Students will study the nature of assets, liabilities, and owners' equity while learning to use reported financial information for purposes of making decisions about the company. Students will be exposed to International Financial Reporting Standards (IFRS). Recommended co-requisite: MATH 1324 Mathematics for Business & Social Sciences. Fee charged.

ACCT 2302 Principles of Managerial Accounting (52.0301.51 04)  3.3.1
This course is an introduction to the fundamental concepts of managerial accounting appropriate for all organizations. Students will study information from the entity’s accounting system relevant to decisions made by internal managers, as distinguished from information relevant to users who are external to the company. The emphasis is on the identification and assignment of product costs, operational budgeting and planning, cost control, and management decision making. Topics include product costing methodologies, cost behavior, operational and capital budgeting, and performance evaluation. Fee charged. Prerequisite: ACCT 2301.

ACNT 1303 Introduction to Accounting I  3.2.4
A study of analyzing, classifying, and recording business transactions in a manual and computerized environment. Emphasis on understanding the complete accounting cycle and preparing financial statements, bank reconciliations, and payroll. Fee Charged.

ACNT 1311 Introduction to Computerized Accounting  3.2.4
Introduction to utilizing the computer in maintaining accounting records with primary emphasis on a general ledger package. The student will utilize an application software to perform accounting tasks; maintain records; prepare reports; analyze reports for a business entity; complete a comprehensive project; and explain the components of general ledger software.

AGRI 1131 The Agricultural Industry (01.0103.52 01)  1.1.0
Overview of agriculture and the American agricultural system, including an examination of career opportunities and requirements.
AGRI 1309  Computers in Agriculture (01.0101.51 01)  3.2.2
Use of computers in agricultural applications. Introduction to programming languages, word processing, electronic spreadsheets and agricultural software.

AGRI 1311  Dairy Science (01.0905.51 01)  3.2.3
Survey of the dairy industry including dairy breeds, standards for selection and culling, herd replacements, feeding, management, physiology, and health maintenance. Food value for milk, tests for composition and quality, and use and processing of market milk and dairy products. Fee charged.

AGRI 1325  Marketing of Agricultural Products (01.0102.51 01)  3.3.0
Essential marketing functions in the movement of agricultural commodities and products from producer to consumer.

AGRI 1329  Principles of Food Science (01.1001.51 01)  3.3.1
Biological and scientific aspects of modern industrial food supply systems. Food classification, modern processing, and quality control.

AGRI 1407  Agronomy (01.1102.51 01)  4.3.3
Principles and practices in development, production and management of field crops; plant breeding; plant diseases; soils; and insect and weed control. Laboratory activities will reinforce the fundamental principles and practices in the development, production, and management of field crops including growth and development, climate, plant requirements, pest management, and production methods.

AGRI 1415  Horticulture (01.0601.51 01)  4.3.3
Structure, growth, and development of horticultural plants. Examination of environmental effects, basic principles of reproduction, production methods ranging from outdoor to controlled climates, nutrition, and pest management. Laboratory activities will reinforce the structure, growth, and development of horticultural plants. Examination of environmental effects, basic principles of reproduction, production methods ranging from outdoor to controlled climates, nutrition, and pest management. Fee charged.

AGRI 1419  Introductory Animal Science (01.0901.51 01)  4.3.3
Scientific animal production and the importance of livestock and meat industries. Selection, reproduction, nutrition, management, and marketing of livestock. Laboratory activities will reinforce scientific animal production and the importance of livestock and meat industries. Selection, reproduction, nutrition, management, and marketing of livestock. Fee charged.

AGRI 2317  Introduction to Agricultural Economics (01.0103.51 01)  3.3.0
Fundamental economic principles and their application in the agricultural industry.
AGRI 2321  **Livestock Evaluation (01.0901.52 01)**  3.2.4
Evaluation and grading of market cattle, swine, sheep, and goats and their carcases and wholesale cuts. Emphasis will be placed on value determination. Selection and evaluation of breeding cattle, sheep, swine, and goats with emphasis on economically important traits. Fee charged.

AGRI 2330  **Wildlife Conservation & Management (03.0601.51 01)**  3.2.2
Principles and practices used in the production and improvement of wildlife resources. Aesthetic, ecological and recreational uses of public and private lands.

ARTS 1301  **Art Appreciation (50.0703.51 26)**  3.3.0
A general introduction to the visual arts designed to create an appreciation of the vocabulary, media, techniques, and purposes of the creative process. Students will critically interpret and evaluate works of art within formal, cultural, and historical contexts.

ARTS 1304  **Art History I (50.0703.52 26)**  3.3.0
A chronological analysis of the historical and cultural contexts of the visual arts from prehistoric times to the 14th century.

ARTS 1311  **Design I (50.0401.53 26)**  3.2.4
An introduction to the fundamental terminology, concepts, theory, and application of two dimensional design. Fee charged.

ARTS 1312  **Design II (50.0401.53 26)**  3.2.4
An introduction to the fundamental terminology, concepts, theory, and application of three dimensional design. Fee charged.

ARTS 1316  **Drawing I (50.0705.52 26)**  3.2.4
A foundation studio course exploring drawing with emphasis on descriptive, expressive and conceptual approaches. Students will learn to see and interpret a variety of subjects while using diverse materials and techniques. Course work will facilitate a dialogue in which students will engage in critical analysis and being to develop their understanding of drawing as a discipline. Fee charged.

ARTS 1317  **Drawing II (50.0705.52 26)**  3.2.4
A studio course exploring drawing with continued emphasis on descriptive, expressive and conceptual approaches. Students will further develop the ability to see and interpret a variety of subjects while using diverse materials and techniques. Course work will facilitate a dialogue in which students will employ critical analysis to broaden their understanding of drawing as a discipline. Fee charged. Prerequisite: ARTS 1316 or consent of instructor.
ARTS 2311  Design III (Color Theory) (50.0401.53  26) 3.2.4
Studio art course that is a theoretical and practical study of color and composition in art and design. The course consists of studio-based projects using the formal and conceptual aspects of color. The course also examines the functions of color in art from different historical and cultural perspectives.

ARTS 2316  Painting I (50.0708.52  26) 3.2.4
Studio art course that introduces the fundamental principles, materials, and techniques of painting. Fee charged. Prerequisites: ARTS 1317, 2317 or consent of instructor.

ARTS 2317  Painting II (50.0708.52  26) 3.2.4
Studio art course that furthers the study of the principles, materials, and techniques of painting. Fee charged. Prerequisite: ARTS 2316 or consent of instructor.

ARTS 2323  Life Drawing (50.0705.53  26) 3.2.4
Studio art course that introduces the analytic study of the human form and the figure’s potential for compositional and expressive use in drawing. Fee charged. Prerequisite: ARTS 1316.

ARTS 2326  Sculpture (50.0709.51  26) 3.2.4
A studio art course that introduces the materials, processes, and issues pertaining to the making of three-dimensional objects and environments. The course explores the use of varied materials and techniques along with the formal and conceptual principles that form the basis of contemporary sculpture. Fee charged. Prerequisite: ARTS 1312 or consent of instructor.

ARTS 2341  Metals (50.0713.51  26) 3.2.4
A studio art course that introduces metalsmithing using basic techniques in jewelry design and metal construction. The course provides instruction and practical fabrication experience as it relates to the design and production of small-scale functional and/or non-functional objects. Fee charged. Prerequisite: ARTS 1311 or consent of instructor.

ARTS 2346  Ceramics I (50.0711.51  26) 3.2.4
A studio art course that introduces basic building, throwing, and other techniques as it relates to the design and production of ceramic sculpture and pottery. Fee charged.

ARTS 2347  Ceramics II (50.0711.51  26) 3.2.4
A studio art course that furthers the study of building, throwing, and other techniques as it relates to the design and production of ceramic sculpture and pottery. Fee charged. Prerequisite: ARTS 2346 or consent of instructor.
ARTS 2348  Digital Media (50.0402.52  26)  3.2.4
Studio art course that introduces the potential of basic digital media manipulation and graphic creation. The course emphasizes still and time-based media. Fee charged.

ARTS 2356  Photography I (fine arts emphasis) (50.0605.51  26)  3.2.4
Introduction to the basics of photography. Includes camera operation, techniques, knowledge of chemistry, and presentation skills. Emphasis on design, history, and contemporary trends as a means of developing an understanding of photographic aesthetics. Fee charged.

ARTS 2357  Photography II (fine arts emphasis) (50.0605.52  26)  3.2.4
Extends the students’ knowledge of technique and guides them in developing personal outlooks toward specific applications. Fee charged. Prerequisite: ARTS 2356 or its equivalent.

BCIS 1305  Business Computer Applications (11.0202.54  04)  3.2.4
Introduces and develops foundational skills in applying essential and emerging business productivity information technology tools. The focus of this course is on business productivity software applications, including word processing, spreadsheets, databases, presentation graphics, data analytics, and business-oriented utilization of the internet. (BCIS 1305 is included in the Business Field of Study.).

BIOL 1322  Nutrition & Diet Therapy (19.0501.51  09)  3.3.0
This course introduces general nutritional concepts in health and disease and includes practical applications of that knowledge. Special emphasis is given to nutrients and nutritional processes including functions, food sources, digestion, absorption, and metabolism. Food safety, availability, and nutritional information including food labels, advertising, and nationally established guidelines are addressed.

BIOL 1406  Biology for Science Majors I (26.0101.51  03)  4.3.3
Fundamental principles of living organisms will be studied, including physical and chemical properties of life, organization, function, evolutionary adaptation, and classification. Concepts of cytology, reproduction, genetics, and scientific reasoning are included. Laboratory activities will reinforce these fundamental principles of living organisms.

BIOL 1407  Biology for Science Majors II (26.0101.51  03)  4.3.3
The diversity and classification of life will be studied, including animals, plants, protists, fungi, and prokaryotes. Special emphasis will be given to anatomy, physiology, ecology, and evolution of plants and animals. Prerequisite: BIOL 1406.
BIOL 1408  Biology for Non-Science Majors I (26.0101.51 03)  4.3.3
Provides a survey of biological principles with an emphasis on humans, including chemistry of life, cells, structure, function, and reproduction. Laboratory activities will reinforce a survey of biological principles with an emphasis on humans, including chemistry of life, cells, structure, function, and reproduction. Fee charged.

BIOL 1409  Biology for Non-Science Majors II (26.0101.51 03)  4.3.3
This course will provide a survey of biological principles with an emphasis on humans, including evolution, ecology, plant and animal diversity, and physiology. Laboratory activities will reinforce a survey of biological principles with an emphasis on humans, including evolution, ecology, plant and animal diversity, and physiology. Fee charged.

BIOL 2306  Environmental Biology (26.1305.51 03)  3.3.1
Principles of environmental systems and ecology, including biogeochemical cycles, energy transformations, abiotic interactions, symbiotic relationships, natural resources and their management, lifestyle analysis, evolutionary trends, hazards and risks, and approaches to ecological research. Fee charged. Prerequisite: two semesters of Biology or consent of instructor.

BIOL 2401  Anatomy & Physiology I (26.0707.51 03)  4.3.3
Anatomy & Physiology I is the first part of a two course sequence. It is a study of the structure and function of the human body including cells, tissues and organs of the following systems: integumentary, skeletal, muscular, nervous and special senses. Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis.
The lab provides a hands-on learning experience for exploration of human system components and basic physiology. Systems to be studied include integumentary, skeletal, muscular, nervous, and special senses. Fee charged.

BIOL 2402  Anatomy & Physiology II (26.0704.51 03)  4.3.3
Anatomy & Physiology II is the second part of a two-course sequence. It is a study of the structure and function of the human body including the following systems: endocrine, cardiovascular, immune, lymphatic, respiratory, digestive (including nutrition), urinary (including fluid and electrolyte balance), and reproductive (including human development and genetics). Emphasis is on interrelationships among systems and regulation of physiological functions involved in maintaining homeostasis. The lab provides a hands-on learning experience for exploration of human system components and basic physiology. Fee charged.

BIOL 2420  Microbiology for Non-Science Majors (26.0503.51 03)  4.3.4
This course covers basic microbiology and immunology and is primarily directed at pre-nursing, pre-allied health, and non-science majors. It provides an introduction to historical concepts of the nature of microorganisms, microbial
diversity, the importance of microorganisms and acellular agents in the bio-
sphere, and their roles in human and animal diseases. Major topics include
bacterial structure as well as growth, physiology, genetics, and biochemistry
of microorganisms. Emphasis is on medical microbiology, infectious diseases,
and public health. Lab activities cover basics of culture and identification of
bacteria and microbial ecology. Fee charged.

BMGT 1327  Principles of Management  3.3.1
Concepts, terminology, principles, theories, and issues in the field of manage-
ment. The course will have students to explain and apply the various theories,
processes, and functions of management; identify roles of leadership in organi-
zations; and recognize elements of the communication process.

BMGT 2388  Internship - Business Administration and Management, General  3.0.9
The internship is a work-based learning experience that enables the student to
apply specialized occupational theory, skills and concepts. The learning plan
developed by the college and the employer allows the student to apply the
theory, concepts, and skills involving specialized materials, tools, equipment,
procedures, regulations, laws, and interactions within and among political,
economic, environmental, social, and legal systems associated with the occupa-
tion and the business/industry; and will demonstrate legal and ethical behav-
ior, safety practices, interpersonal and teamwork skills, and appropriate written
and verbal communication skills using the terminology of the occupation and
the business/industry.

BUSG 1301  Introduction to Business  3.3.0
Fundamental business principles including structure, functions, resources, and
operational processes. The student will identify business functions of accounting,
management, marketing, and economics; and describe the relationships of social
responsibility, ethics, and law; and describe the scope of global business enterprise.

BUSG 1304  Financial Literacy  3.3.0
A study of the financial principles when managing financial affairs. Includes
topics such as budgeting, retirement, property ownership, savings, and invest-
ment planning. The student will identify the concepts associated with the time
value of money; identify the differences among various savings and investment
programs and classes of securities; identify the options for insurance; describe
retirement and estate planning techniques; explain owning versus renting real
property; and describe consumer protection legislation.

BUSG 2309  Small Business Management/Entrepreneurship  3.3.0
Starting, operating, and growing a small business. Includes essential manage-
ment skills, how to prepare a business plan, accounting, financial needs, staff-
ing, marketing strategies, and legal issues. The student will identify manage-
ment skills for a small business; outline issues related to choosing a business,
obtaining a return on investment; and create a business plan.
BUSI 2301  Business Law (52.0101.51 24)  3.3.0
The course provides the student with foundational information about the U.S. legal system and dispute resolution, and their impact on business. The major content areas will include general principles of law, the relationship of business and the U.S. Constitution, state and federal legal systems, the relationship between law and ethics, contracts, sales, torts, agency law, intellectual property, and business law in the global context. Prerequisite: High school coursework in U.S. history and government, or equivalent.

CETT 1349  Digital Systems  3.2.4
A course in electronics covering digital systems. Emphasis on application and troubleshooting digital systems. Prerequisite: Instructor approval. Fee charged.

CETT 1409  DC-AC Circuits  4.3.4
Fundamentals of DC circuits and AC circuits operation including Ohm's law, Kirchoff's laws, networks, transformers, resonance, phasors, capacitive and inductive and circuit analysis techniques. Prerequisite: Instructor approval. Fee charged.

CHEM 1405  Introductory Chemistry I (40.0501.51 03)  4.3.3
Survey course introducing chemistry. Topics may include inorganic, organic, biochemistry, food/physiological chemistry, and environmental/consumer chemistry. Designed for non-science and allied health students. Fee charged.

CHEM 1406  Introductory Chemistry I (allied health emphasis) (40.0501.51 03)  4.3.3
Survey course introducing chemistry. Topics may include inorganic, organic, biochemistry, food/physiological chemistry, and environmental/consumer chemistry. Designed for non-science and allied health students. Fee charged.

CHEM 1407  Introductory Chemistry II (40.0501.51 03)  4.3.3
Survey course introducing chemistry. Topics may include inorganic, organic, biochemistry, food/physiological chemistry, and environmental/consumer chemistry. Designed for non-science and allied health students. Fee charged.

CHEM 1411  General Chemistry I (40.0501.54 03)  4.3.3
Fundamental principles of chemistry for majors in the sciences, health sciences, and engineering; topics include measurements, fundamental properties of matter, states of matter, chemical reactions, chemical stoichiometry, periodicity of elemental properties, atomic structure, chemical bonding, molecular structure, solutions, properties of gases, and an introduction to thermodynamics and descriptive chemistry. Basic laboratory experiments supporting theoretical principles presented in the course; introduction of the scientific method, experimental design, data collection and analysis, and preparation of laboratory reports. Fee charged. Prerequisite: MATH 1314 or equivalent academic preparation.
CHEM 1412 General Chemistry II (40.0501.57 03) 4.3.3
Chemical equilibrium; phase diagrams and spectrometry; acid-base concepts; thermodynamics; kinetics; electrochemistry; nuclear chemistry; an introduction to organic chemistry and descriptive inorganic chemistry. Basic laboratory experiments supporting theoretical principles presented in the course, including introduction of the scientific method, experimental design, chemical instrumentation, data collection and analysis, and preparation of laboratory reports. Fee charged. Prerequisite: CHEM 1411.

CHEM 2423 Organic Chemistry I (40.0504.52 03) 4.3.4
Fundamental principles of organic chemistry will be studied, including the structure, bonding, properties, and reactivity of organic molecules; and properties and behavior of organic compounds and their derivatives. Emphasis is placed on organic synthesis and mechanisms. Includes study of covalent and ionic bonding, nomenclature, stereochemistry, structure and reactivity, reaction mechanisms, functional groups, and synthesis of simple molecules. Laboratory activities will reinforce fundamental principles of organic chemistry, as previously listed. Methods for the purification and identification of organic compounds will be examined. THIS COURSE IS INTENDED FOR STUDENTS IN SCIENCE OR PRE-PROFESSIONAL PROGRAMS. Fee charged. Prerequisite: CHEM 1412 or 1407 with consent of instructor.

CHEM 2425 Organic Chemistry II (40.0504.52 03) 4.3.4
Advanced principles of organic chemistry will be studied, including the structure, properties, and reactivity of aliphatic and aromatic organic molecules; and properties and behavior of organic compounds and their derivatives. Emphasis is placed on organic synthesis and mechanisms. Includes study of covalent and ionic bonding, nomenclature, stereochemistry, structure and reactivity, reaction mechanisms, functional groups, and synthesis of simple molecules. Laboratory activities reinforce advanced principles of organic chemistry, as previously listed. THIS COURSE IS INTENDED FOR STUDENTS IN SCIENCE OR PRE-PROFESSIONAL PROGRAMS. Fee charged. Prerequisite: CHEM 2423.

CJSA 1393 Special Topics in Criminal Justice Studies 3.2.4
Topics address recently identified current events, skills, knowledge and/or attitudes and behaviors pertinent to the technology or occupation and relevant to the professional development of the student. This course was designed to be repeated multiple times to improve student proficiency.

CJSA 2364 Practicum - Criminal Justice/Safety Studies 3.0.21
Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student. Prerequisite: Consent of Instructor.

CNBT 2310 Commercial/Industrial Blueprint Reading 3.2.4
Blueprint reading for commercial/industrial construction.
COMM 1307 Introduction to Mass Communications (09.0102.51 06) 3.3.0
Survey of basic content and structural elements of mass media and their functions and influences on society. For journalism majors and non-majors.

COMM 2305 Editing and Layout (09.0401.51 06) 3.2.4
Editing and layout processes, with emphasis on accuracy and fairness, including the principles and techniques of design.

COMM 2311 Media Writing (09.0401.57 06) 3.2.4
Fundamentals of writing for the mass media. Includes instruction in professional methods and techniques for gathering, processing, and delivering content.

COMM 2315 News Reporting (09.0401.58 06) 3.2.4
This course focuses on advanced news-gathering and writing skills. It concentrates on the three-part process of producing news stories: discovering the news, reporting the news, and writing the news in different formats. Prerequisite: COMM 2311.

COMM 2327 Introduction to Advertising (09.0903.51 06) 3.3.0
Fundamentals of advertising including marketing theory and strategy, copywriting, design, and selection of media.

COMM 2332 Radio/Television News (09.0402.52 06) 3.2.4
Preparation and analysis of news styles for the electronic media.

COSC 1301 Introduction to Computing (11.0101.51 07) 3.2.2
Overview of computer systems-hardware, operating systems, and microcomputer application software, including the Internet, word processing, spreadsheets, presentation graphics, and databases. Current topics such as the effect of computers on society, and the history and use of computers in business, educational, and other modern settings are also studied. This course is not intended to count toward a student's major field of study in business or computer science.

COSC 1336 Programming Fundamentals I (11.0201.55 07) 3.2.4
Introduces the fundamental concepts of structured programming and provides a comprehensive introduction to programming for computer science and technology majors. Topics include software development methodology, data types, control structures, functions, arrays, and the mechanics of running, testing, and debugging. This course assumes computer literacy. This course is included in the Field of Study Curriculum for Computer Science.

COSC 1337 Programming Fundamentals II (11.0201.56 07) 3.2.4
This course focuses on the object-oriented programming paradigm, emphasizing the definition and use of classes along with fundamentals of object-oriented design. The course includes basic analysis of algorithms, searching and sorting
techniques, and an introduction to software engineering processes. Students will apply techniques for testing and debugging software. (This course is included in the Field of Study Curriculum for Computer Science.) Prerequisite: COSC 1336.

</table>
CRIJ 2314  Criminal Investigation (43.0104.55 24) 3.2.3
Investigative theory; collection and preservation of evidence; sources of information; interview and interrogation; uses of forensic sciences; case and trial preparation.

CRIJ 2323  Legal Aspects of Law Enforcement (43.0104.56 24) 3.3.0
Police authority; responsibilities; constitutional constraints; laws of arrest, search, and seizure; police liability.

CRIJ 2328  Police Systems & Practices (43.0104.57 24) 3.3.0
This course examines the establishment, role and function of police in a democratic society. It will focus on types of police agencies and their organizational structure, police-community interaction, police ethics, and use of authority. (This course is included in the Field of Study Curriculum for Criminal Justice.)

DFTG 1305  Technical Drafting 3.2.4
Introduction to the principles of drafting to include terminology and fundamentals, including size and shape descriptions, projection methods, geometric construction, sections, and auxiliary views. Fee Charged.

DFTG 1309  Basic Computer-Aided Drafting 3.2.4
An introduction to computer-aided drafting. Emphasis is placed on setup; creating and modifying geometry; storing and retrieving predefined shapes; placing, rotating, and scaling objects, adding text and dimensions, using layers, coordinate systems, and plot/print to scale. Fee Charged.

DFTG 1317  Architectural Drafting - Residential 3.2.4

DFTG 1325  Blueprint Reading and Sketching 3.2.4
An introduction to reading and interpreting working drawings for fabrication processes and associated trades. Use of sketching techniques to create pictorial and multiple-view drawings. Fee Charged. Prerequisite: Instructor approval.

DFTG 1345  Parametric Modeling and Design 3.2.4
Parametric-based design software for 3D design and drafting. Fee Charged. Prerequisite: Instructor approval.

DFTG 1358  Electrical/Electronics/Drawing 3.2.4
Electrical and electronic drawings stressing modern representation used for block diagrams, schematic diagrams, logic diagrams, wiring/assembly drawings, printed circuit board layouts, motor control diagrams, power distribution diagrams, and electrical one-line diagrams. Fee charged.
DFTG 1381  Cooperative Education - Drafting & Design Technology/ Technician, General
Career-related activities encountered in the student's area of specialization offered through an individual agreement among the college, employer, and student. Under the supervision of the college and the employer, the student combines classroom learning with work experience. Includes a lecture component. Prerequisite: Instructor approval. Fee Charged.

DFTG 1391  Special Topics In Drafting and Design Technology/ Technician, General
Topics address recently identified current events, skills, knowledge, and/or attitudes and behaviors pertinent to the technology or occupation and relevant to the professional development of the student. This course was designed to be repeated multiple times to improve student proficiency. Fee Charged.

DFTG 2302  Machine Drafting
Production of detail and assembly drawings of machines, threads, gears, utilizing tolerances, limit dimensioning, and surface finishes. Fee Charged.

DFTG 2312  Technical Illustration and Presentation
Study of pictorial drawings including isometrics, obliques, perspectives, charts, and graphs. Emphasis on rendering and using different media. Fee Charged.

DFTG 2317  Descriptive Geometry
Graphical solutions to problems involving points, lines, and planes in space. Fee Charged.

DFTG 2319  Intermediate Computer-Aided Drafting
A continuation of practices and techniques used in basic computer-aided drafting including the development and use of prototype drawings, construction of pictorial drawings, extracting data, and basics of 3D. Fee Charged.

DFTG 2321  Topographical Drafting
Plotting of surveyor's field notes. Includes drawing elevations, contour lines, plan and profiles, and laying out traverses. Fee Charged.

DFTG 2323  Pipe Drafting
A study of pipe fittings, symbols, specifications and their applications to a piping process system. Creation of symbols and their usage in flow diagrams, plans, elevations, and isometrics. Fee Charged.

DFTG 2328  Architectural Drafting - Commercial
Architectural drafting procedures, practices, governing codes, terms and symbols, including the preparation of detailed working drawings for a commercial building, with emphasis on commercial construction methods. Fee Charged. Prerequisite: Instructor approval.
DFTG 2331  **Advanced Technologies in Architectural Design and Drafting**  3.2.4
Use of architectural specific software to execute the elements required in designing standard architectural exhibits utilizing custom features to create walls, windows and specific design requirements for construction in residential/commercial and industrial architecture. Fee Charged.

DFTG 2332  **Advanced Computer-Aided Drafting**  3.2.4
Application of advanced CAD techniques. Use a customized CAD system to create documents and/or solid models; and use OLE with external software. Fee Charged. Prerequisite: Instructor approval.

DFTG 2338  **Final Project - Advanced Drafting**  3.2.4
A drafting course in which students participate in a comprehensive project from conception to conclusion. Fee Charged. Prerequisite: Instructor approval.

DFTG 2340  **Solid Modeling/Design**  3.2.4
A computer-aided modeling course. Development of three-dimensional drawings and models from engineering sketches and orthographic drawings and utilization of three-dimensional models in design work. Fee Charged. Prerequisite: Instructor approval.

DMSO 1110  **Introduction to Sonography**  1.1.1
An introduction to the profession of sonography and the role of the sonographer. Emphasis on medical terminology, ethical/legal aspects, written and verbal communication, and professional issues relating to registry, accreditation, professional organizations and history of the profession.

DMSO 1260  **Clinical - Diagnostic Medical Sonography/Sonographer and Ultrasound Technician**  2.0.12
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.

DMSO 1302  **Basic Ultrasound Physics**  3.2.4
Basic acoustical physics and acoustical waves in human tissue. Emphasis on ultrasound transmission in soft tissues, attenuation of sound energy, parameters affecting sound transmission, and resolution of sound beams.

DMSO 1341  **Abdominopelvic Sonography**  3.2.4
Normal anatomy and physiology of the abdominal and pelvic cavities as related to scanning techniques, transducer selection, and scanning protocols.
DMSO 1342 Intermediate Ultrasound Physics
Continuation of Basic Ultrasound Physics. Includes interaction of ultrasound with tissues, mechanics of ultrasound production and display, various transducer designs and construction, quality assurance, bioeffects, and image artifacts. May introduce methods of Doppler flow analysis.

DMSO 2130 Advanced Ultrasound and Review
Knowledge, skills, and professional values within a legal and ethical framework addressing emerging technologies and professional development.

DMSO 2305 Sonography of Obstetrics/Gynecology
Detailed study of the pelvis and obstetrics/gynecology as related to scanning techniques, patient history and laboratory data, transducer selection, and scanning protocols.

DMSO 2341 Sonography of Abdominopelvic Pathology
Pathologies and disease states of the abdomen and pelvis as related to scanning techniques, patient history and laboratory data, transducer selection, and scanning protocols. Emphasizes endocavitary sonographic anatomy and procedures including pregnancy.

DMSO 2342 Sonography of High Risk Obstetrics
Maternal disease and fetal abnormalities. Includes scanning techniques, patient history and laboratory data, transducer selection, and scanning protocols.

DMSO 2351 Doppler Physics
Doppler and hemodynamic principles relating to arterial and venous imaging and testing.

DMSO 2353 Sonography of Superficial Structures
Detailed study of normal and pathological superficial structures as related to scanning techniques, patient history and laboratory data, transducer selection, and scanning protocols.

DMSO 2362 Clinical - Diagnostic Medical Sonography/Sonographer and Ultrasound Technician
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.

DMSO 2366 Practicum (or Field Experience) - Diagnostic Medical Sonography/Sonographer and Ultrasound Technician
Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student.

DRAM 1120 Theater Practicum I (50.0506.53 26)
Practicum in theater open to all students with emphasis on technique and
procedures with experience gained in play productions. First semester of four-semester sequence.

**DRAM 1121 Theater Practicum II (50.0506.53 26)** 1.0.4
Practicum in theater open to all students with emphasis on technique and procedures with experience gained in play productions. Second of a four-semester sequence.

**DRAM 1310 Theater Appreciation (50.0501.51 26)** 3.2.4
Survey of theater including its history, dramatic works, stage techniques, production procedures, and relation to other art forms. Participation in productions may be required.

**DRAM 1322 Stage Movement (50.0506.54 26)** 3.2.4
Principles, practices, and exercises in awareness, relaxation, freedom, flexibility, and expressiveness in the actor's physical instrument.

**DRAM 1330 Stagecraft I (50.0502.51 26)** 3.2.4
Study and application of the methods and components of theatrical production which may include one or more of the following: theater facilities, scenery construction and painting, properties, lighting, costume, makeup, sound, and theatrical management. Fee charged.

**DRAM 1341 Stage Makeup (50.0502.52 26)** 3.2.4
Design and execution of makeup for the stage performer. Includes discussion of basic makeup principles and practical experience of makeup application. Fee charged.

**DRAM 1342 Costume Technology (50.0502.53 26)** 3.2.4
Introduction to the process and application of the fundamental skills of costume production, modification, and maintenance. Fee charged.

**DRAM 1351 Acting I (50.0506.51 26)** 3.2.4
An introduction to the fundamental principles and tools of acting as used in auditions, rehearsals, and performances. This may include ensemble performing, character and script analysis, and basic theater terminology. This exploration will emphasize the development of the actor's instrument: voice, body and imagination.

**DRAM 1352 Acting II (50.0506.51 26)** 3.2.4
Exploration and further training within the basic principles and tools of acting, including an emphasis on critical analysis of oneself and others. The tools include ensemble performing, character and script analysis, and basic theater terminology. This will continue the exploration of the development of the actor's instrument: voice, body and imagination.
DRAM 2120  Theater Practicum III (50.0506.53 26)  1.0.4
Practicum in theater open to all students with emphasis on technique and procedures with experience gained in play productions. Third semester of a four-semester sequence.

DRAM 2121  Theater Practicum IV (50.0506.53 26)  1.0.4
Practicum in theater open to all students with emphasis on technique and procedures with experience gained in play productions. Fourth semester of a four-semester sequence.

DRAM 2331  Stagecraft II (50.0502.51 26)  3.2.4
Continued study and application of the methods and components of theatrical production which may include one or more of the following: theater facilities, scenery construction and painting, properties, lighting, costume, makeup, sound and theatrical management. Fee charged. Prerequisite: DRAM 1330.

DRAM 2336  Voice for the Actor (50.0506.52 26)  3.3.0
Principles, practices, and exercises in awareness, relaxation, freedom, flexibility, and expressiveness in the actor’s vocal instrument.

DRAM 2366  Film Appreciation (50.0602.51 26)  3.2.2
Survey and analyze cinema including history, film techniques, production procedures, selected motion pictures, and cinema's impact on and reflection of society. Fee charged.

ECON 2301  Principles of Macroeconomics (45.0601.51 25)  3.3.0
An analysis of the economy as a whole including measurement and determination of Aggregate Demand and Aggregate Supply, national income, inflation, and unemployment. Other topics include international trade, economic growth, business cycles, and fiscal policy and monetary policy.

ECON 2302  Principles of Microeconomics (45.0601.51 25)  3.3.0
Analysis of the behavior of individual economic agents, including consumer behavior and demand, producer behavior and supply, price and output decisions by firms under various market structures, factor markets, market failures, and international trade.

EDUC 1100  Learning Framework (42.2701.51 25)  1.1.0
A study of the research and theory in the psychology of learning, cognition, and motivation; factors that impact learning, and application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned. (Cross-listed as PSYC 1100)
EDUC 1300  **Learning Framework (42.2701.51 25)**  3.3.0
A study of the research and theory in the psychology of learning, cognition, and motivation; factors that impact learning, and application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned. (Cross-listed as PSYC 1300)

EDUC 1301  **Introduction to the Teaching Profession (13.0101.51 09)**  3.3.1
An enriched, integrated pre-service course and content experience that provides active recruitment and institutional support of students interested in a teaching career, especially in high need fields. The course provides students with opportunities to participate in early field observations at all levels of P-12 schools with varied and diverse student populations and provides students with support from college and school faculty, preferably in small cohort groups, for the purpose of introduction to and analysis of the culture of schooling and classrooms. Course content should be aligned as applicable with State Board for Educator Certification Pedagogy and Professional Responsibilities standards. Course must include a minimum of 16 contact hours of field experience in P-12 classrooms.

EDUC 2301  **Introduction to Special Populations (13.1001.51 09)**  3.3.1
An enriched, integrated pre-service course and content experience that provides an overview of schooling and classrooms from the perspectives of language, gender, socioeconomic status, ethnic and academic diversity, and equity with an emphasis on factors that facilitate learning. The course provides students with opportunities to participate in early field observations of P-12 special populations and should be aligned as applicable with State Board for Educator Certification Pedagogy and Professional Responsibilities standards. Must include a minimum of 16 contact hours of field experience in P-12 classrooms with special populations. Prerequisite: EDUC 1301.

ELMT 1380  **Cooperative Education - Electromechanical Technology/ Electromechanical Engineering Technology**  3.1.19
Career-related activities encountered in the student’s area of specialization offered through an individualized agreement among the college, employer, and student. Under the supervision of the college and the employer, the student combines classroom learning with work experience. Includes a lecture component. Note: Qualified employment is not provided by Paris Junior College and is the responsibility of the student.

ELMT 1391  **Special Topics in Electromechanical Technology/Technician**  3.2.4
Topics address recently identified current events, skills, knowledge, and/or at-
titudes and behaviors pertinent to the technology or occupation and relevant to the professional development of the student. This course was designed to be repeated multiple times to improve student proficiency.

ELMT 2333  Industrial Electronics  3.2.4
Devices, circuits, and systems primarily used in automated manufacturing and/or process control including computer controls and interfacing between mechanical, electrical, electronic, and computer equipment. Includes presentation of programming schemes.

ELMT 2337  Electronic Troubleshooting, Service and Repair  3.2.4
In-depth coverage of electronic systems, maintenance, troubleshooting, and repair. Topics include symptom identification, proper repair procedures, repair checkout, preventive maintenance. Emphasis on safety and use of test equipment. May be offered as a capstone course.

ELPT 1221  Introduction to Electrical Safety and Tools  2.1.3
Safety rules and regulations. Includes the selection, inspection, use, and maintenance of common tools for electricians. Prerequisite: Instructor approval. Fee charged.

ELPT 1225  National Electrical Code I  2.2.0
An introductory study of the National Electric Code (NEC) for those employed in fields requiring knowledge of the Code. Emphasis on wiring design, protection, methods, and materials; equipment for general use; and basic calculations.

ELPT 1341  Motor Control  3.2.2
Operating principles of solid-state and conventional controls along with their practical applications. Includes braking, jogging, plugging, safety interlocks, wiring, and schematic diagram interpretations.

ELPT 1351  Electrical Machines  3.2.4
Direct current (DC) motors, single-phase and polyphase alternating current (AC) motors, generators, and alternators. Emphasis on construction, characteristics, efficiencies, starting, and speed control.

ELPT 1357  Industrial Wiring  3.2.4
Wiring methods used for industrial installations. Includes motor circuits, raceway and bus way installations, proper grounding techniques, and associated safety procedures.

ELPT 1411  Basic Electrical Theory  4.3.3
Basic theory and practice of electrical circuits. Includes calculations as applied to alternating and direct current.
ELPT 1429  Residential Wiring  4.2.6
Wiring methods for single family and multi-family dwellings. Includes load calculations, service entrance sizing, proper grounding techniques, and associated safety procedures.

ELPT 1445  Commercial Wiring  4.3.3
Commercial wiring methods. Includes overcurrent protection, raceway panel board installation, proper grounding techniques, and associated safety procedures.

ELPT 2225  National Electrical Code II  2.2.0
In-depth coverage of the National Electrical Code (NEC) for those employed in fields requiring knowledge of the Code. Emphasis on wiring protection and methods, special conditions, and advanced calculations.

ELPT 2323  Transformers  3.2.3
Transformer types, construction, connections, protection, grounding, and associated safety procedures.

ELPT 2319  Programmable Logic Controllers I  3.2.4
Fundamental concepts of programmable logic controllers, principles of operation, and numbering systems as applied to electronic controls.

ELPT 2355  Programmable Logic Controllers II  3.2.4
Advanced concepts in programmable logic controllers and their applications and interfacing to industrial controls.

EMSP 1160  Clinical - Emergency Medical Technology/Technician  1.0.6
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.

EMSP 1161  Clinical - Emergency Medical Technology/Technician (EMT Paramedic)  1.0.5
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.

EMSP 1162  Clinical - Emergency Medical Technology/Technician (EMT Paramedic)  1.0.6
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.

EMSP 1208  Emergency Vehicle Operations  2.1.3
Discussion, demonstration, and driving range practice. Addresses operation of vehicles in emergency and non-emergency modes.

EMSP 1271  EMS Documentation  2.1.2
This course is designed to describe and demonstrate what minimum content
should be included in all types of emergency medical service patient care reports, including patient care reports, patient refusal reports, and no contact reports; the legal and financial requirements of documentation as well as information needed for quality improvement processes.

|             | A survey of American literature from the period of exploration and settlement through the Civil War. Students will study works of prose, poetry, drama, and
fiction in relation to their historical and cultural contexts. Texts will be selected from among a diverse group of authors for what they reflect and reveal about the evolving American experience and character. Prerequisite: ENGL 1301.

**ENGL 2328**  
**American Literature II (23.1402.51 12)**  
A survey of American literature from the Civil War to the present. Students will study works of prose, poetry, drama, and fiction in relation to their historical and cultural contexts. Texts will be selected from among a diverse group of authors for what they reflect and reveal about the evolving American experience and character. Prerequisite: ENGL 1301.

**ENGL 2331**  
**World Literature (16.0104.52 13)**  
A survey of world literature from the ancient world to the present. Students will study works of prose, poetry, drama, and fiction in relation to their historical and cultural contexts. Texts will be selected from a diverse group of authors and traditions. Prerequisite: ENGL 1301.

**ENGR 2301**  
Basic theory of engineering mechanics, using calculus, involving the description of forces, moments, and couples acting on stationary engineering structures; equilibrium in two and three dimensions; free-body diagrams; friction; centroids; centers of gravity; and moments of inertia. Prerequisite: PHYS 2425.

**ENGR 2302**  
Basic theory of engineering mechanics, using calculus, involving the motion of particles, rigid bodies, and systems of particles; Newton’s Laws; work and energy relationships; principles of impulse and momentum; application of kinematics and kinematics to the solution of engineering problems. Prerequisite: ENGR 2301. Co-requisite: MATH 2415.

**ENTC 1349**  
**Reliability and Maintainability**  
Equipment reliability and maintainability. Includes development and assessment of maintenance programs.

**GAME 1301**  
**Computer Ethics**  
A study of ethical issues that apply to computer related professions, intellectual property and privacy issues, professional responsibility, and the effects of globalization. Emphasizes the practical application of computer ethics through case studies and current events in the game and simulation industry.

**GEOL 1401**  
**Earth Sciences for Non-Science Majors I (40.0601.51 03)**  
Survey of geology, meteorology, oceanography, and astronomy. Laboratory activities will cover methods used to collect and analyze data in geology, meteorology, oceanography, and astronomy. Fee charged.

**GEOL 1402**  
**Earth Sciences for Non-Science Majors II (40.0601.51 03)**  
Extension of the study of geology, astronomy, meteorology and oceanography, focusing on natural resources, hazards and climate variability. Laboratory ac-
tivities will focus on methods used to collect and analyze data related to natural resources, hazards and climate variability. Prerequisite: GEOL 1401 or GEOL 1403. Fee charged.

GEOL 1403 Physical Geology (40.0601.54 03) 4.3.3
Introduction to the study of the materials and processes that have modified and shaped the surface and interior of Earth over time. These processes are described by theories based on experimental data and geologic data gathered from field observations. Laboratory activities will cover methods used to collect and analyze earth science data. Fee charged.

GEOL 1404 Historical Geology (40.0601.54 03) 4.3.3
A comprehensive survey of the history of life and major events in the physical development of Earth as interpreted from rocks and fossils. Laboratory activities will introduce methods used by scientists to interpret the history of life and major events in the physical development of Earth from rocks and fossils. Fee charged. Prerequisite: GEOL 1403.

GERS 1301 Introduction to Gerontology 3.3.0
Overview of the social, psychological, and biological changes that accompany aging. Focuses on the implications of these changes for the individual, as well as for the larger society.

GOVT 2305 Federal Government (Federal constitution & topics) (45.1002.51 25) 3.3.0
Origin and development of the U.S. Constitution, structure and powers of the national government including the legislative, executive, and judicial branches, federalism, political participation, the national election process, public policy, civil liberties and civil rights. Note: It is recommended that students take both semesters of government at the same institution.

GOVT 2306 Texas Government (Texas constitution & topics) (45.1002.51 25) 3.3.0
Origin and development of the Texas constitution, structure and powers of state and local government, federalism and inter-governmental relations, political participation, the election process, public policy, and the political culture of Texas. Note: It is recommended that students take both semesters of government at the same institution.

HART 1301 Basic Electricity for HVAC 3.2.4
Principles of electricity as required by HVAC, including proper use of test equipment, electrical circuits, and component theory and operation. Fee charged. Prerequisite: instructor approval.

HART 1303 Air Conditioning Control Principles 3.2.4
A basic study of HVAC and refrigeration controls; troubleshooting of control components; emphasis on use of wiring diagrams to analyze high and low voltage circuits; a review of Ohm’s law as applied to air conditioning controls and circuits. Fee charged.
HART 1307  Refrigeration Principles  3.2.4
An introduction to the refrigeration cycle, heat transfer theory, temperature/pressure relationship, refrigerant handling, refrigeration components, and safety. Fee charged.

HART 1310  HVAC Shop Practices and Tools  3.2.4
Tools and instruments used in the HVAC industry. Includes proper application, use and care of these tools, and tubing and piping practices. Fee charged.

HART 1341  Residential Air Conditioning & Refrigeration  3.2.4
A study of components, applications and installation of mechanical air conditioning systems including operating conditions, troubleshooting, repair and charging of air conditioning systems. Fee charged.

HART 1345  Gas and Electric Heating  3.2.4
Study of the procedures and principles used in servicing heating systems including gas fired furnaces and electric heating systems. Fee charged.

HART 1351  Energy Management  3.2.4
Study of basic heat transfer theory; sensible and latent heat loads; building envelope construction; insulation, lighting, and fenestration types; and conduct energy audit procedures. The course also develops energy audit recommendations based on local utility rates, building use, and construction. Laboratory activities include developing energy audit reports, installing energy saving devices, and measuring energy consumption. Fee charged.

HART 1356  EPA Recovery Certification Preparation  3.2.4
Certification training for HVAC refrigerant recovery, recycle, and reclaim. Instruction will provide a review of EPA guidelines for refrigerant recovery and recycling during the installation, service, and repair of all HVAC and refrigeration systems. Fee charged.

HART 1391  Special Topics in Heating, Air Conditioning & Refrigeration  3.2.4
Topics address recently identified current events, skills, knowledge, and/or attitudes and behaviors pertinent to the technology or occupation and relevant to the professional development of the student. This course was designed to be repeated multiple times to improve student proficiency. Fee charged.

HART 2331  Advanced Electricity for HVAC  3.2.4
Advanced electrical instruction and skill building in installation and servicing of air conditioning and refrigeration equipment including detailed instruction in motors and power distribution motors, motor controls, and application of solid state devices. Fee charged.

HART 2334  Advanced Air Conditioning Controls  3.2.4
Theory and application of electrical control devices, electromechanical controls and/or pneumatic controls.
HART 2336  Air Conditioning Troubleshooting  3.2.4
An advanced course in application of troubleshooting principles and use of test instruments to diagnose air conditioning and refrigeration components and system problems including conducting performance tests. Fee charged.

HART 2338  Air Conditioning Installation & Startup  3.2.4
A study of air conditioning system installation, refrigerant piping, condensate disposal, and air cleaning equipment with emphasis on startup and performance testing. Fee charged.

HART 2341  Commercial Air Conditioning  3.2.4
A study of components, applications, and installation of air conditioning systems with capacities of 25 tons or less. Fee charged.

HART 2342  Commercial Refrigeration  3.2.4
Theory and practical application in the maintenance of commercial refrigeration; medium, and low temperature applications and ice machines. Fee charged.

HART 2343  Industrial Air Conditioning  3.2.4
A study of components, accessories, applications, and installation of air conditioning systems above 25 tons capacity.

HART 2345  Residential Air Conditioning Systems Design  3.2.4
Study of the properties of air and results of cooling, heating, humidifying or dehumidifying; heat gain and heat loss calculations including equipment selection and balancing the air system. Fee charged.

HART 2349  Heat Pumps  3.2.4
A study of heat pumps, heat pump control circuits, defrost controls, auxiliary heat, air flow and other topics related to heat pump systems. Fee charged.

HART 2350  HVAC Zone Controls  3.3.4
Theory and application of HVAC residential Zone control devices, electromechanical controls, and/or pneumatic controls. Fee charged.

HART 2380  Cooperative Education - Heating, Air Conditioning and Refrigeration Technology/Technician  3.1.19
Career-related activities encountered in the student’s area of specialization offered through an individualized agreement among the college, employer, and student. Under the supervision of the college and the employer, the student combines classroom learning with work experience. Includes a lecture component.

HIST 1301  United States History I (54.0102.51  25)  3.3.0
A survey of the social, political, economic, cultural, and intellectual history of the United States from the pre-Columbian era to the Civil War/Reconstruction period. United States History I includes the study of pre-Columbian,
colonial, revolutionary, early national, slavery and sectionalism, and the Civil War/Reconstruction eras. Themes that may be addressed in United States History I include: American settlement and diversity, American culture, religion, civil and human rights, technological change, economic change, immigration and migration, and creation of the federal government.

HIST 1302 United States History II (54.0102.51 25)  3.3.0
A survey of the social, political, economic, cultural, and intellectual history of the United States from the Civil War/Reconstruction era to the present. United States History II examines industrialization, immigration, world wars, the Great Depression, Cold War and post-Cold War eras. Themes that may be addressed in United States History II include: American culture, religion, civil and human rights, technological change, economic change, immigration and migration, urbanization and suburbanization, the expansion of the federal government, and the study of U.S. foreign policy.

HIST 2301 Texas History (54.0102.52 25)  3.3.0
A survey of the political, social, economic, cultural, and intellectual history of Texas from the pre-Columbian era to the present. Themes that may be addressed in Texas History include: Spanish colonization and Spanish Texas; Mexican Texas; the Republic of Texas; statehood and secession; oil, industrialization, and urbanization; civil rights; and modern Texas.

HIST 2311 Western Civilization I (54.0101.54 25)  3.3.0
A survey of the social, political, economic, cultural, religious, and intellectual history of Europe and the Mediterranean world from human origins to the 17th century. Themes that should be addressed in Western Civilization I include the cultural legacies of Mesopotamia, Egypt, Greece, Rome, Byzantium, Islamic civilizations, and Europe through the Middle Ages, Renaissance, and Reformations.

HIST 2312 Western Civilization II (54.0101.54 25)  3.3.0
A survey of the social, political, economic, cultural, religious, and intellectual history of Europe and the Mediterranean world from the 17th century to the modern era. Themes that should be addressed in Western Civilization II include absolutism and constitutionalism, growth of nation states, the Enlightenment, revolutions, classical liberalism, industrialization, imperialism, global conflict, the Cold War, and globalism.

HIST 2321 World Civilizations I (54.0101.53 25)  3.3.0
A survey of the social, political, economic, cultural, religious, and intellectual history of the world from the emergence of human cultures through the 15th century. The course examines major cultural regions of the world in Africa, the Americas, Asia, Europe, and Oceania and their global interactions over time. Themes include the emergence of early societies, the rise of civilizations, the development of political and legal systems, religion and philosophy, economic
systems and trans-regional networks of exchange. The course emphasizes the development, interaction and impact of global exchange.

HIST 2322 World Civilizations II (54.0101.53 25) 3.3.0
A survey of the social, political, economic, cultural, religious, and intellectual history of the world from the 15th century to the present. The course examines major cultural regions of the world in Africa, the Americas, Asia, Europe, and Oceania and their global interactions over time. Themes include maritime exploration and transoceanic empires, nation/state formation and industrialization, imperialism, global conflicts and resolutions, and global economic integration. The course emphasizes the development, interaction and impact of global exchange.

HITT 1301 Health Data Content and Structure 3.3.1
Introduction to systems and processes for collecting, maintaining, and disseminating primary and secondary health related information including content of health record, documentation requirements, registries, indices, licensing, regulatory agencies, forms, and screens. This course requires completion of HITT 1305, ITSC 1309, MDCA 1309, HPRS 2301, HPRS 2300. Prerequisite: Acceptance into the Medical Records Coding Program.

HITT 1305 Medical Terminology I 3.3.1
Study of medical terms through word origin and structure. Introduction to abbreviations and symbols, surgical and diagnostic procedures, and medical specialties. Fee charged.

HITT 1342 Ambulatory Coding 3.2.3
Fundamentals of ambulatory coding rules, conventions, and guidelines. Prerequisite: Completion of all previous course work listed on the Medical Records Coding degree plan with a grade of “C” or better. This course requires concurrent enrollment in HITT 1441.

HITT 1345 Health Care Delivery Systems 3.3.0
Examination of delivery systems including organization, financing, accreditation, licensure, and regulatory agencies. Prerequisite: Completion of all previous course work listed on the Medical Records Coding degree plan with a grade of “C” or better.

HITT 1441 Coding and Classification Systems 4.3.3
Fundamentals of coding rules, conventions, and guidelines using clinical classification systems. Pre-requisite: Completion of all previous course work listed on the Medical Records Coding degree plan with a grade of “C” or better. This course requires concurrent enrollment in HITT 1442.

HITT 2335 Coding and Reimbursement Methodologies 3.3.1
Advanced coding techniques with emphasis on case studies, health records, and federal regulations regarding prospective payment systems and methods of reimbursement. Prerequisite: Completion of all previous course work listed on
the Medical Records Coding degree plan with a grade of “C” or better.

**HITT 2340 Advanced Medical Billing and Reimbursement 3.2.3**  
Skill development in coding to prepare reimbursement forms in various health care settings for submission to payors. The student will perform coding of health records using various classification systems; execute reimbursement forms; and apply revenue cycle management procedures. Fee charged.

**HPRS 1201 Introduction to Health Professions 2.2.0**  
An overview of roles of various members of the health care system, educational requirements, and issues affecting the delivery of health care.

**HPRS 1202 Wellness and Health Promotion 2.2.0**  
An overview of wellness theory and its application throughout the life span. Focus is on attitude development, impact of cultural beliefs, and communication of wellness.

**HPRS 2300 Pharmacology for Health Professions 3.3.0**  
A study of drug classifications, actions, therapeutic uses, adverse effects, routes of administration, and calculation of dosages.

**HPRS 2301 Pathophysiology 3.3.0**  
Study of the pathology and general health management of diseases and injuries across the life span. Topics include etiology, symptoms, and the physical and psychological reactions to diseases and injuries.

**HRGY 1319 Basic Horology I 3.1.8**  
Introduction to disassembly, cleaning, and reassembly of the basic watch using time proven methods. Emphasis on nomenclature.  
Prerequisite: None. Fee charged.

**HRGY 1320 Basic Horology II 3.1.8**  
Continuations of Basic Horology I with emphasis on identification and functions of parts common to all mechanical watches. Fee charged.

**HRGY 1321 Basic Horology III 3.1.8**  
Continuation of Basic Horology II. Emphasis on replacement of case parts as well as hairspring manipulation. Fee charged.

**HRGY 1322 Basic Horology IV 3.1.8**  
A continuation of Basic Horology III. Emphasis on replacement and repair of damaged parts in mechanical watches. Fee charged.

**HRGY 1371 Introduction to Computer Aided Jewelry Design 3.1.8**  
Study of the programs, operations, characteristics, modeling, and machining techniques of Computer Aided Design (CAD), Computer Aided Manufacturing (CAM) are explored in this course. Applications in visualization, rendering, animation, 2D design, 2½ D design and solid modeling, 3D design and
solid modeling. Prerequisite: Basic computer skills and applications or consent of instructor. Fee charged

HRGY 1372 Technical Illustration for Jewelry Design 3.1.8
Topics include pictorial drawing including isometrics, obliques, perspectives, charts, and graphs; shading and transfer lettering; and use of different media. Fee charged.

HRGY 1373 Basic Computer Aided Drafting for Jewelry Design 3.1.8
An introduction to computer-aided drafting. Emphasis is placed on drawing setup; creating and modifying geometry; storing and retrieving predefined shapes; placing, rotating, and scaling objects, adding text and dimensions, using layers, coordinating systems; as well as input and output devices. Fee charged.

HRGY 1374 Solid Modeling Design for Jewelry 3.1.8
A computer-aided modeling course, contents covers the development of three-dimensional drawings and models from sketches and orthographic drawings and utilization of three-dimensional models in design work. Fee charged.

HRGY 1381 Cooperative Education - Watchmaking and Jewelrymaking 3.1.19
Career-related activities encountered in the student’s area of specialization offered through an individualized agreement among the college, employer, and student. Under the supervision of the college and the employer, the student combines classroom learning with work experience. Includes a lecture component.

HRGY 1391 Special Topics in Watchmaking and Jewelry 3.2.4
Topics address recently identified current events, skills, knowledge, and/or attitudes and behaviors pertinent to the technology or occupation and relevant to the professional development of the student. This course was designed to be repeated multiple times to improve student efficiency. Fee charged.

HRGY 2301 Intermediate Horology I 3.1.8
Introduction to the theory and repair of watch escapements. End-of-Course Outcomes: Demonstrate repair and replacement of roller jewels, guard fingers, pallet jewels, pallet arbors; and perform escapement adjustment on basic mechanical watches. Fee charged.

HRGY 2302 Intermediate Horology II 3.1.8
Continuation of Intermediate Horology I with emphasis on advanced hairspring manipulation and friction jewelling. Fee charged.
Intermediate Horology III 3.1.8
Continuation of Intermediate Horology II with emphasis on complicated watch movements. Fee charged.

Intermediate Horology IV 3.1.8
A continuation of Intermediate Horology III with emphasis on complicated watch movements including disassembly, cleaning, and repair. Fee charged.

Intermediate Horology V 3.1.8
A continuation of Intermediate Horology IV with emphasis on speed. Focus on adjustment of escapements and hairsprings, precision timing, regulation of mechanical movements, and disassembly, cleaning, and repair of both calendar and self-winding watches. Fee charged.

Intermediate Horology VI 3.1.8
Continuation of Intermediate Horology V with further emphasis on speed to meet industry standards. Focus on adjustment of escapements and hairsprings, precision timing, regulation of mechanical movements, and disassembly, cleaning, and repair of both calendar and self-winding watches. Fee charged.

Intermediate Horology VII 3.1.8
Continuation of Intermediate Horology VI with emphasis on speed. Focus on disassembly, cleaning, and repair of automatic winding watches; and on precision timing including nomenclature, parts interchangeability, proper lubrication, and casing. Fee charged.

Intermediate Horology VIII 3.1.8
A continuation of Intermediate Horology VII with emphasis on speed. Focus on disassembly, cleaning, and repair of calendar watches; and on precision timing including nomenclature, parts interchangeability, proper lubrication, and casing. Fee charged.

Advanced Horology Systems I 3.1.8
A practical hands on training of disassembly, cleaning, repair and adjustment of timers and simple chronographs. Fee charged.

Advanced Horology Systems II 3.1.8
A continuation of Advanced Horology I with emphasis on speed. Includes the study of disassembly, cleaning, repair, and adjustment of timers, alarms, and other more complicated mechanical movements. Fee charged.

Advanced Horology Systems III 3.1.8
A continuation of Advanced Horology Systems II with emphasis on electronic theory related to quartz analog watches. Fee charged.

Advanced Horology Systems IV 3.1.8
Continuation of Advanced Horology Systems III including the repair of quartz analog and quartz digital timepieces. Fee charged.
HRPO 2301  Human Resources Management  3.3.0  
Behavioral and legal approaches to the management of human resources in organizations. The student will explain the development of human resources management; explain current methods of job analysis, recruitment, selection, training/development, performance management, promotion, and separation; describe management’s ethical, social, and legal responsibilities; explain methods of compensation and benefits planning; and describe the role of strategic human resources planning.

HYDR 1345  Hydraulics and Pneumatics  3.2.4  
Discussion of the fundamentals of hydraulics and pneumatics, components of each system, and the operations, maintenance, and analysis of each system. Fee charged.

IMED 1316  Web Design I  3.2.4  
Instruction in web design and related graphic design including mark-up languages, and browser issues. The student will identify how the Internet functions with specific attention to the file transfer; apply design techniques in the creation and optimization of graphics and other embedded elements; demonstrate the use of World Wide Web Consortium (W3C) formatting and layout standards; design, create, test, and maintain a web site.

INMT 2345  Industrial Troubleshooting  3.2.4  
An advanced study of the techniques used in troubleshooting various types of industrial equipment to include mechanical, hydraulic, and pneumatic systems and their control devices. Emphasis will be placed on the use of schematics and diagrams in conjunction with proper troubleshooting procedures.

INTC 1341  Principles of Automatic Control  3.2.4  
Basic measurements, automatic control systems and design, closed loop systems, controllers, feedback, control modes, and control configurations. Prerequisite: Instructor approval. Fee charged.

IRWS 0301  Integrated Reading and Writing I (32.0108.59  12)  3.3.1  
This is a basic developmental course providing integrated reading and writing instruction to prepare students for college writing and reading. Students are placed in to the course by test scores. The course may not be used to fulfill degree requirements.

IRWS 0302  Integrated Reading and Writing (IRW) (32.0108.59  12)  3.3.1  
Integration of critical reading and academic writing skills. Successful completion of this intervention fulfills TSIA2 requirements for reading and/or writing. Students are placed into the course by test scores. The course may not be used to fulfill degree requirements.

ITCC 1314  CCNA 1: Introduction to Networks  3.2.4  
This course covers networking architecture, structure, and functions; introduces the principles and structure of IP addressing and the fundamentals of
Ethernet concepts, media, and operations to provide a foundation for the curriculum. The student will build simple LANs; perform basic configuration on routers and switches; and implement IP addressing schemes.

**ITCC 1344**  **CCNA 2: Switching, Routing, and Wireless Essentials**  3.2.4  
Describes the architecture, components, and operations of routers and switches in small networks and introduces wireless local area networks (WLAN) and security concepts; provides an in-depth understanding of how routers and switches operate and are implemented in the LAN environment. The student will configure, secure, and maintain routers and switches; resolve common issues with routing protocols, virtual LANs, and inter-VLAN routing in both IPv4 and IPv6 networks; configure WLANs.

**ITCC 2320**  **CCNA 3: Enterprise Networking, Security, and Automation**  3.2.4  
Describes the architecture, components, operations, and security to scale for large, complex networks, including wide area network (WAN) technologies. Emphasizes network security concepts and introduces network virtualization and automation. The student will configure advanced routing and switching protocols; resolve common issues with routing and switching protocols; identify threats and enhance network security; implement IPv4 Access Control Lists (ACLs); configure Network Address Translation (NAT) services; explain virtualization, software defined networking, and automation.

**ITNW 1325**  **Fundamentals of Networking Technologies**  3.2.4  
Instruction in networking technologies and their implementation. Topics include the OSI reference model, network protocols, transmission media, and networking hardware and software. End-of-Course Outcomes: Identify and use network transmission media; explain the OSI model; Identify the characteristics of network topologies and protocols; identify the functions of a network operating system and distinguish between centralized, client/server, and peer-to-peer systems; and distinguish between Local Area Networks (LANs) and Wide Area Networks (WANs) and identify the components used to expand a LAN into a WAN.

**ITNW 1351**  **Fundamentals of Wireless LANs**  3.2.4  
Design, plan, implement, operate, and troubleshoot Wireless Local Area Networks (WLANs). Includes WLAN design, installation, and configuration; and WLAN security issues and vendor interoperability strategies. The student will explain wireless technologies, topographies, and standards; design, install, configure, monitor, maintain, and troubleshoot wireless networks; and implement wireless security using encryption, MAC filtering, Authentication, Authorization, and 802.1x technologies.

**ITNW 1354**  **Implementing and Supporting Servers**  3.2.4  
Implement, administer, and troubleshoot information systems that incorporate servers in a networked computing environment. The student will configure peripherals and devices; set up servers; configure directory replication;
manage licensing; create and manage system policies and profiles; administer remote servers and disk resources; create and share resources; implement fault-tolerance; configure servers for interoperability; install and configure Remote Access Service (RAS); and identify and monitor performance bottlenecks and resolve configuration problems.

**ITNW 2305**  
**Network Administration**  
Topics include network components, user accounts and groups, network file systems, file system security, and network printing. The student will describe the components of a local area network and their relationship; create and administer user accounts and groups; plan and set up network file systems; create effective file system security; and implement and administer network printing.

**ITNW 2313**  
**Networking Hardware**  
Exploration of hardware devices including cables, servers, and workstations, network connectivity devices and uninterruptible power supplies. The student will build network cables; identify and implement connectivity devices; select appropriate network power management devices; and determine the necessary computer hardware requirements for workstations and servers.

**ITSC 1305**  
**Introduction to PC Operating Systems**  
Introduction to personal computer operating systems including installation, configuration, file management, memory and storage management, control of peripheral devices, and use of utilities. The student will install, configure, and maintain the operating system; perform basic file management operations; organize and allocate primary and secondary storage; access and control peripheral devices; and run utilities.

**ITSC 1309**  
**Integrated Software Applications I**  
Introduction to business productivity software suites using word processing, spreadsheets, databases, and/or presentation software. The student will use word processing, spreadsheet, database, and/or presentation software; and integrate applications to produce documents. Prerequisite: Keyboarding proficiency.

**ITSC 1321**  
**Intermediate PC Operating Systems**  
Custom operating system installation, configuration and troubleshooting, management of file systems, memory, storage, and peripheral devices.

**ITSC 1325**  
**Personal Computer Hardware**  
Current personal computer hardware including assembly, upgrading, setup, configuration, and troubleshooting. End-of-Course Outcomes: Assemble/setup and upgrade personal computer systems; diagnose and isolate faulty components; optimize system performance; and install/connect peripherals.

**ITSC 2321**  
**Integrated Software Applications II**  
Intermediate study of computer applications from business productivity software suites. Instruction in embedding data and linking and combining docu-
ments using word processing, spreadsheets, databases, and/or presentation media software. The student will use intermediate word processing, spreadsheet, database, and/or presentation software techniques; and apply integration techniques to produce documents. Prerequisite: ITSC 1309 or COSC 1301.

**ITSC 2335 Application Software Problem Solving** 3.2.4
Utilization of appropriate application software to solve advanced problems and generate customized solutions.

**ITSC 2339 Personal Computer Help Desk Support** 3.2.4
Diagnosis and solution of user hardware and software related problems with on-the-job and/or simulated projects. The student will demonstrate rapport with users in problem-solving situations; analyze user problems and lead them through solutions; maintain problem logs; and formulate problem-solving methodologies.

**ITSC 2386 Internship - Computer and Information Sciences, General** 3.0.9
A work-based learning experience enables the student to apply specialized occupational theory, skills and concepts. A learning plan developed by the college and the employer will apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/industry; and will demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry.

**ITSW 1304 Introduction to Spreadsheets** 3.2.4
Instruction in the concepts, procedures, and application of electronic spreadsheets. The student will define spreadsheet terminology and concepts; create formulas and functions; use formatting features; and generate charts, graphs, and reports.

**ITSW 1307 Introduction to Database** 3.2.4
Introduction to database theory and the practical applications of a database. The student will identify database terminology and concepts; plan, define, and design a database; design and generate tables, forms, and reports; and devise and process queries.

**ITSW 1310 Introduction to Presentation Graphics Software** 3.2.4
Instruction in the utilization of presentation software to produce multimedia presentations. Graphics, text, sound, animation and/or video may be used in presentation development. The student will identify presentation media terminology and concepts; create presentations using text, visual and/or sound elements; use effective compositions and style; prepare presentations for distribution on computers or other media; and modify sequence and slide master.
ITSW 2334 Advanced Spreadsheets 3.2.4
Advanced techniques for developing and modifying spreadsheets. Includes macros and data analysis functions.

ITSY 1300 Fundamentals of Information Security 3.2.4
An introduction to information security including vocabulary and terminology, ethics, the legal environment, and risk management. Identification of exposures and vulnerabilities and appropriate countermeasures are addressed. The importance of appropriate planning, policies and controls is also discussed.

ITSY 1342 Information Technology Security 3.2.4
Instruction in security for network hardware, software, and data, including physical security; backup procedures; relevant tools; encryption; and protection from viruses.

ITSY 2300 Operating System Security 3.2.4
Safeguard computer operating systems by demonstrating server support skills and designing and implementing a security system. Identify security threats and monitor network security implementations. Use best practices to configure operating systems to industry security standards. Prerequisite: ITSY 1342.

ITSY 2301 Firewalls and Network Security 3.2.4
Identify elements of firewall design, types of security threats and responses to security attacks. Use Best Practices to design, implement, and monitor a network security plan. Examine security incident postmortem reporting and ongoing network security activities. Prerequisite: ITSY 1342.

ITSY 2330 Intrusion Detection 3.2.4
Computer information systems security monitoring, intrusion detection, and crisis management. Includes alarm management, signature configuration, sensor configuration, and troubleshooting components. Emphasizes identifying, resolving, and documenting network crises and activating the response team. Corequisite: ITSY 2300 and ITSY 2301.

ITSY 2342 Incident Response & Handling 3.2.4
In-depth coverage of incident response and incident handling, including identifying sources of attacks and security breaches; analyzing security logs; recovering the system to normal; performing postmortem analysis; and implementing and modifying security measures. Prerequisite: ITSY 2300 and ITSY 2301.

ITSY 2343 Computer System Forensics 3.2.4
In-depth study of system forensics including methodologies used for analysis of computer security breaches. Collect document and evaluate evidence to perform postmortem analysis of a security breach. Corequisite: ITSY 2342

ITSY 2345 Network Defense and Countermeasures 3.2.4
This is a practical application and comprehensive course that includes the planning, design, and construction of defenses for a complex network that will
sustain an attack, document events, and mitigate the effects of the attack. Pre-
requisite: ITSY 2300 and ITSY 2330; Corequisite: ITSY 2342.

**LTCA 1312  Resident Care in the Long Term Facility  3.3.0**
A study of the delivery of services to residents of long term care facilities in-
cluding ethical considerations and quality of life issues.

**JLRY 1301  Jewelry Techniques I  3.1.8**
Introduction to the basic techniques of jewelry repair including layout, sawing,
filin and emery. Emphasis on industry standards. Fee charged.

**JLRY 1302  Jewelry Techniques II  3.1.8**
Continuation of Jewelry Techniques I with emphasis on polishing. Fee charged.

**JLRY 1303  Jewelry Techniques III  3.1.8**
Continuation of Jewelry Techniques II including advanced skills in layout,
sawing, filing, emery, polishing, and soldering with limited fabrication. Fee
charged.

**JLRY 1309  Casting I  3.1.8**
Emphasis on lost wax casting, both centrifugal and vacuum processes. Includes
introduction to wax carving. Fee charged.

**JLRY 1313  Fundamentals of Gemology I (Diamonds)  3.1.8**
Development of skills in gem stone identification. Emphasis on diamonds in-
cluding diamond simulants, diamond grading, and the proper use and care of
laboratory instruments. Fee charged.

**JLRY 1314  Fundamentals of Gemology II (Colored Stones)  3.1.8**
Development of skills in gem stone identification. Emphasis on colored stones
including synthetics, enhancement and treatments, and the proper use and
care of laboratory instruments. Fee charged.

**JLRY 1341  Stone Setting I  3.1.8**
Focus on bead setting and bright cutting techniques. Fee charged.

**JLRY 1342  Stone Setting II  3.1.8**
Continuation of Stone Setting I. Focus on prong setting, repronging, retip-
ning, and reheading. Fee charged.

**JLRY 1343  Stone Setting III  3.1.8**
A continuation of Stone Setting II including fancy bright cuts, bezel sets, and
gypsy sets. Fee charged.

**JLRY 1344  Stone Setting IV  3.1.8**
A continuation of Stone Setting III including fancy bright cuts, bezel sets, and
gypsy sets, and the setting of multiple stones such as channel-setting, cluster-
setting, and fishtail-setting. Fee charged.

precious metals and assembly of die-struck and cast findings. General review of bench techniques from fabrication of a platinum pendant to soldering die-struck heads on mountings. Emphasis on speed. Students take the “Jewelers of America” certification exam for bench jewelers. Fee charged.

MATH 0300 Elementary Algebra (32.0104.51 19) 3.3.0
Topics covered normally include real numbers, linear equations and inequalities, application of linear equations, ratio and proportion, multiplication and division of polynomials, and factoring. This course is not for college-level credit and may not be used to satisfy degree requirements.

MATH 0400 Foundations of Mathematical Reasoning (32.0104.51 19) 4.3.2
This course surveys a variety of mathematical topics needed to prepare students for college level statistics or quantitative reasoning. Topics include: numeracy with an emphasis on estimation and fluency with large numbers; evaluating expressions and formulas; rates, ratios, and proportions; percentages; solving equations; linear models; data interpretations including graphs and tables; verbal, algebraic and graphical representations of functions; exponential models. This course is not for college-level credit and may not be used to satisfy degree requirements.

MATH 0401 Foundations of Algebraic Reasoning (32.0104.51 19) 4.3.2
Topics in mathematics including study of relations and functions, inequalities, algebraic expressions and equations (absolute value, polynomial, radical, rational), with a special emphasis on linear and quadratic expressions and equations. Recommended for STEM-majors who are not college ready in mathematics. Prerequisite: Satisfactory placement test score. This course is not for college-level credit and may not be used to satisfy degree requirements.

MATH 1314 College Algebra (27.0101.54 19) 3.3.0
In-depth study and applications of polynomial, rational, radical, exponential and logarithmic functions, and systems of equations using matrices. Additional topics such as sequences, series, probability, and conics may be included.

MATH 1316 Plane Trigonometry (27.0101.53 19) 3.3.0
In-depth study and applications of trigonometry including definitions, identities, inverse functions, solutions of equations, graphing, and solving triangles. Additional topics such as vectors, polar coordinates and parametric equations may be included. Prerequisite: MATH 1314 or concurrent enrollment in MATH 1314.

MATH 1324 Mathematics for Business & Social Sciences (27.0301.52 19) 3.3.0
The application of common algebraic functions, including polynomial, exponential, logarithmic, and rational, to problems in business, economics, and the social sciences are addressed. The applications include mathematics of finance, including simple and compound interest and annuities; systems of linear equations; matrices; linear programming; and probability, including expected value. Prerequisite: meet TSI college-readiness standard for Mathematics; or equivalent.
MATH 1325 Calculus for Business & Social Sciences (27.0301.53 19) 3.3.0
This course is the basic study of limits and continuity, differentiation, optimization and graphing, and integration of elementary functions, with emphasis on applications in business, economics, and social sciences. This course is not a substitute for MATH 2413, Calculus I. Prerequisite: MATH 1314 or 1324.

MATH 1332 Contemporary Mathematics (Quantitative Reasoning) (27.0101.51 19) 3.3.0
Intended for Non STEM (Science, Technology, Engineering, and Mathematics) majors. Topics include introductory treatments of sets and logic, financial mathematics, probability and statistics with appropriate applications. Number sense, proportional reasoning, estimation, technology, and communication should be embedded throughout the course. Additional topics may be covered.

MATH 1342 Elementary Statistical Methods (27.0501.51 19) 3.3.0
Collection, analysis, presentation and interpretation of data, and probability. Analysis includes descriptive statistics, correlation and regression, confidence intervals and hypothesis testing. Use of appropriate technology is recommended.

MATH 1350 Mathematics for Teachers I (Fundamentals of Mathematics I) (27.0101.56 19) 3.3.0
This course is intended to build or reinforce a foundation in fundamental mathematics concepts and skills. It includes the conceptual development of the following: sets, functions, numeration systems, number theory, and properties of the various number systems with an emphasis on problem solving and critical thinking. Prerequisite: MATH 1314 or the equivalent.

MATH 1351 Mathematics for Teachers II (Fundamentals of Mathematics II) (27.0101.57 19) 3.3.0
This course is intended to build or reinforce a foundation in fundamental mathematics concepts and skills. It includes the concepts of geometry, measurement, probability, and statistics with an emphasis on problem solving and critical thinking. Prerequisite: MATH 1314 or the equivalent.

MATH 2312 Pre-Calculus Math (27.0101.58 19) 3.3.0
In-depth combined study of algebra, trigonometry, and other topics for calculus readiness. Prerequisite: MATH 1314 or the equivalent preparation.

MATH 2320 Differential Equations (27.0101.64 19) 3.3.0
Ordinary differential equations, including linear equations, systems of equations, equations with variable coefficients, existence and uniqueness of solutions, series solutions, singular points, transform methods, and boundary value problems; application of differential equations to real-world problems. Prerequisite: MATH 2414.

MATH 2413 Calculus I (27.0101.59 19) 4.3.3
Limits and continuity; the Fundamental Theorem of Calculus; definition of the derivative of a function and techniques of differentiation; applications of the derivative to maximizing or minimizing a function; the chain rule, mean
value theorem, and rate of change problems; curve sketching; definite and indefinite integration of algebraic, trigonometric, and transcendental functions, with an application to calculation of areas. Prerequisite: MATH 1314 and 1316 or 2312 or by placement test scores.

MATH 2414 Calculus II (27.0101.60 19) 4.3.3
Differentiation and integration of transcendental functions; parametric equations and polar coordinates; techniques of integration; sequences and series; improper integrals. Prerequisite: MATH 2413.

MATH 2415 Calculus III (27.0101.61 19) 4.3.3
Advanced topics in calculus, including vectors and vector-valued functions, partial differentiation, Lagrange multipliers, multiple integrals, and Jacobians; application of the line integral, including Green's Theorem, the Divergence Theorem, and Stokes' Theorem. Prerequisite: MATH 2414.

MDCA 1210 Medical Assistant Interpersonal and Communications Skills 2.2.1
Emphasis on the application of basic psychological principles and the study of behavior as they apply to special populations. Topics include procedures for self-understanding and social adaptability in interpersonal communication with patients and co-workers in an ambulatory care setting.

MDCA 1309 Anatomy and Physiology for Medical Assistants 3.3.0
Emphasis on structure and function of human cells, tissues, organs, and systems with overview of common pathophysiology. The student will identify and correlate cells, tissues, organs, and systems of the human body; differentiate normal from abnormal structure and function; and differentiate all body systems, their organs, and relevant pathophysiology.

MDCA 1343 Medical Insurance 3.2.4
Emphasizes medical office coding for payment and reimbursement by patient or third party payers for ambulatory care settings. Prerequisite: HITT 1305.

MRKG 1311 Principles of Marketing 3.3.0
Introduction to the marketing mix functions and process. Includes identification of consumer and organizational needs and explanation of environmental issues. The student will identify the marketing mix components in relation to market segmentation; explain the environmental factors which influence consumer and organizational decision-making processes; and outline a marketing plan.

MUAP 1101 Strings (50.0903.54 26) 1.0.2
Individual Instruction. One lesson of thirty minutes per week. Intended for music majors and approved non-music majors. May be repeated for credit. Fee charged.
MUAP 1117  **Woodwind (50.0903.54 26)**  1.0.2  
Individual Instruction. One lesson of thirty minutes per week. Intended for music majors and approved non-music majors. May be repeated for credit. Fee charged.

MUAP 1137  **Brass (50.0903.54 26)**  1.0.2  
Individual Instruction. One lesson of thirty minutes per week. Intended for music majors and approved non-music majors. May be repeated for credit. Fee charged.

MUAP 1157  **Percussion (50.0903.54 26)**  1.0.2  
Individual Instruction. One lesson of thirty minutes per week. Intended for music majors and approved non-music majors. May be repeated for credit. Fee charged.

MUAP 1161  **Guitar (50.0903.54 26)**  1.0.2  
Individual Instruction. One lesson of thirty minutes per week. Intended for music majors and approved non-music majors. May be repeated for credit. Fee charged.

MUAP 1169  **Keyboard (50.0903.54 26)**  1.0.2  
Individual Instruction. One lesson of thirty minutes per week. Intended for music majors and approved non-music majors. May be repeated for credit. Fee charged.

MUAP 1181  **Voice (50.0903.54 26)**  1.0.2  
Individual Instruction. One lesson of thirty minutes per week. Intended for music majors and approved non-music majors. May be repeated for credit. Fee charged.

MUAP 1202  **Strings (50.0903.54 26)**  2.0.2  
Individual Instruction. One lesson of one hour per week. Intended for music majors and approved non-music majors. May be repeated for credit. Fee charged.

MUAP 1217  **Woodwind (50.0903.54 26)**  2.0.2  
Individual Instruction. One lesson of one hour per week. Intended for music majors and approved non-music majors. May be repeated for credit. Fee charged.

MUAP 1237  **Brass (50.0903.54 26)**  2.0.2  
Individual Instruction. One lesson of one hour per week. Intended for music majors and approved non-music majors. May be repeated for credit. Fee charged.

MUAP 1257  **Percussion (50.0903.54 26)**  2.0.2  
Individual Instruction. One lesson of one hour per week. Intended for music majors and approved non-music majors. May be repeated for credit. Fee charged.

<td></td>
</tr>
</tbody>
</table>
MUSI 1117 Sightsinging/Ear Training II (50.0904.56 26) 1.1.5
Continuation of MUSI 1116. Singing tonal music in treble, bass, alto, and
tenor clefs. Aural study, including dictation, of rhythm, melody, and diatonic
harmony. Must enroll concurrently in MUSI 1312. Prerequisite: MUSI 1116
with a minimum grade of “C.”

MUSI 1157 Opera Workshop I (50.0908.52 26) 1.0.3
Performance of portions of or complete operas and the study of the integration
of music, acting, and staging of an opera.

MUSI 1160 Italian Diction (50.0908.53 26) 1.1.1
A study of the International Phonetic Alphabet (IPA) and its application to
singing in Italian.

MUSI 1161 International Phonetic Alphabet (IPA) for Singers (50.0908.53 26) 1.1.1
A study of the International Phonetic Alphabet (IPA) and its application to
singing in English, Italian, German, and French.

MUSI 1181 Piano Class I (50.0907.51 26) 1.1.2
Class instruction in the fundamentals of keyboard technique for beginning
piano students. Fee charged.

MUSI 1182 Piano Class II (50.0907.51 26) 1.1.2
Advanced beginning class instruction in the fundamentals of keyboard tech-
nique. Fee charged.

MUSI 1183 Voice Class (50.0908.51 26) 1.1.2
Class instruction in the fundamentals of singing including breathing, tone pro-
duction, and diction. Designed for students with little or no previous voice
training. Does not apply to a music major degree. Fee charged.

MUSI 1303 Fundamentals of Music (50.0904.55 26) 3.3.2
Introduction to the basic elements of music theory, including scales, intervals,
keys, triads, elementary ear training, notation, meter, and rhythm.

MUSI 1306 Music Appreciation (50.0902.51 26) 3.3.0
Understanding music through the study of cultural periods, major composers,
and musical elements. Illustrated with audio recordings and live performances.

MUSI 1311 Music Theory I (50.0904.51 26) 3.3.0
Analysis and writing of tonal melody and diatonic harmony up to and includ-
ing the chords. Analysis and writing of small compositional forms. Correlated
study at the keyboard. Fee charged.

MUSI 1312 Music Theory II (50.0904.51 26) 3.3.0
The study of analysis and writing of tonal melody and diatonic harmony, in-
cluding all diatonic chords and seventh chords in root position and inversions,
non-chord tones, and functional harmony. Introduction to more complex top-
ics, such as modulation, may occur. Optional correlated study at the keyboard. Fee charged.

MUSI 2116  Sight Singing & Ear Training III (50.0904.57 26)  1.0.4
Singing more difficult tonal music including modal, ethnic, and 20th century materials. Aural study, including dictation, of more complex rhythm, melody, chromatic harmony, and extended tertian structures.

MUSI 2117  Sight Singing & Ear Training IV (50.0904.57 26)  1.0.4
Singing advanced tonal music and introduction of modal and post-tonal melodies. Aural study including dictation of advanced rhythm, melody, and harmony.

MUSI 2311  Music Theory III (50.0904.52 26)  3.3.0
Advanced harmony part writing and keyboard analysis and writing of more advanced tonal harmony including chromaticism and extended tertian structures. Introduction to 20th century compositional procedures and survey of the traditional large forms of composition. Correlated study at the keyboard. Fee charged.

MUSI 2312  Music Theory IV (50.0904.51 26)  3.3.0
Continuation of advanced chromaticism and survey of analytical and compositional procedures in post-tonal music. Optional correlated study at the keyboard. Fee charged.

NCBI 0004  Integrated Reading/Writing I (32.0108.60 12)
Integration of critical reading and academic writing skills. Successful completion of this intervention if taught at the upper (exit) level fulfills TSI requirements for reading and/or writing and is for students who are near the successful TSIA2 scores for reading and/or writing. Graded Pass/Fail. May not be used to fulfill degree requirements. (4 contact hour intervention)

NCBI 0016  Integrated Reading/Writing II (32.0108.60 12)  1.0.1
Integration of critical reading and academic writing skills. Successful completion of this intervention if taught at the upper (exit) level fulfills TSI requirements for reading and/or writing - Grade Pass/Fail. May not be used to fulfill degree requirements. (16 contact hour intervention)

NCBM 0004  Developmental Mathematics I (32.0104.54 19)
Topics in mathematics may include arithmetic operations, basic algebraic concepts and notation, geometry, real and complex number systems, study of relations and functions, inequalities, algebraic expressions and equations (absolute value, polynomial, radical, rational), with a special emphasis on linear and quadratic expressions and equations. May be taken by students who are near the successful TSIA2 scores for math. Graded Pass/Fail. May not be used to fulfill degree requirements. (4 contact hour intervention)
NCBM 0116  Developmental Mathematics II (32.0104.54 19)  1.0.1  
Topics in mathematics may include arithmetic operations, basic algebraic concepts and notation, geometry, real and complex number systems, study of relations and functions, inequalities, algebraic expressions and equations (absolute value, polynomial, radical, rational), with a special emphasis on linear and quadratic expressions and equations. May be taken by students who are near the successful TSIA2 scores for math. Graded Pass/Fail. May not be used to fulfill degree requirements. (16 contact hour intervention)

NURA 1260  Clinical - Nursing Assistant/Aide & Patient Care Assistant/Aide  2.0.8  
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.

NURA 1261  Clinical - Nursing Assistant/Aide and Patient Care Assistant/Aide  2.0.8  
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.

NURA 1301  Nurse Aide for Health Care  3.3.0  
Knowledge, skills, and abilities essential to provide basic care to residents of long-term care facilities. Topics include resident's rights, communication, safety, observation, reporting and assisting residents in maintaining basic comfort and safety. Emphasis on effective interaction with members of the health care team, restorative services, mental health, and social services needs.

NURA 1391  Special Topics in Nursing Assistant/Aide  3.3.0  
Topics address recently identified current events, skills, knowledge's, and/or attitudes and behaviors pertinent to the technology or occupation and relevant to the professional development of the student. This course was designed to be repeated multiple times to improve student proficiency.

OSHT 1305  OSHA Regulations – Construction Industry  3.3.1  
A study of Occupational Safety and Health Administration (OSHA) regulations pertinent to the construction industry.

PHED 1121  Varsity Cheerleading I (36.0108.51 23)  1.0.3  
Activity class.

PHED 1134  Introduction to Wellness (36.0108.51 23)  1.0.3  
Activity class.

PHED 1138  Maintenance of Wellness (36.0108.51 23)  1.0.3  
Activity class.

PHED 1142  Varsity Baseball I (36.0108.51 23)  1.0.3  
Activity class.
PHED 1143  Varsity Men’s Basketball I (36.0108.51 23)  1.0.3  
Activity class.

PHED 1144  Varsity Softball I (36.0108.51 23)  1.0.3  
Activity class.

PHED 1145  Varsity Women’s Basketball I (36.0108.51 23)  1.0.3  
Activity class.

PHED 1147  Varsity Men’s Soccer I (36.0108.51 23)  1.0.3  
Activity class.

PHED 1148  Varsity Women’s Soccer I (36.0108.51 23)  1.0.3  
Activity class.

PHED 1301  Foundations of Kinesiology (31.0501.52 23)  3.3.0  
The purpose of this course is to provide students with an introduction to hu-
man movement that includes the historical development of physical education,
exercise science, and sport. This course offers the student both an introduction to the
knowledge base, as well as, information on expanding career opportunities.

PHED 1304  Personal/Community Health (51.1504.51 16)  3.3.0  
This course provides an introduction to the fundamentals, concepts, strategies,
applications, and contemporary trends related to understanding personal and/
or community health issues. This course also focuses on empowering various populations with the ability to practice healthy living, promote healthy lifestyles, and enhance individual well-being.

PHED 1306  First Aid (51.1504.53 16)  3.3.0  
Instruction and practice for emergency care. Designed to enable students to recognize and avoid hazards within their environment, to render intelligent assistance in case of accident or sudden illness, and to develop skills necessary for the immediate and temporary care of the victim. Successful completion of the course may enable the student to receive a certificate from a nationally recognized agency.

PHED 1338  Concepts of Physical Fitness (31.0501.51 23)  3.3.0  
This course is designed to familiarize students with knowledge, understanding and values of health related fitness and its influence on the quality of life emphasizing the development and implementation of fitness programs.

PHED 1346  Drug Use and Abuse (51.1504.52 16)  3.3.0  
Study of the use, misuse and abuse of drugs and other harmful substances in today’s society. Physiological, sociological, pharmacological and psychological factors will be emphasized.

PHED 2121  Varsity Cheerleading II (36.0108.51 23)  1.0.3  
Activity class.
PHED 2142  Varsity Baseball II (36.0108.51 23)  1.0.3
Activity Class.

PHED 2143  Varsity Men's Basketball II (36.0108.51 23)  1.0.3
Activity class.

PHED 2144  Varsity Softball II (36.0108.51 23)  1.0.3
Activity class.

PHED 2145  Varsity Women's Basketball II (36.0108.51 23)  1.0.3
Activity class.

PHED 2147  Varsity Men's Soccer II (36.0108.51 23)  1.0.3
Activity class.

PHED 2148  Varsity Women's Soccer II (36.0108.51 23)  1.0.3
Activity class.

PHED 2356  Care and Prevention of Athletic Injuries (51.0913.52 16)  3.3.0
Prevention and care of athletic injuries with emphasis on qualities of a good
athletic trainer, avoiding accidents and injuries, recognizing signs and symp-
toms of specific sports injuries and conditions, immediate and long-term care
of injuries, and administration procedures in athletic training.

PHYS 1303  Stars and Galaxies (40.0201.51 03)  3.3.1
Study of stars, galaxies, and the universe outside our solar system. Fee charged.
No Prerequisite.

PHYS 1304  Solar System (40.0201.52 03)  3.3.1
Study of the sun and its solar system, including its origin. Fee charged. No
Prerequisite; may be taken prior to PHYS 1303.

PHYS 1401  College Physics I (40.0801.53 03)  4.3.3
Fundamental principles of physics, using algebra and trigonometry; the prin-
ciples and applications of classical mechanics and thermodynamics, including
harmonic motion, mechanical waves and sound, physical systems, Newton's
Laws of Motion, and gravitation and other fundamental forces; with emphasis
on problem solving. Laboratory activities will reinforce fundamental prin-
ciples of physics, as listed previously. Prerequisite: MATH 1314 and 1316 or
MATH 2312.

PHYS 1402  College Physics II (40.0801.53 03)  4.3.3
Fundamental principles of physics, using algebra and trigonometry; the prin-
ciples and applications of electricity and magnetism, including circuits, elec-
trostatics, electromagnetism, waves, sound, light, optics, and modern physics
topics; with emphasis on problem solving. Laboratory activities will reinforce
fundamental principles of physics, as listed previously. Prerequisite: PHYS 1401.

<td>PLAB 1223</td>
<td>Phlebotomy</td>
<td>Skill development in the performance of a variety of blood collection methods using proper techniques and standards precautions. Includes vacuum collection devices, syringes, capillary skin puncture, butterfly needles and blood culture, and specimen collection on adults, children, and infants. Emphasis on infection prevention, patient identification, specimen labeling, quality assurance, specimen handling, processing, accessioning, professionalism, ethics, and medical terminology.</td>
</tr>
<tr>
<td>PLAB 1260</td>
<td>Clinical - Phlebotomy/Phlebotomist 2.0.8</td>
<td>A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.</td>
</tr>
<tr>
<td>POFM 1300</td>
<td>Basic Medical Coding</td>
<td>Presentation and application of basic coding rules, principles, guidelines, and conventions utilizing various coding systems. Prerequisite: HITT 1305.</td>
</tr>
<tr>
<td>POFM 1302</td>
<td>Medical Software Applications</td>
<td>Medical software applications for the management and operation of health care information systems. The student will utilize medical software applications; manage patient database; process billing; maintain schedules; and generate reports.</td>
</tr>
</tbody>
</table>
POFT 1313  Professional Workforce Preparation  3.2.4
Preparation for career success including ethics, interpersonal relations, professional attire, and advancement.

POFT 1319  Records and Information Management I  3.2.3
Introduction to basic records information management systems including manual and electronic filing.

POFT 1321  Business Math  3.3.1
Fundamentals of business mathematics including analytical and critical thinking skills.

POFT 1329  Beginning Keyboarding  3.2.4
Skill development in keyboarding techniques. Emphasis on development of acceptable speed and accuracy levels and formatting basic documents.

POFT 2301  Intermediate Keyboarding  3.2.4
A continuation of keyboarding skills emphasizing acceptable speed and accuracy levels and formatting documents. Fee charged. Prerequisite: POFT 1329 or equivalent.

POFT 2312  Business Correspondence & Communication  3.2.3
Development of writing and presentation skills to produce effective business documents.

POFT 2386  Internship - Administrative Assistant and Secretarial Science, General  3.0.9
Development of writing and presentation skills to produce effective business documents.

PSYC 1100  Learning Framework (42.2701.51 25)  1.1.0
A study of the 1) research and theory in the psychology of learning, cognition, and motivation, 2) factors that impact learning, and 3) application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learning inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned. (Cross-listed as EDUC 1100.)

PSYC 1300  Learning Framework (42.2701.51 25)  3.3.0
A study of the 1) research and theory in the psychology of learning, cognition, and motivation, 2) factors that impact learning, and 3) application of learning strategies. Theoretical models of strategic learning, cognition, and motivation serve as the conceptual basis for the introduction of college-level student academic strategies. Students use assessment instruments (e.g., learn-
ing inventories) to help them identify their own strengths and weaknesses as strategic learners. Students are ultimately expected to integrate and apply the learning skills discussed across their own academic programs and become effective and efficient learners. Students developing these skills should be able to continually draw from the theoretical models they have learned. (Cross-listed as EDUC 1300.)

PSYC 2301  General Psychology (42.0101.51  25)  3.3.0
General Psychology is a survey of the major psychological topics, theories and approaches to the scientific study of behavior and mental processes.

PSYC 2314  Lifespan Growth and Development (42.2703.51  25)  3.3.0
Life-Span Growth and Development is a study of social, emotional, cognitive and physical factors and influences of a developing human from conception to death.

PSYC 2315  Psychology of Adjustment (42.0101.56  25)  3.3.0
Study of the processes involved in adjustment of individuals to their personal and social environments.

PSYC 2319  Social Psychology (42.2707.51  25)  3.3.0
Study of individual behavior within the social environment. May include topics such as the socio-psychological process, attitude formation and change, interpersonal relations, and group processes.

RADR 1201  Introduction to Radiography  2.2.0
An overview of the historical development of radiography, basic radiation protection, an introduction to medical terminology, ethical and legal issues for health care professionals, and an orientation to the profession and the health care system.

RADR 1213  Principles of Radiographic Imaging I  2.1.4
Radiographic image quality and the effects of exposure variables.

RADR 1266  Practicum - Radiologic Technology/Science - Radiographer  2.0.16
Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student.

RADR 1267  Practicum - Radiologic Technology/Science - Radiographer  2.0.16
Practical, general workplace training supported by an individualized learning plan developed by the employer, college, and student.

RADR 1303  Patient Care  3.2.4
An introduction in patient assessment, infection control procedures, emergency and safety procedures, communication and patient interaction skills, and basic pharmacology.

RA 2367  Practicum - Radiologic Technology/Science - Radiographer  3.0.24
Practical, general workplace training supported by an individualized learning
plan developed by the employer, college, and student.

RBTC 1301  Programmable Logic Controllers  3.2.4
A study in programmable logic controllers (PLC). Topics include processor
units, numbering systems, memory organization, relay type devices, timers,
counters, data manipulators, and programming. Fee charged.

RBTC 1351  Robotic Mechanisms  3.2.4
The application of principles and the calculation of practical problems involv-
ing four bar linkages, cams, gears, and gear trains. Topics include vector quan-
tities, angular displacement, motion concepts, velocities, and motions.

RNSG 1218  Transition to Professional Nursing Competencies  2.1.3
Transition to professional nursing competencies in the care of patients through-
out the lifespan. Validates proficiency in psychomotor skills and clinical rea-
soning in the performance of nursing procedures related to the concepts of:
clinical judgment, comfort, elimination, fluid and electrolytes, nutrition, gas
exchange, safety, functional ability, immunity, metabolism, mobility, and tis-
sue integrity. Includes health assessment and medication administration. This
course lends itself to a concept-based approach.

RNSG 1226  Professional Nursing Concepts II  2.2.0
Expanding professional nursing concepts and exemplars within the profes-
sional nursing roles. Applying concepts of clinical judgment, ethical-legal,
evidence-based practice, patient-centered care, professionalism, safety, and
team/collaboration to the exemplars presented in the Health Care Concepts II
course. Introduces concepts of leadership and management. Emphasizes role
development of the professional nurse. This course lends itself to a concept-
based approach.

RNSG 1237  Professional Nursing Concepts III  2.2.0
Application of professional nursing concepts and exemplars within the pro-
fessional nursing roles. Utilizes concepts of clinical judgment, ethical-legal,
evidence-based practice, patient-centered care, professionalism, safety, team-
work and collaboration. Introduces the concepts of quality improvement,
health information technology, and health care organizations. Incorporates
concepts into role development of the professional nurse. This course lends
itself to a concept-based approach.

RNSG 1324  Concept-Based Transition to Professional Nursing Practice  3.2.4
Integration of previous health care knowledge and skills into the role develop-
ment of the professional nurse as a provider of patient-centered care, patient
safety advocate, member of health care team, and member of the profession.
Emphasis is on clinical decision-making for patients and their families. Re-
view of selected health care and professional nursing concepts with application
through exemplars. Health care concepts include comfort, diversity, elimina-
tion, functional ability, human development, mobility, nutrition, sensory perception, sleep, coping, thermoregulation, tissue integrity, acid-base balance, clotting, cognition, fluid and electrolyte balance, gas exchange, immunity, metabolism, nutrition, grief, and perfusion. Professional nursing concepts include clinical judgment, communication, ethical-legal, evidence-based practice, health promotion, health information technology, patient-centered care, patient education, professionalism, safety, teamwork and collaboration. Introduces concepts of leadership and management. This course lends itself to a concept-based approach.

**RNSG 1538 Health Care Concepts III**  
5.0.0

In-depth coverage of health care concepts with nursing application through selected exemplars. Concepts include cellular regulation, end of life, immunity, interpersonal relationships, grief, human development, intracranial regulation, mood/affect, comfort, sexuality, mobility, and reproduction. Provides continuing opportunities for development of clinical judgement skills. This course lends itself to a concept-based approach.

**RNSG 2138 Professional Nursing Concepts IV**  
1.1.1

Integration of professional nursing concepts and exemplars within the professional nursing roles. Synthesizes concepts of clinical judgment, ethical-legal, evidence-based practice, leadership and management, patient-centered care, professionalism, teamwork, and collaboration through exemplars presented in the Health Care Concepts courses. Emphasizes concept of quality improvement and introduces health policy. Incorporates concepts into role development of the professional nurse. This course lends itself to a concept-based approach.

**RNSG 2160 Clinical - Registered Nursing/Registered Nurse**  
1.0.6

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.

**RNSG 2260 Clinical - Registered Nursing/Registered Nurse**  
2.0.10

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.

**RNSG 2363 Clinical - Registered Nursing/Registered Nurse**  
3.0.16

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional.

**RNSG 2539 Health Care Concepts IV**  
5.0.0

In-depth coverage of advanced health care concepts with nursing application through selected exemplars. Concepts include cognition, immunity, clotting,
fluid and electrolyte balance, gas exchange, metabolism, nutrition, perfusion, tissue integrity, and interpersonal relationships. Continuing development of clinical judgment with integration of all health care concepts. This course lends itself to a concept-based approach.

SOCI 1301  Introduction to Sociology (45.1101.51  25) 3.3.0
The scientific study of human society, including ways in which groups, social institutions, and individuals affect each other. Causes of social stability and social change are explored through the application of various theoretical perspectives, key concepts, and related research methods of sociology. Analysis of social issues in their institutional context may include topics such as social stratification, gender, race/ethnicity, and deviance.

SOCI 1306  Social Problems (45.1101.52  25) 3.3.0
Application of sociological principles and theoretical perspectives to major social problems in contemporary society such as inequality, crime and violence, substance abuse, environmental issues, deviance, or family problems.

SOCI 2301  Marriage & the Family (45.1101.54  25) 3.3.0
Sociological and theoretical analysis of the structures and functions of the family, the varied cultural patterns of the American family, and the relationships that exist among the individuals within the family, as well as the relationships that exist between the family and other institutions in society.

SOCI 2336  Criminology (45.0401.51  25) 3.3.0
The course surveys various theories of crime, with an emphasis on understanding the social causes of criminal behavior. The techniques for measuring crime as a social phenomenon and the characteristics of criminals are examined. This course addresses crime types (such as consensual or white-collar crimes), the criminal justice system, and other social responses to crime.

SPAN 1411  Beginning Spanish I (16.0905.51  13) 4.3.4
Basic Spanish language skills in listening, speaking, reading, and writing within a cultural framework. Students will acquire the vocabulary and grammatical structures necessary to communicate and comprehend at the beginner level.

SPAN 1412  Beginning Spanish II (16.0905.51  13) 4.3.4
Continued development of basic Spanish language skills in listening, speaking, reading, and writing within a cultural framework. Students acquire the vocabulary and grammatical structures necessary to communicate and comprehend at the high beginner to low intermediate level.

SPAN 2311  Intermediate Spanish I (16.0905.52  13) 3.2.4
The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world. Fee charged.
SPAN 2312 Intermediate Spanish II (16.0905.52 13)  3.2.4
The consolidation of skills acquired at the introductory level. Further development of proficiency in listening, speaking, reading and writing. Emphasis on comprehension, appreciation, and interpretation of the cultures of the Spanish-speaking world.

SPCH 1315 Public Speaking (09.0101.53 06)  3.3.0
Application of communication theory and practice to the public speaking context, with emphasis on audience analysis, speaker delivery, ethics of communication, cultural diversity, and speech organizational techniques to develop students’ speaking abilities, as well as ability to effectively evaluate oral presentations.

SPCH 1321 Business & Professional Communication (09.0101.52 06)  3.3.0
Study and application of communication within the business and professional context. Special emphasis will be given to communication competencies in presentations, dyads, teams and technologically mediated formats.

SPNL 1201 Health Care Spanish  2.2.1
Development of practical Spanish communication skills for the health care employee including medical terminology, greetings, common expressions, commands, and phrases normally used within a hospital or a physician’s office.

SRGT 1405 Introduction to Surgical Technology  4.3.2
Orientation to surgical technology theory, surgical pharmacology and anesthesia, technological sciences, and patient care concepts. Pre-requisite: Acceptance in the Surgical Technology Program and completion of all previous course work listed in the Surgical Technology certificate plan with a grade of “C” or better. This course requires concurrent enrollment in SRGT 1409, and both courses must be passed with a “C” or better within the same semester.

SRGT 1409 Fundamentals of Perioperative Concepts and Techniques  4.2.6
In-depth coverage of perioperative concepts such as aseptic principles and practices, infectious processes, wound healing, and creation and maintenance of the sterile field. Prerequisite: Acceptance in the Surgical Technology Program and completion of all previous course work listed in the Surgical Technology certificate plan with a grade of “C” or better. This course requires concurrent enrollment in SRGT 1405, and both courses must be passed with a “C” or better within the same semester.

SRGT 1441 Surgical Procedures I  4.3.2
Introduction to surgical pathology and its relationship to surgical procedures. Emphasis on surgical procedures related to the general, OB/GYN, genitourinary, otorhinolaryngology, and orthopedic surgical specialties incorporating instruments, equipment, and supplies required for safe patient care. Prerequisite: completion of all previous course work listed in the Surgical Technology certificate plan with a grade of “C” or better. This course requires concurrent
enrollment in SRGT 2461, and both courses must be passed with a “C” or better within the same semester.

**SRGT 1442 Surgical Procedures II** 4.3.2
Introduction to surgical pathology and its relationship to surgical procedures. Emphasis on surgical procedures related to the cardiothoracic, peripheral vascular, plastic/reconstructive, ophthalmology, oral/maxillofacial, and neurological surgical specialties incorporating instruments, equipment, and supplies required for safe patient care. Prerequisite: Acceptance in the Surgical Technology Program and completion of all previous course work listed in the Surgical Technology certificate plan with a grade of “C” or better. This course requires concurrent enrollment in SRGT 2462, and both courses must be passed with a “C” or better within the same semester.

**SRGT 2461 Clinical - Surgical Technology/Technologist** 4.0.20
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Clinical education is an unpaid learning experience. Prerequisite: completion of all previous course work listed in the Surgical Technology certificate plan with a grade of “C” or better. This course requires concurrent enrollment in SRGT 1441, and both courses must be passed with a “C” or better within the same semester.

**SRGT 2462 Clinical - Surgical Technology/Technologist** 4.0.20
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. Clinical education is an unpaid learning experience. Pre-requisite: completion of all previous course work listed in the Surgical Technology certificate plan with a grade of “C” or better. This course requires concurrent enrollment in SRGT 1442, and both courses must be passed with a “C” or better within the same semester.

**VNSG 1160 Clinical - Licensed Practical/Vocational Nurse Training** 1.0.6
A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. This course is a method of instruction that provides the application of general principles of growth and development, primary health care needs of the client across the life span and the application of basic therapeutic nursing interventions. On-site clinical instruction, supervision and evaluation, will provide education, training, work-based experience and direct patient care. Specific detailed clinical and skill objectives have been developed for this course by the faculty. This course must be taken as a co-requisite to VNSG 1500. VNSG 1160 and VNSG 1500 must be completed and passed within the same semester. If the student does not successfully complete both courses, future admissions will require enrolling in both courses within the same semester. Prerequisites: All previous course work listed on the degree plan for the vocational nursing certificate. Co-requisite: VNSG 1500.
VNSG 1219  Leadership and Professional Development  2.2.1
Study of the importance of professional growth. Topics include the role of the licensed vocational nurse in the multi-disciplinary health care team, professional organizations, and continuing education. Students will describe the role of the licensed vocational nurse in multi-disciplinary settings inclusive of basic principles of leadership and management; discuss the role of professional organizations and regulatory agencies; explain the Texas Board of Nursing Rules and Regulations and the Nurse Practice Act; and identify criteria and appropriate resources for continuing education.

VNSG 1222  Vocational Nursing Concepts  2.2.0
Introduction to the nursing profession and its responsibilities. Includes legal and ethical issues in nursing practice. Concepts related to the physical, emotional, and psychosocial self-care of the learner/professional. Students will discuss the personal adjustments essential to the development of the vocational nurse; identify the role of the licensed vocational nurse; and discuss the legal and ethical responsibilities in vocational nursing practice.

VNSG 1236  Mental Health  2.2.0
Introduction to the principles and theories of positive mental health and human behaviors. Topics include emotional responses, coping mechanisms, and therapeutic communication skills. Students will describe the characteristics of positive mental health; identify the coping mechanisms utilized by individuals to assist in alleviating stress and anxiety; and demonstrate the use of therapeutic communication skills.

VNSG 1330  Maternal – Neonatal Nursing  3.2.2
A study of the biological, psychological, and sociological concepts applicable to basic needs of the family including childbearing and neonatal care. Utilization of the nursing process in the assessment and management of the childbearing family. Topics include physiological changes related to pregnancy, fetal development, and nursing care of the family during labor and delivery and the puerperium. This course must be taken as a co-requisite to VNSG 1509 and VNSG 1560. VNSG 1330, VNSG 1509 and VNSG 1560 must be completed and passed within the same semester. If the student does not successfully complete all courses, future admissions will require enrolling in all required nursing courses within the same semester. Prerequisites: All previous course work listed on the degree plan for the vocational nursing certificate. Co-requisite: VNSG 1509, and VNSG 1560.

VNSG 1423  Basic Nursing Skills  4.2.6
Mastery of basic nursing skills and competencies for a variety of health care settings using the nursing process as the foundation for all nursing interventions. This course must be taken as a co-requisite to VNSG 1222. VNSG 1222 and VNSG 1423 must be completed and passed within the same semester. If the student does not successfully complete both courses, future admissions will
require enrolling in both courses within the same semester. Prerequisites: PSYC 2301, BIOL 2401, and BIOL 2402. Co-requisite: VNSG 1222.

**VNSG 1500 Nursing in Health and Illness I**

5.4.4

Introduction to general principles of growth and development, primary health care needs of the patient across the life span, and therapeutic nursing interventions. The student will describe the psychosocial, growth and development, and physiological needs of patients across the life span; identify primary health care needs of the patient; and identify the basic interventions to support the patient and family during life stages including death and dying. This course must be taken as a co-requisite to VNSG 1160. VNSG 1500 and VNSG 1160 must be completed and passed within the same semester. If the student does not successfully complete both courses, future admissions will require enrolling in both courses within the same semester. Prerequisites: All previous course work listed on the degree plan for the vocational nursing certificate. Co-requisites: VNSG 1160.

**VNSG 1509 Nursing in Health and Illness II**

5.4.3

Introduction to health problems requiring medical and surgical interventions. The student will compare and contrast normal physiology of body systems to pathologic variations in the patient with medical-surgical health problems; evaluate and treat patients with medical-surgical health problems using the nursing process including nutrition, pharmacological therapy, and principles of safety. This course must be taken as a co-requisite to VNSG 1330 and VNSG 1560. VNSG 1509, VNSG 1330 and VNSG 1560 must be completed and passed within the same semester. If the student does not successfully complete all courses, future admissions will require enrolling in all required nursing courses within the same semester. Prerequisites: All previous course work listed on the degree plan for the vocational nursing certificate. Co-requisites: VNSG 1330 & VNSG 1560.

**VNSG 1560 Clinical - Licensed Practical/Vocational Nurse Training**

5.0.17

A health-related work-based learning experience that enables the student to apply specialized occupational theory, skills, and concepts. Direct supervision is provided by the clinical professional. This course is a method of instruction that provides the application of basic therapeutic nursing interventions to common medical surgical healthcare needs of the client. On-site clinical instruction, supervision, and evaluation, will provide education, training, work-based experience and direct patient care. Specific detailed clinical and skill objectives have been developed for this course by the faculty. This course must be taken as a co-requisite to VNSG 1509 and 1330. VNSG 1509, 1330, and 1560 must be completed and passed within the same semester. If the student does not successfully complete all courses, future admissions will require enrolling in all required nursing courses within the same semester. Prerequisites: All previous course work listed on the degree plan for the vocational nursing certificate. Co-requisites: VNSG 1509 & VNSG 1330.
VNSG 2410  Nursing in Health and Illness III  4.4.1
Continuation of Nursing in Health and Illness II. Further study of medical-surgical health problems of the patient including concepts such as mental illness. Incorporates knowledge necessary to make the transition from student to graduate vocational nurse. This course must be taken as a co-requisite to VNSG 2460, VNSG 1219 and VNSG 1236. VNSG 2410, VNSG 2460, VNSG 1219 and VNSG 1236 must be completed and passed within the same semester. If the student does not successfully complete all courses, future admissions will require enrolling in all required nursing courses within the same semester. Prerequisites: All previous course work listed on the degree plan for the vocational nursing certificate. Co-requisite: VNSG 2460, VNSG 1219 and VNSG 1236.

VNSG 2460  Medical Surgical Clinical – Practical Nurse  4.0.16
This course is a method of instruction that provides the application of therapeutic nursing interventions to common medical surgical health care needs of the client. On-site clinical instruction, supervision, and evaluation, will provide education, training, work-based experience and direct patient care. Specific detailed clinical and skill objectives have been developed for this course by the faculty. This course must be taken as a co-requisite to VNSG 2410, VNSG 1219 and VNSG 1236. VNSG 2460, VNSG 2410, VNSG 1219 and VNSG 1236 must be completed and passed within the same semester. If the student does not successfully complete all courses, future admissions will require enrolling in all required nursing courses within the same semester. Prerequisites: All previous course work listed on the degree plan for the vocational nursing certificate. Co-requisite: VNSG 1219, 1236 and 2410.

WLDG 1313  Introduction to Blueprint Reading for Welders  3.2.4
A study of industrial blueprints. Emphasis placed on terminology, symbols, graphic description, and welding processes. Includes systems of measurement and industry standards. Also includes interpretation of plans and drawings used by industry to facilitate field application and production. Fee charged.

WLDG 1317  Introduction to Layout and Fabrication  3.2.4
A fundamental course in layout and fabrication related to the welding industry. Major emphasis on structural shapes and use in construction. Fee Charged.

WLDG 1323  Welding Safety, Tools, and Equipment  3.3.0
An introduction to welding equipment and safety practices, including OSHA standards for industry. Fee charged.

WLDG 1407  Introduction to Welding Using Multiple Processes  4.3.4
Basic welding techniques using some of the following processes: Oxy-fuel welding (OFW) and cutting, shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and gas tungsten arc welding (GTAW). Fee charged.
WLDG 1425  Introduction to Oxy-Fuel Welding and Cutting  \[4.3.2\]
An introduction to oxy-fuel welding and cutting, safety, setup and maintenance of oxy-fuel welding, and cutting equipment and supplies. Fee charged.

WLDG 1427  Welding Codes and Standards  \[4.4.0\]
An in-depth study of welding codes and their development in accordance with structural standards, welding processes, destructive and nondestructive test methods. Fee charged.

WLDG 1428  Introduction to Shielded Metal Arc Welding (SMAW)  \[4.2.4\]
An introduction to the shielded metal arc welding process. Emphasis placed on power sources, electrode selection, oxy-fuel cutting, and various joint designs. Instruction provided in SMAW fillet welds in various positions. Fee Charged.

WLDG 1430  Introduction to Gas Metal Arc Welding (GMAW)  \[4.3.4\]
Principles of gas metal arc welding, setup and use of Gas Metal Arc Welding (GMAW) equipment, and safe use of tools/equipment. Instruction in various joint designs. Fee Charged.

WLDG 1434  Introduction to Gas Tungsten Arc Welding (GTAW)  \[4.2.7\]
Principles of gas tungsten arc welding (GTAW), including setup, GTAW equipment. Instruction in various positions and joint designs. Fee Charged.

WLDG 1435  Introduction to Pipe Welding  \[4.2.4\]
An introduction to welding of pipe using the shielded metal arc welding process (SMAW), including electrode selection, equipment setup, and safe shop practices. Emphasis on various welding positions and electrodes. Fee Charged.

WLDG 1453  Intermediate Layout and Fabrication  \[4.2.4\]
An intermediate course in layout and fabrication. Includes design and production of shop layout and fabrication. Emphasis placed on symbols, blueprints, and written specifications. Fee Charged.

WLDG 1457  Intermediate Shielded Metal Arc Welding (SMAW)  \[4.2.7\]
A study of the production of various fillets and groove welds. Preparation of specimens for testing in various positions. Fee Charged.

WLDG 1491  Special Topics in Welder/Welding Technologist  \[4.2.4\]
Topics address recently identified current events, skills, knowledge, and/or attitudes and behaviors pertinent to the technology or occupation and relevant to the professional development of the student. This course was designed to be repeated multiple times to improve student proficiency. Fee Charged.

WLDG 2406  Intermediate Pipe Welding  \[4.2.4\]
A comprehensive course on the welding of pipe using the shielded metal arc welding (SMAW) process. Welds will be done using various positions. Topics
covered include electrode selection, equipment setup, and safe shop practices. Fee Charged.

WLDG 2413 Intermediate Welding Using Multiple Processes 4.2.7
Instruction using layout tools and blueprint reading with demonstration and guided practices with some of the following welding processes: oxy-fuel gas cutting and welding, shield metal arc welding (SMAW), gas metal arc welding (GMAW), flux-cored arc welding (FCAW), gas tungsten arc welding (GTAW). Fee Charged.

WLDG 2435 Advanced Layout and Fabrication 4.2.4
An advanced course in layout and fabrication. Includes production and fabrication of layout, tools, and processes. Emphasis on application of fabrication and layout skills. Fee Charged.

WLDG 2443 Advanced Shielded Metal Arc Welding (SMAW) 4.2.4
Advanced topics based on accepted welding codes. Training provided with various electrodes in shielded metal arc welding processes with open V-groove joints in various positions.

WLDG 2447 Advanced Gas Metal Arc Welding (GMAW) 4.2.7
Advanced topics in Gas Metal Arc Welding (GMAW). Includes welding in various positions. Fee Charged.

WLDG 2451 Advanced Gas Tungsten Arc Welding (GTAW) 4.2.7
Advanced topics in GTAW welding, including welding in various positions and directions. Fee Charged.

WLDG 2453 Advanced Pipe Welding 4.2.7
Advanced topics involving welding of pipe using the shielded metal arc welding (SMAW) process. Topics include electrode selection, equipment setup, and safe shop practices. Emphasis on weld positions 5G and 6G using various electrodes. Fee Charged.
Paris Junior College Staff

Administrative & Professional

Dr. Pamela Anglin ....................................................... President

Dr. Michael Erny ....................................................... Vice President of Workforce Development
A.A.S., B.S., M.S., Ed.D.

Rob Stanley ....................................................... Vice President of Academic Instruction,
Director, Sulphur Springs Center / Coordinator, Dual Credit
B.S., J.D.

William Wooten ....................................................... Vice President of Business Services
B.B.A., M.B.A.

Vacant ....................................................... Vice President of Student Access & Success

Ed McCraw ....................................................... Dean, Math & Sciences
B.S., M.S.

Eric Lewis ....................................................... Dean, Business and Industry Development
B.B.A., M.B.A.

Vacant ....................................................... Dean, Health Sciences

Jody Todhunter ....................................................... Director, Greenville Center
B.A., M.S.

Vacant ....................................................... Director, Continuing Education

Vacant ....................................................... Director, Small Business Development Center

Vacant ....................................................... Director, Workforce Training

Vacant ....................................................... Director, Library Services

Christi Timberlake Barham .................................. Director, Upward Bound and Talent Search
B.S., M.Ed.

Kelly Shane Boatwright ............................................ Chief of Campus Police
A.A.S., B.A.A.S.

Amie Cato ....................................................... Registrar
A.S., B.S., M.S.

Keith Coco ....................................................... Computer & Network Coordinator
A.A.S., B.S., M.S.

Carl Covert ....................................................... Librarian, Off-Campus Centers
A.A., B.A., M.A., M.L.S.

Clay Cox ....................................................... Athletic Director / Kinesiology and Baseball Coach
B.S., M.A., M.A.

Debra Craig ....................................................... Controller
B.A.S., M.B.S., Wayland Baptist University
Christopher Eakins ...................... Systems and Database Administrator
A.A.S., A.S.

Anthony Eilers ......................... Director, Information Technology
B.B.A.

Jon Eubanks .......................... Director, Plant Operations
Certificate, A.S.

Kimberly Herron ..................... Director, Financial Aid
B.S.

Ansley Hoskins ..................... Student Success Coach / ADA Coordinator
B.S., M.S.

Dr. Ashley Jones ..................... Director, Educational Opportunity Center
B.B.A.M., M.S., Ed.D.

Tamera Lewis ........................ Director, Nursing
B.S.N., M.S.N.

Baleigh McCoin ..................... Director, Institutional Advancement / Alumni Affairs
B.S., M.B.A.

Dr. Jacquelyn Messinger .......... Director, Institutional Research
A.A., B.A., M.A., Ed.D.

Mary Holbrook-Mims .............. Administrator, ERP/IT
B.S., M.S.

Margaret Ruff ...................... Director, Marketing and Public Relations
B.A., C.A.E.

Susan Sanchez .................. Director, Adult Education & Family Literacy
B.B.A.

Carolyn “Callie” Thompson .. Coordinator, Testing Center
B.S., M.A.

Kenneth Webb ...................... Director, Student Life
A.S., B.S., M.S.

Faculty

Rose Alfano .......................... Associate Degree Nursing
A.D.N., Texarkana College
B.S.N., Grand Canyon University
M.S.N./F.N.P., South University
Adult-Gerontology Acute Care Nurse Practitioner Certificate, Emory University

Fernando Arellano ................ Kinesiology and Head Men’s Soccer Coach
B.S., University of the Southwest
M.S., Arkansas State University
Christy Armes ................................. Associate Degree Nursing
  B.S.N., Eastern Oklahoma State College
  M.S.N., American Sentinel University

Christopher Bardrick ..................... Air Conditioning & Refrigeration
  A.S., Oklahoma State University Institute of Technology
  B.S., LeTourneau University

Donald Bates ................................. English
  B.A., University of Oklahoma
  M.A., Sam Houston State University

John “Brad” Bolton ......................... Licensed Vocational Nursing
  B.S.N., University of Texas at Arlington

Dr. Jack Brown .............................. Biology
  B.S., M.S., Ed.D., Texas A&M University - Commerce

Benjamin Burden ............................ Economics
  B.S., Texas A&M University
  M.S., Baylor University

Paul Burns ................................. Kinesiology and Head Women’s Soccer Coach
  B.A., Staffordshire University (UK)
  M.Ed., University of Missouri-Columbia

Brittany Christian ........................ Kinesiology, and Women’s Basketball Coach
  B.S., Saint Paul’s College
  M.S., Virginia State University

Dr. Jennifer Collar ........................ English
  B.A., M.A., Ph.D., Texas A&M University - Commerce

Marla Cox ................................. Psychology
  B.S., M.S., Texas A&M University - Commerce

Cedric Crawford ........................ Computer Information Systems
  A.A.S., Paris Junior College
  B.A.A.S., University of North Texas
  M.S., Western Governors University
  CEH Certification

Mayra Cummings ......................... Foreign Language
  B.A., M.S., Texas A&M University - Commerce

Russell Dieterich ........................ Electrician
  A.A.S., Texas State Technical College
  Texas Journeyman Electrician License
  Oklahoma Master Electrician License
Wanda Duncan ........................................... Computer Information Systems
  B.S., Franklin University
  M.B.A., Capella University

Ella Duren .................................................. Education
  A.S., Paris Junior College
  B.S., West Texas A&M University
  M.Ed., Texas A&M University - Commerce

Deborah Elmore ........................................... Associate Degree Nursing
  A.A.S., Paris Junior College
  M.S.N. F.N.P., Walden University

Laura Fendley ............................................. Radiology Technology
  A.S., Paris Junior College
  B.A.A.S., Texas A&M University - Commerce

Bobby Fields .............................................. Coordinator / Instructor, Mechatronics
  A.S., Paris Junior College
  B.S., Elcesior College

Ashley Flanagan ........................................... Diagnostic Medical Sonography
  B.S., M.A., Texas A&M University - Commerce
  Certificate of Diagnostic Medical Sonographer General and
      Vascular Sonography, Sanford Brown Institute

Micha Flowers ............................................. History
  B.S., M.S., Texas A&M University - Commerce

John Fornof .............................................. Mathematics
  B.S., M.S., Texas A&M University - Commerce

William Foy ................................................. Kinesiology and Men's Basketball Coach
  B.S., Indiana University
  M.S., Prairie View A&M University

Jeff Frankland ............................................. Mechatronics
  A.S., Grayson College
  B.S., Texas Tech University

Carey Gable ................................................. English
  B.A., University of Mary Hardin-Baylor
  M.A., Texas A&M University - Commerce

Norman Gilbert ............................................. Surgical Technology
  Certificate, South Plains College
  B.S., Texas A&M University - Commerce
Danielle Gerhardt-Gilbreath .......................... Licensed Vocational Nursing
A.A.S., Paris Junior College
B.S.N., University of Texas at Arlington

Dr. Paul Guidry ................................. Criminal Justice
B.A., Ph.D., University of Louisiana at Lafayette
M.C.J., University of Colorado - Colorado Springs

Dr. Ken Haley ...................................... English
B.A., Prairie View A&M University
M.A., Ph.D., Texas A&M University

Kenneth Hanushek ................................... Government
B.A., Grove City College
M.S., Texas A&M University - Commerce
M.S., Auburn University

Ashton Henderson ................................... Jewelry
B.A., University of Notre Dame

Dr. Michael Holderer ............................... Music / Director of Choirs
B.A., University of Notre Dame
M.M., University of New Mexico
D.M.A., University of Texas

Clint Hutchins ................................. Welding Technology
Certificate, Welding, Paris Junior College
Certificate, HVAC, Paris Junior College
A.A.S., Paris Junior College

Dr. Mark Kjellander ...................... Computer Information Systems
B.B.A., Texas A&M University - Commerce
M.S., M.B.A., Strayer University
Ph.D., Saint Leo University

Dr. Beverly Kopachenja ........................ Biology
B.S., M.S., Ed.D., Texas A&M University - Commerce

Brandon Langehennig ............................ Government
B.S., M.S., Texas A&M University - Commerce

Dr. Lee LaRue .......................... Mathematics and Physics
B.S., Texas A&M University
M.S., Texas A&M University - Commerce
Ed.D., American College of Education

Nick Leija ........................................ Welding
A.A.S., Paris Junior College
Nicole Lorraine ........................................ Mathematics
  B.S., University of Texas at Arlington
  M.S., Texas A&M University - Commerce

Arby Magill ............................................. Jewelry/Gemology/CAD
  GG Certificate, Gemology Institute of America

Christopher Malone ................................ Drafting
  A.A.S., Paris Junior College

Dr. Paul May ........................................ Speech
  B.S., Mississippi College
  M.S., M.Ed., Ph.D., University of North Texas

Stanley McMahan, Jr. ................................. Horology
  Certified Instructor and Watchmaker, Watchmakers of Switzerland Training
  and Educational Program (WOSTEP)

Kelly Merritt ........................................... Associate Degree Nursing
  A.A.S., Paris Junior College
  B.S.N., University of Texas at Arlington
  M.S.N./F.N.P., University of Texas at Tyler

Linda Miles ........................................... Psychology
  A.A., Paris Junior College
  B.A., Texas A&M University - Commerce
  M.S., Capella University

Sarah Morrison ......................................... Mathematics
  B.S., M.S., Texas A&M University - Commerce

Paige Myers ........................................... Speech
  B.A., M.A., Northern Illinois University

Lance Neill ........................................... Associate Degree Nursing
  A.S.N., Southern Arkansas University
  B.S.E., University of Arkansas - Fayetteville
  M.S.N., University of Houston - Victoria

Christopher Nichols ................................ English
  B.A., M.A., Texas A&M University - Commerce

Serina Omori ......................................... Jewelry
  Certificates, Gemological Science & Jewelry Technology, A.A.S., Paris Junior College
  Master Jeweler Certification, Jeweler’s of America
  B.A., Portland State University (OR)

Marjorie Pannell .................................. Computer Information Systems
  A.A.S., Paris Junior College
  B.A.A.S., Texas A&M University - Commerce
  M.S., Tarleton State University
Randa Parris ................................. Simulation Lab Coordinator
A.A.S., Paris Junior College
B.S.N, Oklahoma Wesleyan University

Kelly Waltman Payne ............................. Government
B.A., M.A., Texas Woman's University

Alex Peevy .................................. Drama and Speech
B.S., Northwestern State University
M.S., Texas A&M University - Commerce

John Plemons ............................... Welding
Certificates in Structural Steel Welding, Pipe Welding and Advanced Welding
Shop Technology
A.A.S., Paris Junior College

Jon Rutherford ............................ Sociology
B.S., M.S., Texas A&M University - Commerce

Rebecca Scott ............................... Associate Degree Nursing
A.A.S., Paris Junior College
M.S.N., University of Texas at Arlington

Kristi Shultz .................................. Enhanced Nurse Aide
A.A.S., A.D.N., R.N., Paris Junior College

Lisa Shelton ................................ Chemistry
B.S., M.S., Texas A&M University - Commerce

Shelby Shelton ............................... Kinesiology and Softball Coach
A.A., Howard College
B.S., University of Texas - Tyler
M.S., Texas A&M University - Commerce

Matt Siddens ................................. Welding
Certificate, A.A.S., Texas State Technical College

James Smith ................................ Emergency Medical Services
A.A.S., Texarkana College
B.A.A.S., Texas A&M University - Texarkana

Lena Spencer ................................ Art
A.S., Paris Junior College
B.F.A., M.S., Texas A&M University - Commerce

Svetlana “Lana” Steich ......................... Mathematics
B.S., M.S., Sam Houston State University

Dr. Jeanmarie Stiles .......................... Biology
B.S., M.S., University of Texas at Arlington
PhD, Northern Arizona University
Jenny Sullivan .................................. Licensed Vocational Nursing
A.A.S., Motlow State Community College
B.S., Abilene Christian University

Tim Sullivan ............................... Coordinator/Faculty, Aviation Technology
A.A.S., Community College of the Air Force

Robert Caleb Talley ............................. Mathematics
B.S., Texas Women's University
M.Ed., Texas A&M University - Commerce
Principal Certification, Lamar University

Jeffrey Tarrant .................................................. Economics
B.S., M.S., University of North Texas

Jason Taylor .................................................. Biology
A.S., Paris Junior College
B.S., M.S., Texas A&M University - Commerce

Heath Thomas ............................... Emergency Medical Services
A.S., Paris Junior College
B.S., Columbia Southern University
Paramedic, Advance Coordinator Certifications, Texas DSHS

Heather Unruh ............................................ Radiology Technology
R.T. (R) (CT), American Registry of Radiologic Technologists
A.S., A.A.S., Paris Junior College
B.A.A.S., M.B.A., Texas A&M University - Commerce

William Walker .................................. Drama
A.A., Blinn College
B.F.A., Sam Houston State University
M.A., Texas Woman’s University

Jennifer Washington .......................... Coordinator / Instructor, Medical Records Coding
Diploma in Medical Billing & Coding / Certified Professional Coder, Everest College
A.A.T., Paris Junior College

Matt White ................................................. History
B.S., M.S., Texas A&M University - Commerce

Chastity Woodson .................. Mathematics
B.S., Texas A&M University - Commerce
